

**INCIDENT MANAGEMENT SITUATION REPORT  
THURSDAY MAY 27, 2004 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 1**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 107 new fires reported. One new large fire was reported in the Southern Area. One large fire was contained in the Southern Area. Very high to extreme fire indices were reported in Arizona, Florida, New Mexico, Nevada and Texas.

**SOUTHWEST AREA LARGE FIRES:**

PEPPIN, Lincoln National Forest. A Type 2 Incident Management Team (Bateman) is assigned. This fire is six miles north of Capitan, NM in timber. Hazardous terrain and heavy dead fuel loading continue to be a major concern. Fire behavior has moderated considerably due to favorable weather conditions. Crews continue to make good progress preparing for burnout operations as well as protecting communication sites and numerous structures.

KP, Apache-Sitgreaves National Forest. A Type 2 Incident Management Team (Kvale) is assigned. This fire is 20 miles south of Alpine, AZ in brush, ponderosa pine and mixed conifer timber. Poor access, heavy fuel loading and steep rugged terrain have hampered suppression efforts. Fire behavior continues to remain less active due to partial cloud cover, higher relative humidity and cooler temperatures. Reduction in acreage was due to more accurate mapping. US Highway 191 will remain closed to public access in order to provide for firefighter and public safety.

LOOKOUT, Cibola National Forest. A transfer of command will occur from Winchester's Type 2 Incident Management Team to a Type 3 organization today. This fire is 70 miles southeast of Albuquerque, NM in grass ponderosa pine and mixed conifer. Drought stressed fuels, steep terrain and high winds remain a concern for suppression resources. A trace amount of precipitation fell on the incident reducing fire behavior. Minimal fire activity was observed.

## SOUTHERN AREA LARGE FIRES:

BLOCKS H&J, Everglades National Park. This fire is 15 miles west of Homestead, FL in grass, brush and hardwood timber. Minimum Impact Suppression Tactics (MIST) continues with good success. Active surface fire was observed.

BOMBING RANGE 1, National Forests in Florida. This fire is 14 miles north-northwest of Umatilla, FL in brush and pine timber. This fire is within a Naval bombing range; no ground suppression action will be allowed. A confinement strategy is in place and fire activity may continue until a rain event. Active fire behavior with crowning, torching, running and spotting was observed. No further information was received.

CORAPEAKE ROAD, Great Dismal Swamp National Wildlife Refuge. This fire is 18 miles south-southwest of Chesapeake, VA in brush. No new information was reported.

### OUTLOOK:

**Weather Discussion:** Two low pressure areas will affect the western states today. The first will move across the Southwest, providing the possibility of a mixture of wet and dry thunderstorms. The system will depart overnight, leaving windy and drier conditions for the end of the week. The second will provide cool temperatures and rain showers over northern California, the central and northern Great Basin, as well as the Northwest. Florida will continue to remain hot and dry with very little in the way of thunderstorms.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>SOUTHWEST AREA</b> Mostly sunny skies west, partly cloudy becoming cloudy central and east with showers and storms developing.	60s and 70s mountains 80s and 90s lower elevations	10 to 30%	Southwest 10 to 15 mph with higher gusts most areas, although southwest to west 15 to 30 mph with higher gusts extreme southern New Mexico into southwest Texas.
<b>ROCKY MOUNTAIN AREA</b> Partly sunny. Isolated afternoon thunderstorms over southwest Wyoming.	70 to 80 lower elevations near 85 over southeast Colorado and the southern plains	10 to 20% over southern Colorado 20 to 30% elsewhere	Most of the Rocky Mountain Area can expect 5 to 15 mph winds, except a 10 to 20 mph westerly breeze over portions of western Wyoming.
<b>SOUTHERN CALIFORNIA AREA</b> Areas of morning low clouds and fog to the lower coastal slopes. Showers or thunderstorms north of San Luis Obispo-Fresno-Bishop line overnight.	60 to 70 coastal areas 60 to 75 mountains 75 to 88 valleys 80 to 90 upper deserts 90 to 100 lower deserts	15 to 30%	Southwest 10 to 20 mph with higher gusts mountains and deserts.
