

**INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, SEPTEMBER 8, 2005 0530 MDT
NATIONAL PREPAREDNESS LEVEL 4**

CURRENT SITUATION:

Initial attack activity was light nationally with 170 fires reported. One new large fire was reported in the Eastern Great Basin Area. Three large fires were contained, one each in the Northern Rockies, Northern California and Southern Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

A Presidential Disaster Declaration was issued on 8/29 for Hurricane Katrina in Mississippi, Alabama and Louisiana. Two Area Command Teams are assigned (Williams-Rhodes and Ribar). Williams-Rhodes Team is providing Incident Management Team coordination for FEMA Region IV at the Regional Response Coordination Center in Atlanta, GA for Hurricane Katrina Support. Ribar's Team is assigned to the Louisiana Emergency Operations Center in Baton Rouge, LA. The Team is coordinating activities of the Incident Management Teams in FEMA Region VI. Numerous resources are being mobilized as part of the relief effort.

SOUTHERN AREA INCIDENTS / LARGE FIRES:

HURRICANE KATRINA SUPPORT, Federal Emergency Management Agency. Emergency Support Function #4 is staffed at the Regional Response Coordination Centers in Atlanta, GA and Denton, TX. Seven Type 1 Incident Management Teams (Custer, Quesinberry, Pincha-Tulley, Gelobter, Cable, Molumby and Wilcock) are assigned. Custer's Team is managing an evacuation center and base camp, and also supporting the Army's 82nd Airborne mission at Louis Armstrong New Orleans International Airport in Kenner, LA. Quesinberry's Team is managing receiving and distribution operations for FEMA at the Meridian Naval Air Station in MS. Pincha-Tulley's Team is managing a base camp and supporting the receiving and distribution of relief supplies at Stennis Space Center in MS. The Team also assisted in establishing an incident command post for FEMA. Gelobter's Team is managing a base camp at Gautier, MS. Cable's Team is establishing a base camp and providing support for 400 out of state firefighters and search and rescue personnel at Baton Rouge, LA. Molumby's Team is engaged in constructing and managing a base camp in support of the Disaster Mortuary Operation Response Team at St. Gabriel, LA. Wilcock's Team is en route to Selma, AL, and will be assisting with establishing and managing mobile trailer staging areas.

Eight Type 2 Incident Management Teams (Mullenix, Smith, Thomas, Philbin, Stanford, Hildreth, Whalen and Sinclair) are assigned. Mullenix's Team is assigned to managing four relief centers at San Antonio, TX. More than 12,000 evacuees to date have passed through the centers. Smith's Team is managing a base camp at Camp Shelby, MS. Thomas Team is establishing a base camp and supporting Marine operations at the National Construction Battalion Center at Gulfport, MS. Philbin's Team is being assigned to a new evacuee center in Phoenix, AZ. Stanford's Texas State Incident Management Team is assigned at Hammond, LA. Hildreth's North Carolina State Incident Management Team is managing a base camp and staging area at Shriner Brookley Field in Mobile, AL. Two Type 2 Incident Management Teams (Whalen and Sinclair) are in Jackson, MS to support National Forest recovery operations in Mississippi. A

Planning Team (Terry) is supporting relief efforts at the Long Term Recovery Center in Orlando, FL.

Five Logistics Management Teams (Prevey, Humphrey, Lineback, Jenkins and Floyd) have been mobilized; two to Meridian, MS, and one each to Camp Beauregard, LA, Maxwell Air Force Base, AL, and Barksdale Air Force Base, LA. A Florida State Incident Management Team (Jones) has established a Logistical Staging Area at Stennis Space Center in MS. A Florida State All Risk Incident Management Team (Hill) has been assigned at Biloxi, MS. The Team is providing logistical support to Urban Search and Rescue teams. National Park Service All Risk Teams have been assigned to various areas to assist with hurricane recovery. A U.S. Fish and Wildlife Service team is engaged in road clearing, community assistance, and supporting search and rescue work in LaCombe, LA.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

VALLEY ROAD, Sawtooth National Forest. A Type 1 Incident Management Team (Sexton) is assigned. This fire started on private land 15 miles south of Stanley, ID in timber. Residences, commercial property, a work center, wildlife habitat, campgrounds and recreation areas remain threatened. Evacuations remain in effect for residents and campers. Structure protection is in place. Extreme fire behavior with wind and fuel driven runs, crowning and spotting was reported.

FORT HALL COMPLEX, Fort Hall Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Suwyn) is assigned. This complex, comprised of the Rattlesnake and Sawmill fires, is 16 miles south and east of Pocatello, ID in grass, brush and timber. Cultural sites and a municipal watershed remain threatened. Steep, inaccessible terrain continues to hamper containment efforts. Backing fire with low flame lengths and isolated torching was reported.

GREGORY, Boise National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This fire is two miles southwest of Idaho City, ID in timber and logging slash. Creeping and smoldering were observed.

FRANK CHURCH, Payette National Forest. A Type 2 Incident Management Team (Reinarz) is assigned. This lightning caused Wildland Fire Use (WFU) incident, comprised of the Bear Creek, Root Creek, West Fork/Joe, Missouri Ridge and several other fires is 50 miles northeast of McCall, ID in timber. The fire is being managed to accomplish resource objectives. Historic structures, mines and cabins remain potentially threatened. Structure protection remains in place. Remote location and difficult access are impeding operations. Backing, low flame lengths and isolated torching were reported.

BIG DRY CANYON COMPLEX, Caribou-Targhee National Forest. A Fire Use Management Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Big Dry Canyon, Powder and Powder Peak fires, is 10 miles east of Swan Valley, ID. This complex is being managed to accomplish resource objectives. One cabin is threatened. Structure protection is in place. Backing fire with isolated torching was reported.

WILDHORSE, Salmon-Challis National Forest. This fire is 25 miles southwest of Mackay, ID in timber. Historic mining structures are threatened. Steep, rocky terrain, windy conditions and heavy fuel loading continue to hamper containment efforts. Creeping and isolated torching were observed.

MUSTANG, Salmon-Challis National Forest. This lightning-caused Wildland Fire Use (WFU) incident is 17 miles west of Shoup, ID in timber. This incident is being managed to accomplish resource objectives. No further information was received. This will be the last narrative report unless significant activity occurs.

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

HARPERS BEND, Craig Mountain Area Office, Idaho Department of Lands. This fire is two miles northwest of Peck, ID in timber. Residences and other structures remain threatened. Steep terrain and limited access continue to hamper containment efforts. Fire behavior was limited to interior burning.

SIGNAL ROCK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. The fire is 17 miles southwest of Philipsburg, MT in timber and is burning on both the Bitterroot and Beaverhead/Deerlodge National Forests. Active fire behavior with short crown runs and backing fire was reported.

SEEPAY #2, Flathead Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Cowin) is assigned. This fire is two miles southwest of Perma, MT in timber. Cultural sites and residences remain threatened. Steep terrain and heavy fuel loading are hampering containment efforts. Isolated torching and smoldering ground fire were observed.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. A Fire Use Management Team (Cook) is assigned. This lightning caused Wildland Fire Use (WFU) complex, comprised of the El Capitan, Wapiti, Beaverjack, Reynolds and numerous other fires, is 26 miles southwest of Hamilton, MT in timber. This complex, burning on both the Salmon-Challis and Bitterroot National Forests, is being managed to accomplish resource objectives. Historic structures, a work center and a lookout remain threatened. Structure protection remains in place. Trail closures are in effect. Surface fire and isolated torching were observed.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. A commercial property is threatened. Steep terrain and limited access continue to hamper containment efforts. Active fire behavior with crown runs and torching was observed.

ROCKIN, Bitterroot National Forest. This fire is 10 miles northwest of Darby, MT in timber. Steep, rocky terrain, difficult access and narrow canyons are continuing to hamper control efforts. Fire behavior increased due to windy conditions, lower humidity and higher temperatures. Active fire behavior with crown runs and torching was reported.

POWELL WFU COMPLEX, Clearwater National Forest. This previously reported lightning-caused Wildland Fire Use (WFU) incident is located 45 miles southwest of Missoula, MT in grass, brush and timber. This fire is being managed to accomplish resource objectives. Trail closures are in place. Creeping, smoldering, isolated torching and short uphill runs were observed.

RED RIVER COMPLEX, Nez Perce National Forest. This previously reported lightning-caused Wildland Fire Use (WFU) incident is located 23 miles southeast of Elk City, ID in litter and timber. This fire is being managed to accomplish resource objectives. A cabin and historic structures are threatened. Area closure is in effect. Fire activity is increasing with higher temperatures and lower relative humidity.

OUTLOOK:

Red Flag Warning: From noon until 10 pm for parts of central Nevada, due to gusty winds and low relative humidity.

Fire Weather Watch: For northwest, north central and southwest Montana for low relative humidity and gusty afternoon winds.

Weather Discussion: High pressure will continue over most of the West. However, a low pressure system will move into northern California while another stronger system begins to approach the Pacific Northwest late in the day. Along the Gulf Coast, it will be partly cloudy with a slight chance of a thundershower. Highs will be 85 to 95.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Eastern Great Basin Mostly sunny area wide with isolated mountain thunderstorms Utah.	Idaho, Bridger-Teton: 72 to 80 mountains, 82 to 92 valleys. Northern Utah: 70 to 82 mountains, 80 to 92 valleys. Southern Utah, Arizona Strip: 70 to 85 mountains, 85 to 99 valleys, 100 to 106 Lake Mead area.	Idaho, Bridger-Teton: 14 to 22% mountains, 7 to 15% valleys. Northern Utah: 20 to 30% mountains, 10 to 18% valleys. Southern Utah, Arizona Strip: 20 to 30% mountains, 10 to 18% valleys.	Idaho, Bridger-Teton: South to southwest 5 to 15 mph. Northern Utah: South to southwest 5 to 15 mph east, upslope/upvalley 5 to 10 mph east. Southern Utah, AZ Strip: South to southwest 8 to 15 mph.
Northern Rockies Warm, dry and unstable conditions should prevail over the geographic area. Expect mostly clear skies, warm temperatures and gusty afternoon winds especially over northwest Montana. There is a chance of some isolated thunderstorms over southeast Montana in the evening.	West of divide: 80 to 90. East of divide: 85 to 95. North Dakota: 75 to 85.	West of divide: 15 to 20%. East of divide: 15 to 20%. North Dakota: 30 to 45%.	West of divide: West 5 to 10 mph. East of divide: West 5 to 10 mph. North Dakota: South 5 to 10 mph.
Northern California Mostly sunny east and partly cloudy west. A 20% chance of thunderstorms, mainly in the mountains.	50s and 60s coast, 60s and 70s higher elevations, and 80s warmest inland valleys.	20 to 40% inland valleys, slightly lower east of the Cascade-Sierra crest.	Southeast to southwest 7 to 15 mph with gusts to 27 mph coast and east of the crest, otherwise southeast to southwest 5 to 10 mph with gusts to 20 mph.
Southern California Morning low clouds and fog into the coastal valleys, otherwise mostly sunny, except partly cloudy with isolated afternoon showers and thunderstorms over the Sierra.	70 to 85 mountains. 85 to 95 valleys. 85 to 95 upper deserts. 100 to 110 lower deserts.	10 to 20%.	Southeast to southwest 10 to 20 mph.
Western Great Basin Partly to mostly sunny and windy, chance of late afternoon and evening showers and thunderstorms across western Nevada.	North valleys: 81 to 94 South valleys: 86 to 105 Mountains: 69 to 86	North valleys: 7 to 17% South valleys: 5 to 15% Mountains: 8 to 25%	South to southwest at 10 to 25 mph with gusts to 30 to 40 mph.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Rocky Mountain Isolated thunderstorms in portions of Colorado, South Dakota, and Nebraska. Dry elsewhere.	Upper 70s to mid 80s (65 to 75 mountains).	RH from 10% to 18% in the lower elevations of southwest/central/northeast Wyoming and northwest Colorado.	Variable 8 to 18 mph.
Northwest Area Mostly sunny, becoming partly cloudy. Partly cloudy over southern Oregon with isolated afternoon thunderstorms over Cascades and Klamath basin.	East of Cascades: mostly in the 80s. West of Cascades: 70s north. 80s south.	East of Cascades: 15 to 25%, but near 10% southeast OR. West of Cascades: 35 to 50% north, and 25 to 35% south.	Generally north to northwest 5 to 10 mph. In afternoon, wind becoming west to southwest 10 to 15 mph, but stronger by evening over Cascades and east slopes.

ESCAPE ROUTES

An escape route is a preplanned and understood route to reach a safety zone.

- What are the primary concerns in choosing an escape route?
 - Select the closest, least obstructed route.
 - Plan for more than one escape route.
 - Avoid an uphill escape.
 - Scout and clearly mark the route for visibility (aids during smoky situations or night operational periods).
- Determine escape time--consider slowest person, fatigue, and temperature factors.
- Continuously reassess the situation with regard to work progress and additional resource arrivals.
- Assure all line personnel are familiar with escape routes.
