

**INCIDENT MANAGEMENT SITUATION REPORT
SATURDAY, OCTOBER 22, 2005 0800 MDT
NATIONAL PREPAREDNESS LEVEL 2**

CURRENT SITUATION:

Initial attack activity was light nationally with 30 fires reported. No large fire activity occurred. Very high to extreme fire indices were reported in Arizona and Nebraska.

A Presidential Disaster Declaration was issued for Hurricanes Katrina and Rita in Mississippi, Alabama, Louisiana and Texas. An Area Command Team (Williams-Rhodes) is coordinating relief operations in Louisiana and Texas (FEMA Region VI) and in Mississippi for (FEMA Region IV). The Marietta Mobilization Center in Marietta, GA continues to house and in-brief resources prior to assignment.

Resources are being mobilized to the Southern Area in preparation for Hurricane Wilma.

A link to a map with resources mobilized for hurricane response is located at http://gacc.nifc.gov/sacc/predictive/intelligence/Resource_Map.pdf.

HAZARD MITIGATION THROUGH RISK MANAGEMENT (continued)

"Risk management doesn't get in the way of doing the mission – it is the way we do the mission." The Risk Management Process assists in ensuring that critical factors and risks of the fireline work environment are considered during decision making. Good risk management utilizes a five-step process:

● Step 4—Decision Point (decision to accept or not accept the risk(s) associated with an action):

- Consider whether controls are in place for identified hazards, whether selected tactics are based on expected fire behavior and if instructions have been given and understood.
- Make certain the decision is made at the appropriate level; if not, then elevate to a higher level.
- Reject the action if the risk is unacceptable.

● Step 5—Evaluation:

- Ensure controls are implemented and accomplished to standards.
- Supervise/evaluate effectiveness of controls and decisions. Stay on top of the situation and adjust risk controls as necessary.
- Anticipate consequences of decisions; if controls do not work, determine problem and derive a better solution.
- Adjust actions as the situation changes; maintain situational awareness at all times.
- Maintain feedback line.
