

**INCIDENT MANAGEMENT SITUATION REPORT**  
**SATURDAY, AUGUST 27, 2005 0800 MDT**  
**NATIONAL PREPAREDNESS LEVEL 3**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 119 fires reported. Two new large fires were reported, one each in the Northern Rockies and Northern California Areas. Four large fires were contained, one each in the Northwest, Northern Rockies, Western Great Basin and Eastern Great Basin Areas. Very high to extreme fire indices were reported in California, Colorado, Idaho, Montana, Nebraska, Nevada, Oregon, Washington and Wyoming.

An Area Command Team (Rounsaville) has been tasked by the National Multi-Agency Coordinating Group to evaluate radio communications on incidents with consideration to training and education, maintenance and replacement of equipment, narrow banding, communication and coordination with cooperators, and usability.

**NORTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:**

BARREL, Northern California Resource Area, Bureau of Land Management. A Type 2 Incident Management Team (Giachino) is assigned. This fire is 13 miles northeast of Fort Bidwell, CA in brush and timber. Structures and wildlife habitat are threatened. Heavy fine fuel loading, rugged terrain, poor access, winds and low relative humidity are hampering containment efforts. Active burning in the interior was reported. Continued burn out operations along the east flank are planned.

HARDING, Tahoe National Forest. A Type 2 Incident Management Team (Sinclear) is assigned. This fire is two miles northeast of Sierraville, CA in sagebrush and mixed conifer. A subdivision is potentially threatened. Interior torching was observed. No further information was received.

MANTON, Tehama-Glenn Unit, California Department of Forestry and Fire Protection. This fire is 30 miles northeast of Red Bluff, CA in grass, brush and timber. Thirty two structures have been lost. Evacuations and road closures are in effect. Extreme fire behavior with long range spotting was reported.

**NORTHWEST AREA INCIDENTS / LARGE FIRES:**

DEER CREEK, Southwest District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Savage) is assigned. This fire is eight miles north of Cave Junction, OR in grass, brush and timber. Residences and other structures remain threatened.

Residents have been evacuated. Steep terrain, hot, windy weather and heavy fuels are hampering containment efforts. Running and spotting were observed after the inversion lifted.

BURNT CABIN, Umatilla National Forest. This fire is 16 miles southeast of Milton-Freewater, OR in timber. Minimal fire behavior was observed. No further information was received.

GRANITE COMPLEX, Wallowa-Whitman National Forest. A Wildland Fire Use Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is 30 miles east of Enterprise, OR in timber and grass. This complex is being managed to accomplish resource objectives. Structure protection remains in place for historic cabins in the area. An area closure remains in effect. Active backing fire, moderate rates of spread and individual tree torching were observed. Burn out operations are planned if the fire threatens to cross Sheep Creek or if structures are threatened.

### NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

PROSPECT, Lolo National Forest. A Type 2 Incident Management Team (Carlson) is assigned. This fire is 12 miles south of Superior, MT in timber. Poor access, steep terrain, and heavy fuels continue to hinder containment efforts. Structures and historic features remain threatened. The fire continues to creep and smolder in pockets of heavier fuels; isolated torching was observed.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. A Fire Use Management Team (Cook) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the El Capitan, Wapiti, Beaverjack, Reynolds Lake and numerous other fires, is 26 miles southwest of Hamilton, MT in timber. This complex, burning on both the Salmon-Challis and Bitterroot National Forests, is being managed to accomplish resource objectives. A ranch, campground, work center, historic ranger station, cabin and two lookouts are potentially threatened. Structure protection remains in place. Magruder Corridor Road is closed to through traffic. Trail closures remain in effect in active fire areas. Increased fire activity was observed with torching and short range spotting.

SIGNAL ROCK, Bitterroot National Forest. A Type 2 Incident Management Team (Specht) is assigned. The fire is 17 miles southwest of Philipsburg, MT in timber and is burning on both the Bitterroot and Beaverhead/Deerlodge National Forests. Active spotting was reported. Continued burn out operations are planned.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. Steep terrain, numerous snags and limited access continue to hamper containment efforts. Smoldering, group torching and short upslope runs were observed on the south flank of the Black Canyon fire. The Long Creek fire continues to be monitored by air.

RED RIVER COMPLEX, Nez Perce National Forest. A Fire Use Management Team (Weldon) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Burnt, Center and several other fires is 23 miles southeast of Elk City, ID in timber. This complex is being managed to accomplish resource objectives. Structure protection is being implemented for trail facilities and a lookout. Short crown runs were observed. The team is also supporting prescribed burns on the Clearwater and Nez Perce National Forests.

### EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

PELICAN POINT, Northwest State, Utah Division of Forestry, Fire & State Lands. This fire is ten miles southeast of Fairfield, UT in grass. Residences, communication towers, an explosives plant, a VHF omnidirectional range navigation beacon (VOR), and cultural resources are potentially threatened. State Route 68 is open. Steep terrain, heavy fine fuel loading, and strong gusty winds continue to hamper containment efforts. Decreased fire behavior was observed with creeping and smoldering.

FRANK CHURCH, Payette National Forest. A Wildland Fire Use Management Team (Hahnenberg) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, comprised of the Bear Creek, Root Creek, West Fork/Joe, Missouri Ridge and several other fires is 50 miles northeast of McCall, ID in timber. The fire is being managed to accomplish resource objectives. Commercial property, residences and historical structures are threatened; structure protection is in place. Fire activity increased on five of the fires, with low rates of spread observed.

### ALASKA AREA INCIDENTS / LARGE FIRES:

TALBIKSOK, Alaska Division of Forestry, Southwest Area Forestry Dispatch. This fire started on Fish and Wildlife Service land 15 miles southeast of Russian Mission, AK in mature white spruce, birch and black spruce. The southern perimeter of the fire was active with four foot flame lengths.

COLEEN MOUNTAIN, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire is 40 miles northeast of Chalkyitsik, AK in black spruce, hardwoods and grasses. Native allotments and cabins at Canyon Village and Old Rampart are threatened. Structure protection measures are in place. Burn out operations are continuing at both locations. Backing, running and crowning fire behavior was observed. No further information was received.

### SOUTHERN AREA INCIDENTS / LARGE FIRES:

HURRICANE KATRINA SUPPORT, Federal Emergency Management Agency. Emergency Support Function #4 is staffed at the Regional Response Coordination Center in Atlanta, GA. A Planning Team has been activated to the Long Term Recovery Center in Orlando, FL. Two Logistics Management Teams have been activated to Lakeland and Homestead, FL.

WF UNIT 11 2005, McFaddin National Wildlife Refuge. This fire is located 20 miles east of Winnie, TX in grass, peat and duff. Hot spots surfacing in the peat are a concern. Smoldering fire behavior was observed. No further information was received.

CANEY CREEK, Texas Forest Service. This fire is located five miles northeast of Gilmer, TX in plantation timber. The fire is being monitored. No further information was received.

## OUTLOOK:

**Fire Weather Watches:** A Fire Weather Watch is in effect from Sunday afternoon to evening for gusty winds and low humidity in extreme northeast California and extreme northwestern Nevada.

**Weather Discussion:** Continued dry and warm conditions over the Pacific Northwest, the interior of California, Great Basin, and Northern Rockies. Breezy conditions out ahead of the next storm system approaching the Pacific Northwest coast will emerge over the Columbia Basin across the panhandle of Idaho today. Thunderstorm activity will be confined to Colorado and New Mexico eastward. Alaska will see a mostly dry day between storm systems. Hurricane Katrina is forecast to strengthen to a Category 3 hurricane today over the east-central portion of the Gulf of Mexico. Katrina is forecast to be a Category 4 hurricane by the time it makes landfall on the Mississippi/Alabama coastline on Monday.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>Northern Rockies</b> High pressure over the Area will bring hot temperatures and low humidity values under sunny skies.	West of Divide: 85 to 95 East of Divide: 85 to 95 North Dakota: 80s	West of divide: 10 to 20% East of divide: 10 to 20% North Dakota: 25 to 40%	West of divide: West 5 to 10 mph East of divide: Southwest 5 to 10 mph North Dakota: Variable 5 to 10 mph
<b>Northern California</b> Sunny except for fog areas along and near the coast.	Mostly 80s and 90s, near 103 warmest inland valleys and 60s to mid 70s near the coast.	8 to 20% in drier inland areas.	Southwest to northwest 5 to 12 mph with gusts to 22 mph in afternoon for coastal areas and east of the Cascade-Sierra crest.
<b>Southern California</b> Patchy low clouds and fog lower coastal areas, otherwise mostly sunny.	85 to 100 mountains. 95 to 105 valleys. 95 to 105 upper deserts. 110 to 120 lower deserts.	5 to 15%.	Southwest to northwest 5 to 15 mph.
<b>Rocky Mountain</b> Isolated thunderstorm activity across the southern half of Colorado and portions of western and southern Kansas.	Mid 80s to low 90s lower elevations, with mid 60s to mid 70s in the mountains.	RH below 20% is expected across central and northeast Wyoming, western South Dakota, western Colorado and northeast Colorado.	Variable 5 to 15mph.
<b>Western Great Basin</b> Mostly sunny skies with some afternoon cumulus.	North valleys: 84 to 99. South valleys: 88 to 111. Mountains: 74 to 90.	North valleys: 7 to 16%. South valleys: 10 to 18%. Mountains: 14 to 25%.	Southwest to northwest 5 to 10 mph with afternoon gusts of 15 to 20 mph.
<b>Eastern Great Basin</b> Idaho, Bridger-Teton: Mostly sunny. Northern Utah: Mostly sunny. Isolated afternoon mountain thunderstorms. Southern Utah, Arizona Strip: Mostly sunny, isolated mountain thunderstorms.	Idaho, Bridger-Teton: 63 to 80 mountains, 80 to 93 valleys. Northern Utah: 71 to 82 mountains, 80 to 91 valleys. Southern Utah, Arizona Strip: 72 to 88 mountains, 88 to 101 valleys.	Idaho, Bridger-Teton: 15 to 25% mountains, 9 to 20% valleys. Northern Utah: 22 to 35% mountains, 12 to 25% valleys. Southern Utah, Arizona Strip: 22 to 35% mountains, 12 to 25% valleys.	Idaho, Bridger-Teton: West 5 to 10 mph. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, AZ Strip: Upslope/upvalley 5 to 10 mph.

<b>Geographic Area Weather</b>	<b>High Temperatures</b>	<b>Minimum Relative Humidity</b>	<b>Wind</b>
<b>Alaska</b> Interior Alaska: Mostly sunny with a chance of an isolated shower.	50s and mid 60s.	30 to 45%.	Southeast 5 to 15 mph.
