

INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, MAY 12, 2005 0530 MDT
NATIONAL PREPAREDNESS LEVEL 1

CURRENT SITUATION:

Nationally, initial attack activity was light with 49 fires reported. Two new large fires were reported, one each in the Alaska and Southern Areas. One large fire was contained in the Southern Area. Very high to extreme fire indices were reported in Arizona and Alaska.

ALASKA AREA INCIDENTS / LARGE FIRES

ISLAND LAKE, Tok Area Forestry. This fire is 45 miles southeast of Northway, AK in open black spruce and dry tundra. Fire made several large runs with isolated torching.

TRACY AVENUE, Kenai Kodiak Area Forestry. This fire is nine miles northeast of Homer, AK in timber. Open flame, with individual torching and smoldering was reported.

OUTLOOK:

Weather Discussion: The low pressure system which has been parked over the West the last few days is now moving east of the Rockies. Meanwhile, high pressure covers most of the eastern half of the country with gusty winds expected in New England. In Alaska, high pressure is slowly weakening over the area.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Southwest Warmer and drier, but less windy. Mostly sunny, except mostly cloudy with a few showers or storms northern NM mountains and portions of west TX.	50 to 70 mountains, 70 to 90 lower elevations.	8 to 20% most of AZ and NM lowlands, 20 to 40% NM mountains and west TX plains.	W to SW 5 to 15 mph AZ and western NM, SW to S 10 to 20 mph and gusty eastern NM and west TX.
Southern California Mostly sunny.	55 to 70 mountains. 75 to 85 valleys. 70 to 80 upper deserts. 85 to 95 lower deserts.	20 to 40%.	Southwest to northwest 5 to 15 mph.

IN COUNTRY NOT SEEN IN DAYLIGHT

Often firefighters arrive on a fire after dark. This is recognized as Watchout Situation #2. Before safely fighting fire in country not seen in daylight, firefighters must be able to answer the following questions:

- Can the resources you are replacing give you a thorough briefing? Identify whom you might get information from. Can you meet up with the departing crew/engine leaders?
- Can you observe the area/use scouts? List ways you could observe the area you need to work.
- Have escape routes and safety zones been thoroughly scouted and marked for night use? Talk about what constitutes an escape route and a safety zone; who would identify them; and in what ways might they be marked.
- Have potential dangers been located; can they be mitigated? What are the dangers associated with Watchout Situation #2? How can they be worked around?
- Reduce the risks by:
 - Posting lookouts.
 - Checking communications.
 - Retreat if you have doubts about your escape routes or safety zones or the situation becomes too complex. Give examples of arriving on a fire after dark and what was done to allow you to fight fire safely in country not seen in daylight.
