

**INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, SEPTEMBER 6, 2005 0530 MDT
NATIONAL PREPAREDNESS LEVEL 4**

CURRENT SITUATION:

Initial attack activity was light nationally with 138 fires reported. Six new large fires were reported, two each in the Eastern Great Basin and Southern Areas, and one each in the Northern California and Northern Rockies Areas. Four large fires were contained, two in the Southern California Area, and one each in the Eastern Great Basin and Southern Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Montana, Nebraska, Nevada, Oregon, South Dakota, Utah, Washington and Wyoming.

A Presidential Disaster Declaration was issued on 8/29 for Hurricane Katrina in Mississippi, Alabama and Louisiana. Two Area Command Teams are assigned (Williams-Rhodes and Ribar). Williams-Rhodes Team is providing Incident Management Team coordination for FEMA Region IV at the Regional Response Coordination Center in Atlanta, GA for Hurricane Katrina Support. Ribar's team is assigned to the Louisiana Emergency Operations Center in Baton Rouge, LA. The Team is coordinating activities of the Incident Management Teams in FEMA Region VI. Numerous resources are being mobilized as part of the relief effort.

SOUTHERN AREA INCIDENTS / LARGE FIRES:

HURRICANE KATRINA SUPPORT, Federal Emergency Management Agency. Emergency Support Function #4 is staffed at the Regional Response Coordination Centers in Atlanta, GA and Denton, TX. Seven Type 1 Incident Management Teams (Custer, Quesinberry, Pincha-Tulley, Gelobter, Cable, Molumby and Wilcock) are assigned. Custer's Team is managing an evacuation center and base camp at the Louis Armstrong New Orleans International Airport in Kenner, LA. Quesinberry's Team is managing a mobilization center at Meridian Naval Air Station in MS. Pincha-Tulley's Team is managing a base camp and supporting the receiving and distribution of relief supplies at Stennis Space Center in MS. Gelobter's Team is managing a base camp at Moss Point, MS. Cable's Team is en route to Baton Rouge, LA. Molumby's Team is building and managing a base camp at St. Gabriel, LA. Wilcock's Team has been mobilized and will travel to Marietta, GA today.

Eight Type 2 Incident Management Teams (Mullenix, Smith, Thomas, Philbin, Stanford, Hildreth, Whalen and Sinclair) are assigned. Mullenix's Team is being assigned to San Antonio, TX. Smith's Team is establishing a base camp at Camp Shelby, MS. Thomas Team is managing a base camp in Gulfport, MS. Philbin's Team is being assigned to a new evacuee center in Phoenix, AZ. A Texas State Incident Management Team (Stanford) is assigned at Hammond, LA. A North Carolina State Incident Management Team (Hildreth) is managing a base camp at Shiner Brookley Field, AL. Two Type 2 Incident Management Teams (Whalen and Sinclair) are traveling to Jackson, MS to support National Forest recovery operations in Mississippi. A Planning Team (Terry) is supporting relief efforts at the Long Term Recovery Center in Orlando, FL.

Five Logistics Management Teams (Prevey, Humphrey, Lineback, Jenkins and Floyd) have been mobilized; two to Meridian, MS, and one each to Camp Beauregard, LA, Maxwell Air Force Base, AL, and Barksdale Air Force Base, LA. A Florida State All Risk Incident Management Team (Hill) has been assigned to Biloxi, MS. The Team is providing logistical support to Urban Search and

Rescue teams. A Florida State Incident Management Team (Jones) has established a Logistical Staging Area at Stennis Space Center in MS. The Team is helping with distribution of relief supplies throughout southern Mississippi. National Park Service All Risk Teams have been assigned to various areas to assist with hurricane recovery. A U.S. Fish and Wildlife Service team is engaged in road clearing, community assistance, and supporting search and rescue work in Lacombe, MS.

ANGUS, Texas Forest Service. This fire started on private land seven miles south of Corsicana, TX in grass, scrub oak and mesquite. No further information was received.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

VALLEY ROAD, Sawtooth National Forest. A Type 1 Incident Management Team (Sexton) is assigned. This fire started on private land 15 miles south of Stanley, ID in timber. Residences, commercial property, structures, a work center, wildlife habitat, campgrounds and recreation areas remain threatened. Evacuations are in effect for residents and campers. Fire behavior continues to be extreme with wind and terrain driven runs, crowning and spotting.

SAWMILL, Fort Hall Agency, Bureau of Indian Affairs. This fire is 11 miles east of Fort Hall, ID in grass, sage brush, juniper and timber. Cultural sites, watershed resources and riparian areas remain threatened. Extreme fire behavior was reported.

RATTLESNAKE, Fort Hall Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Suwyn) is assigned. This fire is 16 miles southwest of Pocatello, ID in grass, sage brush, juniper and timber. Watershed and wildlife habitat are threatened. Rapid rates of spread, rugged terrain, and drought stressed fuels continue to hamper containment efforts. Running and short range spotting were reported. Reduction in acreage is due to more accurate mapping.

GREGORY, Boise National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This fire is two miles southwest of Idaho City, ID in timber and logging slash. Residences, commercial property, historic sites and the town of Idaho City remain threatened. Structure protection remains in place. Highway 21 has one lane open with a pilot car to lead traffic. Moderate fire activity with torching and minor runs was observed.

WILDHORSE, Salmon-Challis National Forest. This fire is 25 miles southwest of Mackay, ID in timber. Steep rocky terrain, windy conditions and heavy fuel loading continue to hamper containment efforts. Historic mine and structures are threatened. Torching, creeping and smoldering were observed.

JUNIPER, Idaho Falls District, Bureau of Land Management. This fire is 16 miles west of Holbrook, ID in grass, sage brush and juniper. Grazing allotments and sage grouse habitat are threatened. Lack of access and dry fuels are hampering containment efforts. Isolated torching and running were observed. Reduction in acreage is due to more accurate mapping.

HATCH, Northwest State, Utah Division of Forestry Fire and State Lands. This fire is eight miles south of Terra, UT in pinyon pine, juniper and grass. High rates of spread and spotting are hampering containment efforts. Isolated torching was observed.

FRANK CHURCH, Payette National Forest. A Type 2 Incident Management Team (Reinarz) is assigned. This lightning caused Wildland Fire Use (WFU) incident, comprised of the Bear Creek, Root Creek, West Fork/Joe, Missouri Ridge and several other fires is 50 miles northeast of McCall, ID in timber. The fire is being managed to accomplish resource objectives. Historic structures, mines and cabins remain potentially threatened. Structure protection remains in place. Remote location and difficult access are impeding operations. Backing fire and isolated torching were observed.

SOUTH FORK, Payette National Forest. This fire is 16 miles east of Donnelly in grass and timber. No further information was received.

CTF Caribou-Targhee National Forest

SLD Salt Lake Field Office, Bureau of Land Management

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

SEEPAY #2, Flathead Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Cowin) is assigned. This fire is two miles southwest of Perma, MT in timber. Cultural sites and structures remain threatened. Torching and creeping surface fire were observed.

SIGNAL ROCK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. The fire is 17 miles southwest of Philipsburg, MT in timber and is burning on both the Bitterroot and Beaverhead/Deerlodge National Forests. Active fire behavior with backing and torching was reported.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. A Fire Use Management Team (Cook) is assigned. This lightning caused Wildland Fire Use (WFU) complex, comprised of the El Capitan, Wapiti, Beaverjack, Reynolds and numerous other fires, is 26 miles southwest of

Hamilton, MT in timber. This complex, burning on both the Salmon-Challis and Bitterroot National Forests, is being managed to accomplish resource objectives. A historic ranger station, a work center and a lookout remain threatened. Structure protection remains in place. Trail closures are in effect. Fire behavior is moderating with cooler temperatures and higher relative humidity. Creeping with torching was observed.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. Steep terrain and limited access continue to hamper containment efforts. Active fire behavior with uphill runs, creeping and torching was observed.

MYSEE, Southern Land Office, Montana Department of Natural Resources and Conservation. This fire is three miles southwest of Reed Point, MT in grass and timber understory. A ranch is threatened. Smoldering and creeping fire behavior with occasional torching were observed.

ROCKIN, Bitterroot National Forest. This fire is 10 miles northwest of Darby, MT in timber. Steep, rocky terrain, difficult access and narrow canyons are continuing to hamper control efforts. Fire behavior is moderating due to higher relative humidity and lower temperatures. Smoldering and creeping fire behavior with torching were reported.

NORTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

GEARY, Six Rivers National Forest. A Type 2 Incident Management Team (Giachino) has been ordered. This fire is one mile east of Somes Bar, CA in timber. Structure protection is in place. Steep, inaccessible terrain is hampering containment efforts. One lane of the Salmon River Road has opened. Fire behavior has moderated due to higher relative humidity.

OUTLOOK:

Weather Discussion: High pressure will build over the West for mostly dry weather and warmer temperatures. However, some moisture will continue over the four corner states. Along the Gulf Coast, it will be partly cloudy with a slight chance of thundershowers. Highs will be 85 to 90.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Eastern Great Basin Mostly sunny area wide. Isolated afternoon mountain thunderstorms over Utah.	Idaho, Bridger-Teton: 65 to 72 mountains, 73 to 88 valleys. Northern Utah: 66 to 78 mountains, 79 to 92 valleys. Southern Utah, Arizona Strip: 66 to 78 mountains, 79 to 97 valleys.	Idaho, Bridger-Teton: 20 to 27% mountains, 12 to 20% valleys. Northern Utah: 19 to 26% mountains, 11 to 19% valleys. Southern Utah, Arizona Strip: 20 to 30% mountains, 10 to 18% valleys.	Idaho, Bridger-Teton: Light and variable. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, AZ Strip: Southwest 10 to 15 mph in the west, upslope/upvalley 5 to 10 mph in the east.
Northern Rockies Weak upper level ridge and surface high pressure will build over the geographic area by mid afternoon. Expect light winds, dry conditions and mostly clear skies.	West of divide: 70 to 80. East of divide: 70 to 80. North Dakota: 65 to 75.	West of divide: 25 to 35%. East of divide: 25 to 30%. North Dakota: 30 to 40%.	West of divide: West 5 to 10 mph. East of divide: East 5 to 15 mph. North Dakota: North to northwest 5 to 10 mph.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northern California Mostly sunny.	50s and 60s coast, 70s higher elevations, to near 90 warmest inland valleys.	7 to 15% east of the Cascade-Sierra crest and 12 to 25% elsewhere inland.	Southwest to northwest 7 to 15 mph with gusts to 27 mph coast and east of the crest, otherwise southeast to southwest 5 to 10 mph with gusts to 20 mph.
Southern California Patchy morning low clouds and fog coastal areas, otherwise mostly sunny.	80 to 95 mountains. 90 to 100 valleys. 90 to 100 upper deserts. 105 to 115 lower deserts.	5 to 15%.	Southeast to southwest 5 to 15 mph.
Western Great Basin Mostly sunny.	North valleys: 80 to 92. South valleys: 84 to 104. Mountains: 70 to 86.	North valleys: 7 to 16%. South valleys: 8 to 14%. Mountains: 8 to 20%.	Southwest 5 to 15 mph with localized gusts to 25 mph.
Rocky Mountain Isolated showers and scattered afternoon thunderstorms across Colorado, southeast Wyoming, and Nebraska. Dry elsewhere.	Mid to upper 70s north (60s mountains), with 80s to mid 90s south (70s to lower 80s mountains).	RH below 15%, over the lower elevations of southwest Wyoming, with 15% to 20% across western Colorado.	Variable 8 to 18 mph.
Northwest East of Cascades: Sunny. West of Cascades: Partly to mostly sunny.	East of Cascades: generally 75 to 85. West of Cascades: in the 70s, but 80 to 85 south Oregon.	East of Cascades: 20 to 30%, but 15% in southeast Oregon West of Cascades: 35 to 50% in WA, but 25 to 35% in Oregon.	Generally light wind early, becoming north to northwest 5 to 15 mph.

COMMUNICATIONS

Effective communication is a critical backbone of safe and successful operations.

• Discuss the factors that can affect radio communication at the incident.

- Knowledge of the radio issued to the individuals
- Net control, frequencies
- Line-of-sight restrictions
- Antenna polarization effect (direction of the antenna)
- Minimizing noise interference

• How can you mitigate potential problems?

- Implement effective communication procedures--be brief, clear, concise, and to-the-point.
- Give a good comprehensive briefing (Refer to the Briefing Checklist inside the back cover of the Incident Response Pocket Guide.).
- Confirm that relayed information is received, acknowledged, and understood.
- Keep a continuous information flow (e.g., updates on weather, fire behavior, work progress; changes in strategy/tactics; arrival of additional resources; solicit feedback).
- Establish emergency check-in procedures.
- Provide a minimum of 4 radios per 20-person firefighter crew.

• The Five Communication Responsibilities for All Firefighters

- Brief others
- Debrief your actions
- Communicate hazards to others
- Acknowledge messages
- Ask if you don't know
