

**INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, AUGUST 8, 2005 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3**

CURRENT SITUATION:

Initial attack activity was moderate nationally with 283 fires reported. Thirteen new large fires were reported, six in the Northern Rockies Area, three each in the Northwest and Southern Areas, and one in the Eastern Great Basin Areas. Six large fires were contained, two each in the Alaska and Southern Areas and one each in the Northwest and Southwest Areas. Very high to extreme fire indices were reported in Arizona, California, Hawaii, Idaho, Kansas, Minnesota, Montana, Nebraska, Nevada, New Mexico, Oregon, South Dakota, Utah, Washington and Wyoming.

On August 6th, Fire Engine 58 from the California Department of Forestry and Fire Protection-Riverside County Fire Department was involved in a single vehicle accident. One crew member was fatally injured. The firefighting community extends condolences to the family and friends of the deceased.

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

CAMP 32, Kootenai National Forest. A Type 1 Incident Management Team (Bennett) has been ordered. This fire is nine miles southwest of Eureka, MT in timber. An evacuation order is in place for the Pinkham Drainage area. Private residences are threatened. Active fire behavior with short crown runs, torching and rapid rates of spread was reported.

I 90, Lolo National Forest. A Type 1 Incident Management Team (Sandman) is assigned. A unified command has been established between Sandman's Type 1 Incident Management Team and the Frenchtown Rural Fire Department. This fire is one mile south of Alberton, MT in timber. West Mountain Creek residents remain evacuated. Private residences, commercial properties and utility corridors are threatened. Structure protection is in place. River access points remain closed. Steep, rugged terrain and low visibility continue to impede containment efforts. Running, spotting, crowning and intermittent torching were observed. The Fish and East Alberton fires were contained.

BARECASTLE, Bitterroot National Forest. A Type 2 Incident Management Team (Specht) has been ordered. This fire is 20 miles southwest of Darby, MT in timber and grass. Barecone Lookout has been evacuated. Forest road 1303 and Castle Rock Trail are closed. Steep terrain is impeding containment efforts. The incident reported crowning and running fire.

ROCKIN COMPLEX, Bitterroot National Forest. A Type 2 Incident Management Team (Benes) has been ordered. This complex, comprised of four fires, is 10 miles northwest of Darby, MT in timber. An area closure is in effect for the Rock Creek trailhead and the west end of Lake Como. Narrow canyons, steep, rocky terrain and adverse weather conditions continue to hamper containment efforts. Extreme fire behavior with spotting and intermittent torching continues.

LONG BLACK COMPLEX, Clearwater National Forest. A Type 2 Incident Management Team (Carlson) is assigned. This incident is 38 miles northeast of Pierce, ID in timber. Steep terrain and limited access are hindering containment efforts. Isolated torching and smoldering were reported.

KELLY POINT, Flathead National Forest. A Fire Use Management Team (Cook) has been ordered. This fire will be managed in conjunction with the Limestone Peak fire. The fire is 38 miles southeast of Bigfork, MT in timber. The fire will be managed with a confine suppression strategy. Black Bear administrative site is threatened; structure protection is in place. A closure order is in effect for the east side of South Fork Trail from Meadow Creek to Salmon Forks and for the west side of the South Fork Trail from Black Bear to Salmon Forks. Active fire behavior with crowning and spotting was observed.

LIMESTONE PEAK, Flathead National Forest. A Fire Use Management Team (Cook) has been ordered. This fire will be managed in conjunction with the Kelly Point fire using a confine suppression strategy. This fire is 41 miles southeast of Bigfork, MT in timber, shrub and grass. Administrative cabin sites are threatened. Silvertip Trail is closed.

FROG POND, Beaverhead/Deerlodge National Forest. This fire is 25 miles southwest of Phillipsburg, MT in timber. Minimal fire activity was reported. No further information was received.

EL CAPITAN, Bitterroot National Forest. This lightning-caused Wildland Fire Use (WFU) incident is 19 miles southwest of Hamilton, MT in timber. The fire is being managed to accomplish resource objectives. Moderate growth rates with intermittent torching and smoldering were observed.

ELK LAKE, Bitterroot National Forest. This lightning-caused Wildland Fire Use (WFU) incident is 17 miles southwest of Hamilton, MT in timber. The fire is being managed to accomplish resource objectives. Intermittent torching and smoldering were reported.

NORTHWEST AREA INCIDENTS / LARGE FIRES:

SCHOOL, Umatilla National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This fire is 16 miles south of Pomery, WA in timber. Private residences, Tucannon Lookout Tower, Camp Wooten, cultural sites and wildlife habitat remain threatened. Structure protection is in place. Steep terrain and rolling debris is hampering containment efforts. Active fire behavior with spotting was reported.

LICK CREEK, Washington State Department of Natural Resources Southeast. A Washington Interagency Incident Management Team (Berndt/LaFave) is assigned. This fire is six miles north of Cle Elum, WA in logging slash, brush understory, timber and grass. Private structures and wildlife habitat remain threatened. Isolated torching was reported. Reduction in acreage is due to more accurate mapping.

BLOSSOM COMPLEX, Siskiyou National Forest. A Type 2 Incident Management Team (Paul) is assigned. A unified command has been established between the U.S. Forest Service and the Oregon Department of Forestry. This complex, comprised of the Blossom and Solitude fires, is 25 miles northeast of Gold Beach, OR in timber. Wildlife habitat and private structures along the Rogue River are threatened. Inaccessible terrain continues to hamper containment efforts. Fire continues to be active with torching, downhill backing and rolling debris. Increase in acreage is due to successful burn out operations.

BURNT BREAD, Washington State Department of Natural Resources Northeast. A Washington Interagency Incident Management Team (Johnson/Barnett) is assigned. This fire started on private land 17 miles southeast of Tonasket, WA in timber, grass and brush. Steep terrain and flare-ups are hindering containment efforts. Occasional torching and spotting were reported.

DIRTY FACE, Washington State Department of Natural Resources - Southeast. A Washington Interagency Incident Management Team (Furlong/Gormley) is assigned. This fire is 25 miles northwest of Leavenworth, WA in timber. Steep, inaccessible terrain continues to hinder containment efforts. An evacuation notice is in effect for nearby residences. Structure protection remains in place. Private residences, historic sites, a state park and endangered species habitat remain threatened. Fire behavior included short upslope runs, occasional torching and downslope backing fire. Burn out operations continue.

MULE PEAK, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (West) is assigned. This fire is 20 miles southeast of La Grande, OR in timber and grass. Endangered species habitat remains threatened. Steep terrain and heavy subalpine fuels continue to impede containment efforts. Creeping and smoldering were reported.

BENJAMIN COMPLEX, Lakeview District, Bureau of Land Management. This complex, comprised of the Benjamin Lake and Saddle fires, is 27 miles northeast of Christmas Valley, OR in timber, brush and grass. Residential structures remain threatened. Rough terrain and limited access are hampering containment efforts. The incident reported moderate fire activity.

BEEF TRAIL, Burns District, Bureau of Land Management. This fire started on private land 15 miles northwest of Fields, OR in juniper, sage and grass. Seasonal cabins and outbuildings and wildlife habitat are threatened. Rapid rates of spread were reported.

RINEHART ROAD, Oregon Department of Forestry. This fire is 15 miles northeast of La Grande, OR in timber, brush and grass. Private residences, ranches and grazing rangeland are threatened. Upslope runs with rapid rates of spread and torching were observed.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

CADEGAN COMPLEX, Salmon-Challis National Forest. Type 2 Incident Management Team (Brunner) has been ordered. This complex, comprised of the Hale Gulch and Bear Basin fires, is 15 miles west of North Fork, ID in Douglas fir and heavy dead and downed fuels. Private residences and commercial property are threatened. Passing thunderstorms caused extreme fire behavior and rapid rates of spread. Crownning, running and spotting were reported.

DAMMERON COMPLEX, Cedar City Field Office, Bureau of Land Management. This complex, comprised of the Dammeron, Mill Creek, Yant and Stahlie fires, is five miles north of St. George, UT in mixed conifer, pinyon, juniper and grass. No new information was reported. This will be the last report unless new information is received.

ALASKA AREA INCIDENTS / LARGE FIRES:

NULATO #3, Alaska Fire Service, Galena Zone. A Type 2 Incident Management Team (Jandt) is assigned. This fire is four miles northwest of Nulato, AK in black spruce and tundra. Native allotments remain threatened. Isolated torching and active backing fire were reported. Burn out operations were successful.

MISSION CREEK, Alaska Fire Service, Upper Yukon Zone. This fire started on Alaska Native Claims Settlement Act land nine miles west of Eagle, AK in black spruce and tundra. Creeping and smoldering were reported. No further information was received.

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. A transfer of command from a Type 2 Incident Management Team (Walker) back to the local unit occurred. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. A portion of the fire is in Canada. Structures along the Taylor Highway near O'Brien and Dome Creeks are potentially threatened. Creeping and backing fire was reported.

SOUTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

PINYON COMPLEX, Inyo National Forest. This complex, comprised of the Oak Creek, Pinyon and Hogback fires is six miles northwest of Independence, CA in timber and brush. The north and south forks of Sawmill Creek are in patrol status. Creeping with moderate fire behavior in the interior fuels continue.

COMB COMPLEX, Sequoia & Kings Canyon National Park. A Fire Use Management Team (Hall) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Comb and East Creek fires is 18 miles northeast of Grant Grove, CA in mixed conifer and chaparral. The fire is being managed to accomplish resource objectives. Backing fire was reported. Portions of the fire received precipitation.

OUTLOOK:

Fire Weather Watch: For northwest Utah for dry thunderstorms.

Weather Discussion: An upper high remains centered over the Great Basin with a westerly flow across the Pacific Northwest and Northern Rockies. Moisture circulating around the high will continue the threat of thunderstorms, some of them dry, over eastern Oregon, southeast Washington, Idaho, Montana, Wyoming and the Dakotas. A cold front will move into northeast Minnesota today and into northwest Wisconsin tonight. Strong high pressure is building over Alaska for a warming and drying trend.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northern California Sunny, except low clouds and fog in coastal areas.	60s coast, 80s higher terrain. 90s to 105 interior valleys.	40% or more coastal areas 12 to 25% inland. 7 to 15% east of the Cascade-Sierra crest.	Southwest to northwest 6 to 12 mph with gusts to 25 mph coastal areas and east of the Cascade-Sierra crest. Southeast to southwest 3 to 7 mph with gusts to 17 mph elsewhere.

Northern Rockies A weak disturbance in the upper level westerly flow will bring some isolated to scattered dry and wet thunderstorms across the geographic region.	West of divide: 80 to 90. East of divide: 80 to 90. North Dakota: 80 to 90.	West of divide: 20 to 25%. East of divide: 20 to 30%. North Dakota: 30 to 40%.	West of divide: west 5 to 10 mph with some higher gusts possible. East of divide: northeast 10 to 15 mph with higher gusts possible. North Dakota: east to southeast 5 to 10 mph.
Southern California Morning low clouds and fog coastal areas, otherwise mostly sunny in the morning becoming partly to mostly cloudy in the afternoon with showers and thunderstorms over the Sierra and over the Southern California mountains and deserts.	80 to 95 mountains. 90 to 105 valleys. 95 to 105 upper deserts. 95 to 105 lower deserts.	10 to 30% central California and 20 to 40% southern California.	Southeast to southwest 5 to 15 mph.
Rocky Mountain Isolated to widely scattered dry thunderstorms over Wyoming and South Dakota, with scattered thunderstorms over southwest Colorado.	Upper 80s to mid 90s, with 70s to lower 80s in the mountains.	Less than 20% across most of Wyoming, western South Dakota, and northern and eastern Colorado, with higher values elsewhere.	Variable 5 to 15 mph.
Western Great Basin Chance of morning showers in the north, otherwise partly to mostly sunny elsewhere in the morning then becoming partly cloudy with scattered showers and thunderstorms in the south and more isolated showers and thunderstorms in the north. Dry in the northwest.	North valleys: 86 to 104. South valleys: 90 to 104. Mountains: 76 to 94.	North valleys: 7 to 20%. South valleys: 16 to 26%. Mountains: 12 to 30%.	West to southwest at 5 to 10 mph in the north and variable across the south at 5 to 10 mph.
Eastern Great Basin Widely scattered dry thunderstorms northwest Utah. Widely scattered to scattered thunderstorms Idaho, western Wyoming and Utah mountains.	Idaho, Bridger-Teton: 72 to 85 mountains, 85 to 96 valleys. Northern Utah: 75 to 85 mountains, 85 to 97 valleys. Southern Utah, Arizona Strip: 71 to 88 mountains, 88 to 101 valleys.	Idaho, Bridger-Teton: 20 to 40% mountains, 15 to 22% valleys. Northern Utah: 22 to 35% mountains, 10 to 20% valleys. Southern Utah, Arizona Strip: 28 to 45% mountains, 18 to 30% valleys.	Idaho, Bridger-Teton: West to southwest 10 to 15 mph. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, Arizona Strip: Upslope/upvalley 5 to 10 mph except southwest 10 to 15 mph in southwest Utah and Arizona Strip.

http://www.nifc.gov/sixminutes/dsp_sixminutes.php

SPOT WEATHER FORECAST

Spot weather forecasts should be requested for those fires that have potential for extreme fire behavior, exceed initial attack, or are located in areas where Red Flag Warnings have been issued.

• Basic elements needed for a spot weather forecast include:

- Name of fire and management agency
- Request time and date
- Location by ¼ section
- Drainage name
- Exposure
- Size
- Elevation (top and bottom)
- Fuel type
- Fire character (ground, crown, etc.)
- Weather conditions (place, elevation, observation time, wind direction, wind velocity, dry bulb, wet bulb, remarks)
