

**INCIDENT MANAGEMENT SITUATION REPORT  
MONDAY, OCTOBER 24, 2005 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 2**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 33 fires reported. No new large fires were reported. Very high to extreme fire indices were reported in California.

A Presidential Disaster Declaration was issued for Hurricanes Katrina and Rita in Mississippi, Alabama, Louisiana and Texas. An Area Command Team (Williams-Rhodes) is coordinating relief operations in Louisiana (FEMA Region VI) and in Mississippi for (FEMA Region IV). The Marietta Mobilization Center in Marietta, GA continues to house and in-brief resources prior to assignment.

Resources are being mobilized to the Southern Area for Hurricane Wilma.

A link to a map with resources mobilized for hurricane response is located at [http://gacc.nifc.gov/sacc/predictive/intelligence/Resource\\_Map.pdf](http://gacc.nifc.gov/sacc/predictive/intelligence/Resource_Map.pdf).

**SOUTHERN AREA INCIDENTS / LARGE FIRES:**

HURRICANES KATRINA AND RITA SUPPORT, Federal Emergency Management Agency. Emergency Support Function (ESF) #4 at the state Emergency Operations Centers in Jackson, MS and Baton Rouge, LA are staffed.

Six Type 2 Incident Management Teams (Morcom, Goheen, Stewart, Floyd, Carlson and LaFave) are assigned.

Morcom: managing base camps at Gulfport and Vancleave, MS.

Goheen: managing a mobilization center and base camp at Camp Beauregard, near Pineville, LA.

Stewart: is assessing timber damage and assisting with wildfire suppression at Hammond, LA.

Floyd: managing a receiving and distribution center and supporting a mobilization center at Barksdale Air Force Base, Bossier City, LA.

Carlson: managing the Jackson Support Base in the New Orleans French Quarter and supporting several satellite camps in southern Louisiana.

LaFave: managing distribution sites in Hancock County from a base camp at Stennis Space Center, MS.

HURRICANE WILMA SUPPORT, Federal Emergency Management Agency. The Regional Response Coordination Center is currently staffed in Atlanta, GA. An Emergency Operations Center is staffed in Tallahassee, FL.

Two Type 1 Incident Management Teams (Pincha-Tulley and Gelobter) are currently staged at Jacksonville, FL. A third Type 1 Team (Wilcock) has been ordered.

Pincha-Tulley: will be assigned to Homestead, FL, to establish and manage a base camp and receiving and distribution center.

Gelobter: will establish and manage a receiving and distribution center at Jacksonville, FL.

## OUTLOOK:

**Red Flag Warning:** For southern Alabama, the Florida panhandle and big bend areas for low relative humidity and strong winds.

**Weather Discussion:** Hurricane Wilma will make landfall today along the southwest coast of Florida, then move across southern Florida and pass into the Atlantic. An upper level low pressure system will approach the central California coast with light rain showers over portions of the state. Mostly dry conditions will persist along the Gulf Coast states with the exception of southern Florida.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>Southern California</b> Morning low clouds, fog, and some drizzle or light showers west of the coastal mountains of southern California. Partly cloudy with a chance of showers late in the day over the central Sierra. Mostly sunny elsewhere.	Mountains: 55 to 65. Valleys: 65 to 75. Upper deserts: 70s. Lower deserts: 80s.	30 to 50%.	Southwest 10 to 20 mph.

#### **POWER LINE SAFETY**

Operating near or under power lines poses unique hazards, and the following precautions should be followed to reduce potential equipment damage or injury:

- If possible, the power company should deactivate lines in the fire area.
- Don't operate heavy equipment under power lines.
- Don't use right-of-ways as a jump or cargo drop spot.
- Don't drive with long antennas under power lines.
- Don't stand near power lines during retardant drops.
- Don't park under power lines. The magnetic field around energized power lines can induce an electrical charge in ungrounded vehicles or equipment. This charge can shock anyone who touches the vehicle.
- Don't apply straight stream to power lines.
- All personnel should be cautioned that smoke may become charged and conduct the electrical current. Deactivated transmission and distribution lines may continue to pose a hazard due to induction.
- If power lines fall on your vehicle, DON'T leave the vehicle until the power company arrives. If the vehicle is on fire or fire is near, jump clear, don't hang on, keep feet together, and bunny hop away.
