

**INCIDENT MANAGEMENT SITUATION REPORT  
FRIDAY, AUGUST 5, 2005 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 3**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 159 fires reported. Five new large fires were reported, two in the Northern Rockies Area, and one each in the Northwest, Northern California, and Southern Areas. Six large fires were contained, four in the Northwest Area and one each in the Western Great Basin and Southern California Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, Oregon, South Dakota, Utah and Washington.

**NORTHWEST AREA INCIDENTS / LARGE FIRES:**

DIRTY FACE, Washington State Department of Natural Resources - Southeast. A Washington Interagency Incident Management Team (Furlong/Gormley) is assigned. This fire is 25 miles northwest of Leavenworth, WA in timber. Steep, inaccessible terrain continues to hinder containment efforts. An evacuation notice is in effect for nearby residences. Structure protection is in place. Private residences, historic sites, a state park and endangered species habitat remain threatened. The fire reported short upslope runs, occasional torching and downslope backing fire.

BLOSSOM COMPLEX, Siskiyou National Forest. A Type 2 Incident Management Team (Paul) is assigned. This complex, comprised of the Blossom and Solitude fires, is 25 miles northeast of Gold Beach, OR in timber. A road closure order remains in effect. Inaccessible terrain continues to hamper containment efforts. Increased fire activity with torching, running and spotting was reported.

MULE PEAK, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (West) is assigned. This fire is 20 miles southeast of La Grande, OR in timber and grass. Mule Peak Lookout, outbuildings and endangered species habitat remain threatened. Steep terrain and heavy subalpine fuels continue to impede containment efforts. Torchining and short range spotting continue to occur.

CAMAS CREEK, Oregon Department of Forestry. This fire is 16 miles east of Myrtle Point, OR in timber and logging slash. Steep terrain continues to impede containment efforts. Creeping was reported. No further information was received.

SHADY, North Cascades National Park. This fire is three miles northwest of Stehekin, WA in timber, brush and grass. Stehekin community structures are threatened. The fire reported minimal fire behavior with creeping and smoldering.

LICK CREEK, Washington State Department of Natural Resources Southeast. This fire is six miles north of Cle Elum, WA in logging slash, brush understory, timber and grass. Active fire was reported.

### NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

ROCKIN COMPLEX, Bitterroot National Forest. This complex, comprised of four fires, is 10 miles northwest of Darby, MT in timber. An area closure is in effect for Rock Creek trailhead and the west end of Lake Como. Narrow canyons, steep, rocky terrain and adverse weather conditions are hampering containment efforts. Extreme fire behavior with torching and crowning was observed.

I 90, Lolo National Forest. A Type 1 Incident Management Team (Sandman) has been ordered. This fire is one mile south of Alberton, MT. Evacuations are in effect for residences and businesses surrounding Alberton. Interstate 90 is closed.

FROG POND, Beaverhead/Deerlodge National Forest. A Type 2 Incident Management Team (Larsen) is assigned. This fire is 25 miles southwest of Phillipsburg, MT in timber. Scattered smokes and minimal open flames were reported.

### EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

SNAKE ONE, Payette National Forest. A Type 2 Incident Management Team (Whalen) is assigned. This fire is 21 miles northwest of Weiser, ID in grass. Private residences, grazing allotments and sage grouse habitat remain threatened. Steep, rugged terrain continues to impede containment efforts. Minor hot spots were reported.

SHEEP CREEK, Ashley National Forest. A transfer of command from a Fire Use Management Team (Clark) back to the local unit will occur today. This lightning-caused Wildland Fire Use (WFU) incident is 20 miles southwest of Manila, UT in timber litter and lodgepole pine. The fire is being managed to accomplish resource objectives. Isolated smokes were reported.

DAMMERON COMPLEX, Cedar City Field Office, Bureau of Land Management. This complex, comprised of the Dammeron, Mill Creek, Yant and Stahlie fires, is five miles north of St. George, UT in mixed conifer, pinyon, juniper and grass. The east side of the fire within the Pine Valley Wilderness Area continues to be monitored. No further information was received.

#### ALASKA AREA INCIDENTS / LARGE FIRES:

NULATO #3, Alaska Fire Service, Galena Zone. A Type 2 Incident Management Team (Jandt) is assigned. This fire is four miles northwest of Nulato, AK in brush. This incident also includes the South Fork fire. Native allotments remain threatened. An increase in fire behavior on the west flank was reported. The South Fork #2 fire was controlled.

MISSION CREEK, Alaska Fire Service, Upper Yukon Zone. This fire started on Alaska Native Claims Settlement Act land nine miles west of Eagle, AK in black spruce and tundra. The incident reported isolated torching, creeping and smoldering. Decrease in acreage is due to more accurate mapping.

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. A Type 2 Incident Management Team (Walker) is assigned. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. A portion of the fire is in Canada. Structures along the Taylor Highway near O'Brien and Dome Creeks are potentially threatened. Smoldering and creeping with isolated torching were reported. Increase in acreage is due to more accurate mapping.

PARADISE CREEK, Alaska Fire Service, Galena Zone. This fire is 15 miles south of Anvik, AK in black spruce and tundra. Higher relative humidity and cloud cover moderated fire activity. No further information was received.

WEST DEER HUNTER, Alaska Fire Service, Galena Zone. This fire is 20 miles south of Anvik, AK in grass, tundra, and black spruce. No new information was reported.

### SOUTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

PINYON COMPLEX, Inyo National Forest. This complex, comprised of the Oak Creek, Pinyon and Hogback fires is six miles northwest of Independence, CA in timber and brush. The north and south forks of Sawmill Creek are in patrol status. Creeping was observed.

COMB COMPLEX, Sequoia & Kings Canyon National Park. A Fire Use Management Team (Hall) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Comb and East Creek fires is 18 miles northeast of Grant Grove, CA in mixed conifer and chaparral. The fire is being managed to accomplish resource objectives. Minimal fire growth was reported.

## OUTLOOK:

**Weather Discussion:** Most of the West will continue to warm and dry as high pressure strengthens over the region. Some mid and high level moisture will move up from Arizona into western Nevada and the Sierra. In Alaska, an upper trough will persist over the state.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>Western Great Basin</b> Mostly sunny northeast Nevada, becoming partly cloudy elsewhere with isolated to scattered thunderstorms. Some storms will have little or no rainfall.	North valleys: 90 to 105. South valleys: 92 to 106. Mountains: 78 to 92.	North valleys: 10 to 20%. South valleys: 11 to 21%. Mountains: 12 to 30%.	Light and variable. Mostly upslope/upvalley 5 to 10 mph.
<b>Northern California</b> Mostly sunny. A few cumulus clouds developing in the eastern areas with a 10% chance of afternoon and evening thunderstorms.	80s and 90s prevailing with warmest inland valleys 100 to near 107.	10 to 22%.	Afternoon wind mostly southwest to northwest 3 to 10 mph and locally gusty along the coast and eastern high desert areas.
<b>Southern California</b> Areas of morning low clouds and fog along the coast. Mostly sunny in the valleys. Partly cloudy in the afternoon over the mountains, including the Sierra, and deserts with scattered thunderstorms.	85 to 95 mountains. 90 to 105 valleys. 95 to 105 upper deserts. 105 to 110 lower deserts.	8 to 18% central California and 15 to 30% southern California.	Southeast to southwest 10 to 15 mph.
<b>Alaska</b> Partly to mostly cloudy with isolated to scattered showers and isolated afternoon thunderstorms.	Mid 60s to mid 70s.	25 to 40%.	South to southwest 5 to 15 mph.
<b>Northern Rockies</b> A flat ridge of high pressure will bring very warm and dry conditions to all areas.	West of divide: 91 to 97. East of divide: 86 to 95. North Dakota: 87 to 92.	West of divide: 11 to 22%. East of divide: 16 to 28%. North Dakota: 22 to 33%.	West of divide: valley 5 to 10 mph. East of divide: south to west 10 to 20 mph. North Dakota: southwest 10 to 20 mph.

### INSTRUCTIONS AND ASSIGNMENTS NOT CLEAR

Every firefighter will give and receive briefings at some point on the job. Briefings are an effective way to disseminate information that can make the firefighter's job safer and easier. When giving a briefing, it is important to keep the following questions in mind and remain perceptive to how the audience is receiving the information:

- Did they ask questions? Talk about what it is like giving a briefing. Do you get empty stares? What feedback are you looking for to ensure they understand you?
- Did they take notes? What kind of information would you like to see people write down?
- Did they repeat information back? What other ways can you identify that your briefing is registering?
- Did you give all the necessary information? How will you ensure that you covered everything necessary?
  - Task
  - Location
  - Communications
  - Hazards
  - Who, when, etc.
- It is also important for the firefighter who is receiving instructions to be mindful of the following during the briefing:
  - Did you really listen? What do you do to make yourself pay attention to everything being said?
  - Did you understand the assignment, location, and the nature and location of hazards? Do you expect to figure it out for yourself when you get out there or do you step forward and ask questions?
- To reduce the risks, take the time and get it right!
- You must know the location of the assignment and:
  - What is to be done.
  - Who you are to report to and how often to report.
  - When you are expected to complete the assignment.
  - Hazards.
  - Communication plan frequencies.
  - Weather and fire behavior.
  - Status of adjoining forces.
