### EASTERN AREA INCIDENTS/LARGE FIRES:

REED HOLLOW, Mark Twain National Forest. This fire is eight miles southwest of Fremont, MO in timber and hardwood litter. Rugged terrain and limited access are hindering containment efforts.

COUNTY LINE, Wayne National Forest. This fire is 10 miles west of Pine Grove, OH in timber and logging slash. Crews are making good progress toward containment despite high winds.

## RESPONDING TO VEHICLE FIRES

Suppression of vehicle fires is extremely dangerous and poses many health hazards to firefighters. The following procedures are recommended:

- Secure the scene and provide or request assistance for traffic control.
- Provide for your escape route at the scene.
- Do not use road flares if fuel is leaking from the vehicle or if wildland fuel is nearby.
- Vehicle fires are considered a hazardous materials scene. Suppression action should only be taken if the crew is trained, equipped, and authorized in the use of Self-Contained Breathing Apparatuses (SCBA).
- If taking suppression action on wildland fuels, firefighters should ensure that they are a safe distance from the burning vehicle (100-feet minimum), and avoid contact with vehicle fire smoke or fumes.
