

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, MAY 30, 2005 0800 MDT
NATIONAL PREPAREDNESS LEVEL 1

CURRENT SITUATION:

Initial attack activity was light nationally with 98 new fires reported. One new large fire was reported in the Alaska Area, and one large fire was contained in the Southwest Area. Very high to extreme fire indices were reported in Alaska, Arizona, and New Mexico.

ALASKA AREA INCIDENTS / LARGE FIRES:

DOT LAKE, Tok Area Forestry. This fire is 50 miles northwest of Tok, AK in black spruce and mixed brush. The community of Dot Lake is threatened. Extreme fire behavior is hampering containment efforts.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
DOT LAKE	AK	TAS	180	5	6/4	2	0	1	0	1	50K

SOUTHWEST AREA INCIDENTS / LARGE FIRES:

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
VEKOL	AZ	AZS	6,116	100	---	121	2	3	1	0	680K

AZS = Arizona State

OUTLOOK:

Weather Discussion: A low pressure system moving through the Great Basin will bring drier and windier weather to the Southwest except for some lingering moisture over eastern New Mexico and west Texas. In Alaska, a southeast flow will bring cooling and higher humidity to the interior and western Alaska.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Southwest Mostly sunny and breezy western AZ. Partly to mostly cloudy with scattered thunderstorms elsewhere, some dry near the four corners.	50s to 70s mountains. 80s and 90s lower elevations.	15 to 20% northern AZ and northwest NM. 20 to 40%+ remainder of AZ & NM and west TX.	SW 15 to 25 mph western AZ, NE 10 to 20 mph northeast NM and TX panhandle, and W to SW 10 to 15 mph with higher gusts remainder of AZ, NM and west TX.

INSTRUCTIONS AND ASSIGNMENTS NOT CLEAR

Every firefighter will give and receive briefings at some point on the job. Briefings are an effective way to disseminate information that can make the firefighter's job safer and easier. When giving a briefing, it is important to keep the following questions in mind and remain perceptive to how the audience is receiving the information:

- Did they ask questions? Talk about what it is like giving a briefing. Do you get empty stares? What feedback are you looking for to ensure they understand you?
- Did they take notes? What kind of information would you like to see people write down?
- Did they repeat information back? What other ways can you identify that your briefing is registering?
- Did you give all the necessary information? How will you ensure that you covered everything necessary?
 - Task
 - Location
 - Communications
 - Hazards
 - Who, when, etc.
- It is also important for the firefighter who is receiving instructions to be mindful of the following during the briefing:
 - Did you really listen? What do you do to make yourself pay attention to everything being said?
 - Did you understand the assignment, location, and the nature and location of hazards? Do you expect to figure it out for yourself when you get out there or do you step forward and ask questions?
- To reduce the risks, take the time and get it right!
- You must know the location of the assignment and:
 - What is to be done.
 - Who you are to report to and how often to report.
 - When you are expected to complete the assignment.
 - Hazards.
 - Communication plan frequencies.
 - Weather and fire behavior.
 - Status of adjoining forces.
