

**INCIDENT MANAGEMENT SITUATION REPORT**  
**SUNDAY, AUGUST 28, 2005 0800 MDT**  
**NATIONAL PREPAREDNESS LEVEL 3**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 124 fires reported. Five new large fires were reported, two in the Eastern Great Basin Area, and one each in the Northern Rockies, Western Great Basin and Southern California Areas. Five large fires were contained, two in the Eastern Great Basin Area, and one each in the Alaska, Northwest and Southern Areas. Very high to extreme fire indices were reported in California, Idaho, Montana, Nebraska, Nevada, Oregon, South Dakota, Utah, Washington and Wyoming.

An Area Command Team (Rounsaville) has been tasked by the National Multi-Agency Coordinating Group to evaluate radio communications on incidents with consideration to training and education, maintenance and replacement of equipment, narrow banding, communication and coordination with cooperators, and usability.

**NORTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:**

MANTON, Tehama-Glenn Unit, California Department of Forestry and Fire Protection. A CDF Type 1 Incident Command Team (Paul) is assigned. This fire is 30 miles northeast of Red Bluff, CA in grass, brush and timber. Evacuations and road closures remain in effect. Significant fire activity with short range spotting was reported.

BARREL, Northern California Resource Area, Bureau of Land Management. A Type 2 Incident Management Team (Giachino) is assigned. This fire is 13 miles northeast of Fort Bidwell, CA in brush and timber. Wildlife habitat is threatened. Heavy fine fuel loading, rugged terrain, and poor access are hampering containment efforts. Low intensity fire behavior with interior burning was observed.

HARDING, Tahoe National Forest. A Type 2 Incident Management Team (Sinclear) is assigned. This fire is two miles northeast of Sierraville, CA in sagebrush and mixed conifer. Rolling material and steep, rocky terrain are impeding containment efforts. Torching of unburned fuels within the interior was observed.

## **SOUTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:**

BLAISDELL, San Bernadino National Forest. A Type 2 Incident Management Team (Garwood) is assigned. This fire is located seven miles north of Palm Springs, CA in grass. Residences, commercial property and the Palm Springs Tramway are threatened. Steep rocky terrain, limited access and gusty winds are hampering containment efforts.

## **NORTHWEST AREA INCIDENTS / LARGE FIRES:**

DEER CREEK, Southwest District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Savage) is assigned. This fire is eight miles north of Cave Junction, OR in grass, brush and timber. Residences and other structures remain threatened. Evacuation orders have been lifted. Steep terrain, hot, windy weather and heavy fuels are hampering containment efforts. The reduction in acreage is due to better mapping.

PARK, Central Oregon District, Oregon Department of Forestry. This fire is seven miles north of La Pine, OR in timber and grass. Numerous residences and state park facilities are threatened. Residents have been evacuated to La Pine Middle School. Intensive fire runs with spotting and torching were observed

GRANITE COMPLEX, Wallowa-Whitman National Forest. A Wildland Fire Use Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is 30 miles east of Enterprise, OR in timber and grass. This complex is being managed to accomplish resource objectives. Structure protection remains in place for historic cabins in the area. An area closure remains in effect. Active surface fire with moderate to high rates of spread, short range spotting, and short crown runs were observed.

## **NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:**

COTTONWOOD CREEK, Southern Land Office, Montana Department of Natural Resources and Conservation. The Eastern Montana County Assist Team has been ordered. This fire is eight miles east of Columbus, MT in tall grass and timber. Residences, rangeland and cropland are threatened. Rapid rates of spread and spotting were observed.

PROSPECT, Lolo National Forest. A transfer of command from a Type 2 Incident Management Team (Carlson) to the local unit will occur today. This fire is 12 miles south of Superior, MT in timber. Poor access, steep terrain, and heavy fuels continue to hinder containment efforts. Structures and historic features remain threatened. Creeping and torching with isolated torching was observed.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. A Fire Use Management Team (Cook) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the El Capitan, Wapiti, Beaverjack, Reynolds Lake and numerous other fires, is 26 miles southwest of Hamilton, MT in timber. This complex, burning on both the Salmon-Challis and Bitterroot National Forests, is being managed to accomplish resource objectives. A ranch, campground, work center, historic ranger station, cabin and two lookouts are potentially threatened. Structure protection remains in place. Magruder Corridor Road is closed to through traffic. Trail closures remain in effect in active fire areas. Increased fire activity was observed with single and group tree torching and short range spotting.

SIGNAL ROCK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. The fire is 17 miles southwest of Philipsburg, MT in timber and is burning on both the Bitterroot and Beaverhead/Deerlodge National Forests. Group torching and crowning with runs were observed.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. Steep terrain, numerous snags and limited access continue to hamper containment efforts. Smoldering, group torching and short upslope runs were observed on the south flank of the Black Canyon fire. The Long Creek fire continues to be monitored by air. No further information was received.

RED RIVER COMPLEX, Nez Perce National Forest. A Fire Use Management Team (Weldon) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Burnt, Center and several other fires is 23 miles southeast of Elk City, ID in timber. This complex is being managed to accomplish resource objectives. Isolated group torching, spotting and short runs were observed on the Burnt fire. Several trails are closed through fire areas.

ERICKSON SPRING, Custer National Forest. This previously reported fire is 15 miles southeast of Ashland, MT in grass and timber understory. Isolated torching of interior fuels was observed.

## EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

NORTH NEOLA, Uintah and Ouray Agency, Bureau of Indian Affairs. This fire is two miles north of Neola, UT in grass, sagebrush and pinyon-juniper. One residence was lost. Structures and commercial property are threatened; structure protection is in place. Neola highway is closed. Extreme fire behavior was observed with crowning in pinyon-juniper and high rates of spread in the sagebrush with 20 foot flame lengths.

FRANK CHURCH, Payette National Forest. A Wildland Fire Use Management Team (Hahnenberg) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, comprised of the Bear Creek, Root Creek, West Fork/Joe, Missouri Ridge and several other fires is 50 miles northeast of McCall, ID in timber. The fire is being managed to accomplish resource objectives. Commercial property, residences and historical structures are threatened; structure protection is in place. Fire behavior remained active on five of the fires, with low rates of spread observed.

## ALASKA AREA INCIDENTS / LARGE FIRES:

COLEEN MOUNTAIN, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire is 40 miles northeast of Chalkyitsik, AK in black spruce, hardwoods and grasses. Native allotments and cabins at Canyon Village and Old Rampart are threatened. Structure protection measures are in place. Light precipitation hampered burn out operations. Smoldering and creeping were observed.

### SOUTHERN AREA INCIDENTS / LARGE FIRES:

HURRICANE KATRINA SUPPORT, Federal Emergency Management Agency. Emergency Support Function #4 is staffed at the Regional Response Coordination Centers in Atlanta, GA and Denton, TX. A Planning Team has been activated to the Long Term Recovery Center in Orlando, FL. Logistics Management Teams have been mobilized to Tallahassee and Homestead, FL. Logistics Management Teams have been ordered for Camp Beauregard, LA and Jackson, MS.

WF UNIT 11 2005, McFaddin National Wildlife Refuge. This fire is located 20 miles east of Winnie, TX in grass, peat and duff. Hot spots surfacing in the peat are a concern. Smoldering fire behavior was observed. No new information was reported.

### OUTLOOK:

**Red Flag Warning:** Sunday in some northeast California areas for strong, gusty wind and low humidity.

**Weather Discussion:** An Upper level low pressure system will move on the Pacific Northwest coast today with a cold front moving across Washington and Oregon. Expect another day of warm and dry conditions over much of the West ahead of the front. Windy conditions will develop over eastern Oregon, northern California, northwest Nevada and southwest Idaho. Showers will move in behind the front over western Washington and northwestern Oregon. In Alaska, widespread showers will develop over the southwestern portion of the state. Hurricane Katrina is currently a Category 5 hurricane today with estimated wind speeds of 140 knots. Katrina is forecast to move northwest across the central Gulf of Mexico today and make landfall as a Category 5 hurricane on the southeast Louisiana coast on Monday.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>Northern Rockies</b> High pressure over the Area will bring hot temperatures and low humidity values under sunny skies.	West of Divide: 85 to 95. East of Divide: 85 to 95. North Dakota: 80s.	West of divide: 10 to 20%. East of divide: 10 to 20%. North Dakota: 25 to 40%.	West of divide: West 5 to 10 mph. East of divide: Southwest 5 to 10 mph. North Dakota: Variable 5 to 10 mph.

<b>Geographic Area Weather</b>	<b>High Temperatures</b>	<b>Minimum Relative Humidity</b>	<b>Wind</b>
<b>Northern California</b> Sunny with areas of fog and low clouds along the coast.	Mostly 80s and 90s warmest inland areas.	8 to 20% driest inland areas.	Afternoon wind becoming southwest to west 5 to 15 mph and gusty. Gusts to around 30 mph becoming possible late afternoon and evening along and east of the Cascade-Sierra crest.
<b>Southern California</b> Patchy low clouds and fog lower coastal areas, otherwise mostly sunny.	85 to 100 mountains. 95 to 105 valleys. 95 to 105 upper deserts. 110 to 120 lower deserts.	5 to 15%.	Southwest to northwest 5 to 15 mph.
<b>Rocky Mountain</b> Dry north. Scattered afternoon thunderstorms south.	Mid 80s to low 90s lower elevations, with mid 60s to mid 70s in the mountains.	Below 20% is expected across lower elevations of Wyoming and western South Dakota, and portions of western and northeast Colorado.	Variable 5 to 15mph.
<b>Northwest</b> Increasing clouds. Light rain developing in western Washington Sunday night.	West of Cascades: Coast 60s. Inland 70s except 80s southwest Oregon. Eastside: mostly 80s and 90s.	West of Cascades: Mostly above 60% coast and north interior - around 30% southwest interior Oregon. Eastside generally 15 to 20% except 30% near the Cascades.	Westerly 10 to 15 mph increasing more Sunday night.
<b>Western Great Basin</b> Mostly sunny skies with some afternoon cumulus clouds over the Sierras.	North valleys: 84 to 100. South valleys: 88 to 112. Mountains: 75 to 92.	North valleys: 7 to 16%. South valleys: 10 to 18%. Mountains: 14 to 29%.	Southwest 10 to 15 mph. In the north, afternoon gusts of 25 to 35 mph.
