

**INCIDENT MANAGEMENT SITUATION REPORT
SATURDAY, JULY 23, 2005 0800 MDT
NATIONAL PREPAREDNESS LEVEL 3**

CURRENT SITUATION:

Initial attack activity was moderate nationally with 286 fires reported. Fifteen new large fires were reported, five in the Eastern Great Basin Area, three each in the Southwest and the Northwest Areas, two in the Western Great Basin Area and one each in the Southern California and the Alaska Areas. Six large fires were contained, two in the Eastern Great Basin Area and one each in the Rocky Mountain, the Southwest, the Western Great Basin and the Southern California Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Idaho, Montana, Nebraska, Nevada, New Mexico, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

SOUTHWEST AREA INCIDENTS / LARGE FIRES:

EDGE COMPLEX, Tonto National Forest. A Type 2 Incident Management Team (Lineback) is assigned. A Type 1 Incident Management Team (Whitney) has been ordered. This complex, comprised of the Edge and Valentine fires, is 20 miles northeast of Mesa, AZ in short grass and brush. Five subdivisions were evacuated. Structure protection is in place for several subdivisions, the community of Sunflower, power lines and the Mount Ord Electronic site. Endangered species habitat remain threatened. Highways 87 and 188 remain closed. Smoke continues to impact the Phoenix airshed. Extreme fire behavior and wind driven upslope runs were reported.

KNOLES, Tonto National Forest. This fire is 17 miles south of Young, AZ in timber litter. Spotted Owl habitat, historic cliff dwellings and designated wilderness remain threatened. Cloud cover moderated fire behavior.

BEAR, San Carlos Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Smith) is assigned. This fire is 30 miles north of San Carlos, AZ in chaparral, pinyon, juniper and brush. Rangeland and wildlife habitat remain threatened. Suppression efforts are hampered by thunderstorms, rocky and steep terrain. Short runs were reported.

PEACHVILLE, Tonto National Forest. This fire is four miles north of Superior, AZ in chaparral. Highway 60 was temporarily closed. Some backing fire was reported. No further information was received.

SH RANCH COMPLEX, Arizona State. This fire is 10 miles east of Bagdad, AZ in short grass. This fire consists of 15 separate lightning-caused fires. Extreme fire behavior in light fuels was reported.

J. CANYON, Arizona State. A transfer of command from a Type 2 Incident Management Team (Raley) back to the local unit will occur today. This fire is 15 miles northeast of Wickenburg, AZ in brush, pinyon and juniper. Containment lines have been completed.

BARFOOT, Coronado National Forest. This fire is 35 miles southwest of Willcox, NM in mixed conifer. Structures at Rustler Park and Spotted Owl habitat remain threatened. Access is restricted to a Methodist Church camp. Fire spread continued mostly to the west in heavy fuels.

DRAGON COMPLEX, Grand Canyon National Park. A transfer of command from a Fire Use Management Team (Cones) back to the local unit is scheduled for 7/24. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Dragon, Spine, Basin and Marble fires are being managed to accomplish resource objectives. This complex is 10 miles north of Grand Canyon Village, AZ in mixed conifer, ponderosa pine, aspen and dead and down fuel. Creeping fire with minimal growth was observed.

JEFF, Truxton Canyon Agency, Bureau of Indian Affairs. This fire is 50 miles northwest of Peach Springs, AZ in grass and brush. Grand Canyon West Resort is threatened. Rapid rates of spread were observed.

CLAY TANK, Truxton Canyon Agency, Bureau of Indian Affairs. This fire is 40 miles northwest of Peach Springs, AZ in cheatgrass and sage. The fire was active on the northeast perimeter.

DIAMOND, Truxton Canyon Agency, Bureau of Indian Affairs. This fire is 50 miles northwest of Peach Springs, AZ in sage, yucca and grass. Rough terrain is hampering suppression efforts. Some flames were observed on the west side. No further information was received.

HOLY JOE, Arizona State. This fire is eight miles northeast of Mammoth, AZ in brush, grass and mesquite. A historical ranch house and outbuildings remain threatened. Isolated torching in the interior was reported. Heavy amounts of interior unburned fuel remain.

GREENBACK, Tonto National Forest. This fire is 12 miles east of Punkin Center, AZ in short grass and chaparral. No new information was reported. This will be the last report unless new information is received.

WILLOW, Gila National Forest. This fire is seven miles southwest of Reserve, NM in grass, ponderosa pine, pinyon and juniper. No significant activity was reported.

TWO BAR, Tonto National Forest. This fire is six miles southwest of Roosevelt, AZ in chaparral. No new information was reported. No new information was reported. This will be the last report unless new information is received.

BRUSH, Gila National Forest. This fire is 25 miles northwest of Silver City, NM in hardwood litter and brush. No significant activity was reported.

FLORIDA, Coronado National Forest. This fire is 11 miles southeast of Green Valley, AZ in brush and timber litter. No new information was reported.

MILES, Tonto National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 10 miles north of Superior, AZ in short grass. Minimal fire activity was observed. This fire is in monitor status.

WAHOO, Gila National Forest. This fire is 21 miles northwest of Winston, NM in timber, brush and slash. No fire activity was reported. The fire is in monitor status. No new information was reported. This will be the last report unless significant activity occurs.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

COVE, Cedar City Field Office, Bureau of Land Management. This fire is 3 miles east of Gunlock, UT in grass. Gunlock, Veyo, Dammeron Valley and the municipal water supply for St George are threatened. Evacuation order for the community of Gunlock is in place. A power line was damaged. Extremely active fire behavior was observed.

DAMMERON COMPLEX, Cedar City Field Office, Bureau of Land Management. A Type 1 Incident Management Team (Sexton) is assigned. This complex, comprised of the Dammeron, Mill Creek, Yant and Stahlie fires, is five miles north of St. George, UT in mixed conifer, pinyon, juniper and grass. The St. George municipal watershed, wildlife habitat and cultural sites remain threatened. The Dammeron fire reported upslope runs, torching and spotting. The Mill Creek fire

reported minimal activity. The Yant fire reported running, torching and spotting. The Stahlie fire reported no fire spread.

SUNRISE, Cedar City Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Suwyn) is assigned. This fire is 27 miles northwest of St. George, UT in brush. Residences, outbuildings, fuel tanks and historic mine buildings remain threatened. Structure protection is in place in the town of Motoqua. Short range spotting and torching were reported.

PARK VALLEY, Northwest State, Utah State. This fire is one mile south of Park City, UT in brush. Structures and wildlife habitat are threatened. Structure protection is in place. Highway 30 was temporarily closed. Thunder cells caused wind-driven running and torching. Extreme fire behavior was reported.

TANK COMPLEX, Arizona Strip Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Saleen) is assigned. This complex, comprised of the Tank, Cow and Twist fires is 60 miles north of Peach Springs, AZ in pinyon, juniper, grass and brush. Desert tortoise habitat and a designated wilderness are threatened. Plume dominated fire behavior was reported. Increase in acreage is total for all fires.

NECK, Cedar City Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Reinarz) has been ordered. This fire is 28 miles north of Cedar City, UT in grass, pinyon and juniper. A natural gas pipeline is threatened. Active fire behavior and several spot fires were reported.

RUPERT, Twin Falls District, Bureau of Land Management. This fire is 10 miles north of Minidoka, ID in tall grass. Grazing habitat, rangeland wells, winter ranges, wildlife habitat and a national monument and preserve are threatened. Rates of spread due to high winds were reported.

BLAIR, Boise District, Bureau of Land Management. This fire is seven miles north of Glenns Ferry, ID in brush. One ranch is threatened. Running fire was reported. Precipitation aided in control efforts.

FALLS CREEK, Salmon-Challis National Forest. A Fire Use Management Team (Weldon) has been ordered. This fire is 25 miles northeast of Challis, ID in timber and grass. A campground and residences remain threatened. Interior torching was reported. No further information was received.

SHEEP CREEK, Ashley National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 20 miles southwest of Manila, UT in timber litter and lodgepole pine. Hickerson Part road was closed. Active ground fire and torching were reported.

MARYSVALE PEAK, Fish Lake National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 14 miles southeast of Richfield, UT in timber litter. Minimal fire behavior was reported. No further information was received.

WHITE KNOLL, Manti-Lasal National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 34 miles southwest of

Price, UT in timber litter, aspen and beetle-killed spruce. This will be the last narrative report unless significant activity occur.

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

BERRY MEADOWS, Beaverhead/Deerlodge National Forest. A Type 2 Incident Management Team (Specht) has been ordered. This fire is 12 miles southwest of Jackson, MT in timber. High winds from passing thunderstorms caused spotting and torching. Heavy dead and down fuels and lack of natural barriers is hindering control efforts. A temporary closure for the fire area, including Skinner Meadows road has been implemented. Structure protection plan is being implemented.

BIG HORN, Crow Agency, Bureau of Indian Affairs. A transfer of command from a Type 2 Incident Management Team (Larsen) back to the local unit is scheduled for 7/24. This fire is 44 miles southeast of Billings, MT in timber, juniper and sagebrush. Some interior burning was reported. Numerous archaeological sites remain threatened. A burn out operation was successfully completed.

BERRET GULCH, Southwestern Land Office, Montana State. A Type 2 Incident Management Team (Cowin) is assigned. This fire started on private land 29 miles northeast of Missoula, MT in heavy logging slash. Surface fire with creeping and smoldering was reported. No further information was received.

MCARTHUR, Charles M. Russell National Wildlife Refuge. A Type 2 Incident Management Team (Benes) is assigned. The fire is 20 miles southeast of Zortman, MT in ponderosa pine, grass, sage and juniper. A cultural resource site, McArthur Cow Camp, a wilderness study area and range land are threatened. Creeping and smoldering were reported in interior islands of unburned fuel.

BALLEK, Billings Field Office, Bureau of Land Management. This fire started on private land 30 miles west of Wyola, MT in grass and sagebrush. A ranch house is threatened. Rapid rates of spread were reported. Burn out operations are planned.

WESTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

EAST MORMON, Ely Field Office, Bureau of Land Management. This fire is 20 miles northeast of Mesquite, NV in short grass. Desert Tortoise habitat remains threatened. Thunderstorms caused extreme fire behavior, running and rapid rates of spread to the south and east.

LOOP, Las Vegas Field Office, Bureau of Land Management. This fire is 16 miles west of Las Vegas, NV in grass and brush. Desert Tortoise habitat is threatened. Highway 159 is closed. Voluntary evacuations have taken place. Wind shifts caused running and spotting. Smoke is limiting visibility in Las Vegas.

DELAWARE, Carson City Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Linardos) is assigned. This fire is 40 miles southeast of Reno, NV in brush. Cultural resources, power lines, and a watershed are threatened. Backing, creeping and single tree torching were reported.

ROCKY MOUNTAIN AREA INCIDENTS / LARGE FIRES:

PACK TRAIL COMPLEX, White River Field Office, Bureau of Land Management. A transfer of command from a Fire Use Management Team (Cook) to another Fire Use Management Team (Hahnenberg) will occur on 7/24. This lightning-caused Wildland Fire Use (WFU) complex, comprised of Pack Trail, West Jordon and Smith Gulch, is being managed to accomplish resource objectives. This complex is 10 miles west of Meeker, CO in timber litter and brush. Limited growth was reported on the south side of the Pack Trail fire. The West Jordan fire continues to exhibit active fire behavior during the afternoons. Fire behavior is characterized by backing fire downslope, and short duration runs to the ridgetops. Primary spread has been to the north and northeast.

UPD = Uncompahgre Field Office, Bureau of Land Management.

ALASKA AREA INCIDENTS / LARGE FIRES:

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone. A Type 2 Incident Management Team (Chrisman) is assigned. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. Drier weather increased fire behavior with short crowning runs and backing fires.

FOX CREEK, Kenai-Kodiak Area Forestry, Alaska Division of Forestry. This incident is being managed to accomplish resource objectives. This fire is 35 miles southeast of Soldotna, AK in beetle-killed spruce, hardwoods and timber litter. Smoke impact to surrounding communities and recreational users remain a concern. Some surface fire and isolated torching was observed.

MISSION CREEK, Alaska Fire Service, Upper Yukon Zone. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is being managed in conjunction with the Boundary Creek fire. This fire started on Alaska Native Claims Settlement Act land nine miles west of Eagle, AK in black spruce and tundra. Eagle, Eagle Village and structures are threatened. Tough terrain and lack of water sources are hindering control efforts. Backing fire with short crowning runs was reported.

OUTLOOK:

Weather Discussion: High pressure centered in the mid-western states will continue to circulate moisture into the Southwest Area. This moisture will touch off scattered thunderstorms over higher elevations of the Southwest, Great Basin and Rocky Mountain Areas. Relative humidity will also be up slightly today across the Southwest. The Northern Rockies will see windy conditions behind a cold front.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Southwest Partly cloudy. Scattered showers and thunderstorms in Arizona and western New Mexico. Isolated storms in eastern New Mexico and west Texas.	70 to 90 mountains. 90 to 105 lower elevations.	20 to 40%.	Variable 5 to 15 mph with gusts to 25 mph Arizona and western New Mexico. South to southeast 10 to 20 mph New Mexico and west Texas.
Eastern Great Basin Mostly sunny with isolated afternoon thunderstorms southeast corner of Idaho. Mostly cloudy with scattered thunderstorms over Utah valleys, and numerous showers and thunderstorms over Utah mountains.	Idaho, Bridger-Teton: 72 to 82 mountains, 80 to 91 valleys. Northern Utah: 75 to 86 mountains, 86 to 96 valleys. Southern Utah, Arizona strip: 75 to 97 mountains, 95 to 104 valleys.	Idaho, Bridger-Teton: 20 to 30% mountains, 14 to 24% valleys Northern Utah: 25 to 35% mountains, 15 to 25% valleys. Southern Utah, Arizona strip: 28 to 35% mountains, 15 to 28% valleys.	Idaho, Bridger-Teton: West/northwest 8 to 15 mph. Northern Utah: Upslope/upvalley 5 to 10 mph, expect gusty winds near thunderstorms. Southern Utah, Arizona strip: Upslope/upvalley 5 to 10 mph.
Northern California Sunny with areas of low clouds or fog along the coast.	90 to near 103 in warmer inland valleys.	8 to 18% drier PSA's to 30% or greater near the coast.	Increasing in the afternoon to southwest to northwest 5 to 12 mph, with local gusts 16 to 22 mph in northeast CA.
Western Great Basin Mostly sunny across northwestern Nevada, partly cloudy with isolated to scattered showers and thunderstorms across the remainder.	North valleys: 90 to 102. South valleys: 95 to 108. Mountains: 78 to 92.	North valleys: 8 to 15%. South valleys: 15 to 30%. Mountains: 15 to 30%.	Southwest to west at 5 to 15 mph with afternoon gusts of 25 to 30 mph across the north.

Southern California Areas of morning low clouds and fog coastal areas of central California, otherwise mostly sunny in the morning becoming partly cloudy with isolated showers and thunderstorms over the Sierra and showers and thunderstorms over southern California in the afternoon.	85 to 100 mountains. 90 to 105 valleys. 100 to 110 upper deserts. 100 to 110 lower deserts.	20 to 40%.	Southeast to southwest 5 to 15 mph.
Rocky Mountain Isolated to widely scattered thunderstorms over central Colorado, northern Colorado and the Black Hills region. Southwest Colorado and western Wyoming will see thunderstorms on the dry side.	90 s to low 100 s for western Colorado, front range Colorado and eastern plains, with 80 s elsewhere (70 s and 80 s mtns).	Less than 15% central Wyoming. 10 to 20% across the western slope, front range of Colorado and the rest of Wyoming. 25 to 35% elsewhere.	Southern flow of 10 to 25 mph across eastern plains. Western flow 8 to 18 mph in western Wyoming.
Northwest Area Coast: Mostly cloudy with areas of morning drizzle. West of Cascades: Mostly cloudy, becoming partly sunny. East of Cascades: Mostly sunny.	Coast: in the 60 s. West of Cascades: 75 to 85, warmest southwest Oregon. East of Cascades: mostly in the 80 s.	Coast: 55 to 70%. West of Cascades: 30 to 45%. East of Cascades: 15 to 30%.	Northwest at 5 to 15 mph. East slopes of Cascades and across Columbia basin, wind becoming 15 to 20 mph in the afternoon.
Northern Rockies Upper westerly flow will bring cooler temperatures and gusty west winds. Expect partly cloudy skies and an increase in humidity.	West of divide 80 to 85. East of divide 85 to 95. North Dakota - 85 to 90.	West of divide 20 to 30%. East of divide 25 to 35%. North Dakota 35 to 50%.	West of divide west 10 to 15 mph. East of divide west 15 to 25 mph. North Dakota west 15 to 25 mph. Locally higher gusts possible.

http://www.nifc.gov/sixminutes/dsp_sixminutes.php

THUNDERSTORM SAFETY

Thunderstorms cause significant hazards for wildland firefighters, including downbursts that can cause extreme fire behavior and lightning. When thunderstorm development is likely, lookouts should be posted and aware of signs of a developing storm. A sudden reversal in wind direction, a noticeable rise in wind speed, and a sharp drop in temperature may note the mature stage of a storm. Heavy rain, hail and lightning occur only in the mature stage of a thunderstorm. During a storm, use the following guidelines:

- Do not lie down.
 - The best position is sitting on the pack or crouching with feet close together.
 - Avoid sitting directly on the ground, if possible; but, if necessary, keep feet and butt close together.
 - Avoid grouping together. Keep a minimum of 15 feet between people when possible.
 - Removing caulk boots will not provide safety if stocking covered or bare feet are then in contact with the ground--don't bother!

- "Stay out of dry creek beds" is correct for flash floods, but has nothing to do with lightning.
- Handheld radios (with short rubber antennas) or cell phones are safe to use. Communication is vital to crew safety. Do not use land line radios or radios with elevated antennas.
- Wide, open spaces are better than trees or clumps of trees in the vicinity. Ridge tops, etc., should be avoided.
- If you feel the hair on your arms or head "stand up," there is a high probability of a strike in the vicinity. Crouch or sit on a pack.
- Put down all tools.
- Take shelter in vehicles if possible.
