

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, SEPTEMBER 5, 2005 0800 MDT
NATIONAL PREPAREDNESS LEVEL 4

CURRENT SITUATION:

Initial attack activity was light nationally with 136 fires reported. Six new large fires were reported, three in the Eastern Great Basin Area, and one each in the Rocky Mountain, Southern, and Southern California Areas. Two large fires were contained in the Rocky Mountain Area. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Idaho, Montana, Nebraska, Nevada, Oregon, South Dakota, Utah, Washington and Wyoming.

A Presidential Disaster Declaration was issued on 8/29 for Hurricane Katrina in Mississippi, Alabama and Louisiana. Two Area Command Teams are assigned (Williams-Rhodes and Ribar). Williams-Rhodes Team is providing Incident Management Team coordination for FEMA Region IV at the Regional Response Coordination Center in Atlanta, GA for Hurricane Katrina Support. Ribar's team is assigned to the Louisiana Emergency Operations Center in Baton Rouge, LA. The Team is coordinating activities of the Incident Management Teams in FEMA Region VI. Numerous resources are being mobilized as part of the relief effort.

SOUTHERN AREA INCIDENTS / LARGE FIRES:

HURRICANE KATRINA SUPPORT, Federal Emergency Management Agency. Emergency Support Function #4 is staffed at the Regional Response Coordination Centers in Atlanta, GA and Denton, TX. Six Type 1 Incident Management Teams (Custer, Quesinberry, Pincha-Tulley, Gelobter, Cable and Molumby) are assigned. Custer's Team is managing an evacuation center and base camp at the Louis Armstrong New Orleans International Airport in Kenner, LA. Quesinberry's Team is managing a mobilization center at Meridian Naval Air Station in MS. Pincha-Tulley's Team is managing two camps and supporting the receiving and distribution of relief supplies at Stennis Space Center in MS. Gelobter's Team is managing a base camp at Montgomery, AL. Cable's Team is establishing a base camp in Metairie, LA. Molumby's Team is being assigned to St. Gabriel, LA.

Six Type 2 Incident Management Teams (Lineback, Mullenix, Smith, Thomas, Philbin and Raley) are assigned. Lineback's Team is providing support for the receiving and distribution of supplies and resources at a mobilization center in Camp Beauregard, Pineville, LA. Mullenix's Team is being assigned to San Antonio, TX. Smith and Thomas Teams are at the Marietta Mobilization Center in Marietta, GA. Philbin and Raley are being assigned to new evacuee centers in Arizona. A Texas State Incident Management Team (Stanford) is assigned at Hammond, LA. A North Carolina State Incident Management Team (Hildreth) is managing a base camp at Shiner Brookley Field, AL. A Planning Team (Terry) is supporting relief efforts at the Long Term Recovery Center in Orlando, FL.

Four Logistics Management Teams (Prevey, Humphrey, Jenkins and Floyd) have been mobilized; two to Meridian, MS, and one each to Maxwell Air Force Base, AL, and Barksdale Air Force Base, LA. A Florida State All Risk Incident Management Team (Hill) has been assigned to Biloxi, MS. The Team is providing logistical support to Urban Search and Rescue teams. A Florida State Incident Management Team (Jones) has established a Logistical Staging Area at Stennis Space Center in MS. The Team is helping with distribution of relief supplies throughout southern

Mississippi. National Park Service All Risk Teams are being assigned to assist with hurricane recovery.

WF UNIT 6, McFaddin National Wildlife Refuge, Fish and Wildlife Service. This fire is 20 miles east of Winnie, TX in grass. No further information was received.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

VALLEY ROAD, Sawtooth National Forest. A Type 1 Incident Management Team (Sexton) is assigned. This fire is located 15 miles south of Stanley, ID in timber. Residences, commercial property, structures, workcenter, wildlife habitat, campgrounds and recreation areas remain threatened. Evacuations are ongoing. Extreme fire activity with wind driven runs, crowning and spotting were observed.

RATTLESNAKE, Fort Hall Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Suwyn) has been ordered. This fire is 16 miles southwest of Pocatello, ID in grass, sage brush and juniper. Residences, power lines, a communications site and wildlife habitat are threatened. Rapid rates of spread, rugged terrain, and drought affected fuels are hampering containment efforts. Wind driven runs with torching and spotting were reported.

GREGORY, Boise National Forest. A Type 2 Incident Management Team (Brunner) has been ordered. This fire is two miles southwest of Idaho City, ID in timber and logging slash. Residences, historic sites and the town of Idaho City remain threatened. Structure protection is in place. Voluntary evacuations are in effect. Backing fire behavior was reported.

SAWMILL, Fort Hall Agency, Bureau of Indian Affairs. This fire is 11 east of Fort Hall, ID in grass, sage brush and juniper. Cultural site, watershed resources and wildlife habitat are threatened. Torching and spotting were observed.

WILDHORSE, Salmon-Challis National Forest. This fire is 25 miles southwest of Mackay, ID in timber. Campers were evacuated from Wildhorse Campground. Steep rocky terrain, windy conditions and heavy fuel loading are hampering containment efforts. Outbuildings are threatened. Significant torching and spotting were observed.

JUNIPER, Idaho Falls District, Bureau of Land Management. This fire is 16 miles west of Holbrook, ID in grass, sage brush and juniper. Grazing allotments and sage grouse habitat are threatened. Wind driven runs with torching and spotting were observed.

BLACK MOUNTAIN, Salt Lake Field Office, Bureau of Land Management. This fire is two miles north of Dell, UT in timber. Wildlife habitat remains threatened. Smoldering fire behavior was reported.

FRANK CHURCH, Payette National Forest. A Type 2 Incident Management Team (Reinarz) is assigned. This lightning caused Wildland Fire Use (WFU) incident, comprised of the Bear Creek, Root Creek, West Fork/Joe, Missouri Ridge and several other fires is 50 miles northeast of McCall, ID in timber. The fire is being managed to accomplish resource objectives. Commercial

property, residences and historical structures remain threatened. Structure protection remains in place. Slow breaking inversion layer delayed fire activity.

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

SEEPAY #2, Flathead Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Cowin) is assigned. This fire is two miles southwest of Perma, MT in timber. Residences and commercial property remain threatened. Steep rugged terrain and heavy fuel loading are hampering containment efforts. Creeping surface fire with smoldering was observed.

SIGNAL ROCK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. The fire is 17 miles southwest of Philipsburg, MT in timber and is burning on both the Bitterroot and Beaverhead/Deerlodge National Forests. Crown runs and spotting were observed. The Team is also managing the Copper Creek Fire, which has been controlled.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. A Fire Use Management Team (Cook) is assigned. This lightning caused Wildland Fire Use (WFU) complex, comprised of the El Capitan, Wapiti, Beaverjack, Reynolds and numerous other fires, is 26 miles southwest of Hamilton, MT in timber. This complex, burning on both the Salmon-Challis and Bitterroot National Forests, is being managed to accomplish resource objectives. A historic ranger station, a work center and a lookout remain threatened. Structure protection remains in place. Active surface fire with short crown runs and some torching was reported.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. Steep terrain and limited access continue to hamper containment efforts. Creeping fire behavior with smoldering and torching was observed. Spot fires in inaccessible areas are contributing to control problems.

ROCKIN, Bitterroot National Forest. This fire is 10 miles northwest of Darby, MT in timber. Steep, rocky terrain difficult to access and narrow canyons are impeding control efforts. Fire

became more active due to windy conditions. Torching and creeping fire behavior were reported. Reduction in acreage is due to more accurate mapping.

SOUTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

JOHNSON, California Department of Forestry and Fire Protection (CDF), San Bernito-Monterey Unit. This fire is two miles northeast of Gonzales, CA in grass. Residences, commercial property and a watershed are threatened. Moderate to rapid rates of spread with long range spotting were reported.

GORMAN, Los Angeles County Fire Department. This fire is two miles west of Gorman, CA in light and heavy fuels. Minimal fire behavior was reported. Reduction in acreage is due to more accurate mapping.

NORTHWEST AREA INCIDENTS / LARGE FIRES:

GRANITE COMPLEX, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Lunde) is assigned. This lightning caused Wildland Fire Use (WFU) incident is 30 miles east of Enterprise, OR in timber and grass. This complex is being managed to accomplish resource objectives. Decrease in fire behavior is due to cooler temperatures and high relative humidity. The fire continues to progress in heavy fuels.

OUTLOOK:

Fire Weather Discussion: An upper trough over the Northern Rockies will be moving out of the region while weak high pressure moves into the Pacific Northwest. Along the Gulf Coast, it will be partly cloudy with a slight chance of thundershowers. Highs will be 85 to 90.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northern Rockies Weak upper level trough will bring cooler temperatures with a slight chance of showers over the northwest part of the geographic area. Expect partly to mostly cloudy skies.	West of divide: 70 to 75. East of divide: 75 to 85. North Dakota: 80 to 85.	West of divide: 25 to 35%. East of divide: 25 to 35%. North Dakota: 35 to 45%.	West of divide: West 5 to 10 mph. East of divide: Northwest 5 to 15 mph. North Dakota: North to northwest 5 to 15 mph.
Northern California Coastal fog, otherwise mostly sunny.	50s and 60s coast, 70s higher elevations, to near 90 warmest inland valleys.	7 to 15% east of the Cascade-Sierra crest and 12 to 25% elsewhere inland.	Southwest to northwest 6 to 12 mph with gusts to 22 mph coast and east of the crest, otherwise southeast to southwest 5 to 10 mph with gusts to 20 mph.
Southern California Morning low clouds and fog into the coastal valleys, otherwise mostly sunny.	80 to 95 mountains. 90 to 100 valleys. 95 to 105 upper deserts. 105 to 115 lower deserts.	5 to 15%.	Southeast to southwest 5 to 15 mph.
Western Great Basin Mostly sunny.	North valleys: 78 to 90. South valleys: 82 to 103. Mountains: 68 to 84.	North valleys: 8 to 20%. South valleys: 8 to 14%. Mountains: 8 to 22%.	Northwest to southwest 5 to 15 mph.
Rocky Mountain Isolated thunderstorms (some dry) northern portions, with widely scattered mainly afternoon thunderstorms south.	80s to mid 90s at lower elevations, with 70s to lower 80s in the mountains.	RH below 15%, over the lower elevations of central to southwest Wyoming into western South Dakota, with 15% to 20% across northwest Colorado.	West or northwest winds 12 to 22 mph over Wyoming and western South Dakota, and southerly 15 to 25 mph in the eastern plains.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northwest Area East of Cascades: Partly sunny north, otherwise sunny. West of Cascades: Morning clouds, becoming partly sunny north and sunny south.	East of Cascades: generally 75 to 85. West of Cascades: in the 70s, but 60s in mountains and coast.	East of Cascades: mostly 20 to 35%. West of Cascades: 45 to 60% in WA, but 35 to 45% in Oregon.	Northwest at 5 to 15 mph, but becoming more northerly in the afternoon.

http://www.nifc.gov/sixminutes/dsp_sixminutes.php

LOOKOUTS

Lookouts are often better situated to notice the cumulative changes of fire behavior.

• Fire Order #8 says, "Establish lookouts in potentially hazardous situations." Should you utilize lookouts at all times?

- Lookouts should be posted at all times.

• What are you looking for when you are selecting a lookout location?

- Choose a good vantage point, preferably with a good overview of the entire area where firefighters are located, including escape routes and safety zones.
- Utilize aircraft if they are available, but only as a complement to established lookouts on the ground. Never rely exclusively on aircraft as your lookout.

• What are the desired qualities, capabilities, knowledge, and responsibilities of a lookout person?

- Experienced firefighter.
- Solid knowledge of fire behavior and ability to recognize and monitor other environmental hazards.
- Good communicator--keeps the crew advised of fire behavior changes, tracks weather trends and relays the information, informs crew of work progress and updates from the latest strategy and tactical briefings.
- Monitors and accounts for all individuals within his/her assigned area at all times, and will notify others if breaks are needed.

• What is the necessary equipment for a lookout?

- PPE, radio with extra batteries, compass, binoculars, belt weather kit, IAP, map, food, and water.
