

**INCIDENT MANAGEMENT SITUATION REPORT
SATURDAY, SEPTEMBER 10, 2005 0800 MDT
NATIONAL PREPAREDNESS LEVEL 4**

CURRENT SITUATION:

Initial attack activity was light nationally with 154 fires reported. One new large fire was reported in the Eastern Great Basin Area. Two large fires were contained, one each in the Northwest and Eastern Great Basin Areas. Very high to extreme fire indices were reported in Arkansas, Arizona, California, Colorado, Idaho, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

A Presidential Disaster Declaration was issued on 8/29 for Hurricane Katrina in Mississippi, Alabama and Louisiana. Two Area Command Teams are assigned (Williams-Rhodes and Ribar). Williams-Rhodes Team is providing Incident Management Team coordination for FEMA Region IV at the Regional Response Coordination Center in Atlanta, GA for Hurricane Katrina Support. Ribar's Team is assigned to the Louisiana Emergency Operations Center in Baton Rouge, LA. The Team is coordinating activities of the Incident Management Teams in FEMA Region VI. Numerous resources are being mobilized as part of the relief effort.

SOUTHERN AREA INCIDENTS / LARGE FIRES:

HURRICANE KATRINA SUPPORT, Federal Emergency Management Agency. Emergency Support Function #4 is staffed at the Regional Response Coordination Centers in Atlanta, GA and Denton, TX. Seven Type 1 Incident Management Teams (Custer, Quesinberry, Pincha-Tulley, Gelobter, Cable, Molumby and Wilcock) are assigned. An additional Type 1 Incident Management Team (Anderson) has been ordered. Custer's Team is managing an evacuation center and base camp, providing services to military, state, local and federal agencies at Louis Armstrong New Orleans International Airport in Kenner, LA. Quesinberry's Team is managing receiving and distribution operations for FEMA at the Meridian Naval Air Station in MS. Pincha-Tulley's Team is managing several camps and supporting the receiving and distribution of relief supplies at Stennis Space Center in MS. The Team also assisted in establishing an incident command post for FEMA. Gelobter's Team is managing a base camp at Gautier, MS. Cable's Team is managing a base camp and providing support to out of state and foreign firefighters and search and rescue personnel at Baton Rouge, LA. A transfer of command from Cable's Team to a Type 2 Incident Management Team (Paul) will occur today. Molumby's Team is engaged in constructing and managing a base camp in support of the Disaster Mortuary Operation Response Team at St. Gabriel, LA. Wilcock's Team has established an ICP in Selma, AL and is managing FEMA mobile trailer staging areas.

Nine Type 2 Incident Management Teams (Mullenix, Smith, Thomas, Philbin, Stanford, Hildreth, Whalen, Sinclair and Paul) are assigned. Mullenix's Team is managing four relief centers at San Antonio, TX. More than 5,500 evacuees remain on the scene at the evacuation centers. Smith's Team is managing a base camp at Camp Shelby, MS. Thomas Team is managing a base camp and supporting military and civilian operations at the National Construction Battalion Center at Gulfport, MS. Philbin's Team is being assigned to a new evacuee center in Phoenix, AZ. Stanford's Texas State Incident Management Team is managing a base camp at Hammond and Reserve, LA. Hildreth's North Carolina State Incident Management Team is managing a mobile

base camp and staging area in Mobile, AL. Two Type 2 Incident Management Teams (Whalen and Sinclair) are in Jackson, MS to clear roadways and support National Forest recovery operations in Mississippi. A Planning Team (Terry) is supporting relief efforts at the Long Term Recovery Center in Orlando, FL.

Five Logistics Management Teams (Prevey, Humphrey, Lineback, Jenkins and Floyd) have been mobilized; two to Meridian, MS, and one each to Camp Beauregard, LA, Maxwell Air Force Base, AL, and Barksdale Air Force Base, LA. A Florida State Incident Management Team (Jones) has established a Logistical Staging Area at Stennis Space Center in MS. National Park Service All Risk Teams have been assigned to various areas to assist with hurricane recovery. A U.S. Fish and Wildlife Service team is engaged in road clearing, community assistance, and supporting search and rescue work in LaCombe, LA.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

VALLEY ROAD, Sawtooth National Forest. A Type 1 Incident Management Team (Sexton) is assigned. This fire started on private land seven miles south and east of Stanley, ID in timber. Residences, commercial property, a work center, wildlife habitat, campgrounds and recreation areas remain threatened. Area closures and evacuations remain in effect for residents and campers. Structure protection remains in place and a road closure is in effect. Extreme wind driven fire behavior with running, crowning and long range spotting was observed.

FORT HALL COMPLEX, Fort Hall Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Suwyn) is assigned. This complex, comprised of the Rattlesnake and Sawmill fires, is 16 miles south and east of Pocatello, ID in grass, brush and timber. Active fire behavior with upslope runs and torching was reported.

FRANK CHURCH, Payette National Forest. A Fire Use Management Team (Reinarz) is assigned. This lightning caused Wildland Fire Use (WFU) incident, comprised of the Bear Creek, Root Creek, West Fork/Joe, Missouri Ridge and several other fires is 50 miles northeast of McCall, ID in timber. The fire is being managed to accomplish resource objectives. Historic structures, mines and cabins are potentially threatened. Structure protection remains in place. Remote location and difficult access continue to impede operations. Minimal fire activity with creeping, smoldering and isolated torching was observed.

BIG DRY CANYON COMPLEX, Caribou-Targhee National Forest. A Fire Use Management Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Big Dry Canyon, Powder and Powder Peak fires, is 10 miles east of Swan Valley, ID. This complex is being managed to accomplish resource objectives. One cabin is threatened and structure protection is in place. Increased fire behavior due to windy conditions produced torching, running and short range spotting.

NWS Northwest State, Utah State Division of Forestry, Fire and Lands

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

HARPERS BEND, Craig Mountain Area Office, Idaho Department of Lands. This fire is two miles northwest of Peck, ID in timber. Residences and other structures remain threatened. Steep terrain continues to hamper containment efforts. Active fire behavior in the higher elevations was reported. Reduction in acreage is due to more accurate mapping.

SIGNAL ROCK, Bitterroot National Forest. A Type 2 Incident Management Team (Carlson) is assigned. The fire is 17 miles southwest of Philipsburg, MT in timber and is burning on both the Bitterroot and Beaverhead/Deerlodge National Forests. Wildlife habitat is threatened. Active fire behavior with torching was observed.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. A Fire Use Management Team (Cook) is assigned. This lightning caused Wildland Fire Use (WFU) complex, comprised of the El Capitan, Wapiti, Beaverjack, Reynolds and numerous other fires, is 26 miles southwest of Hamilton, MT in timber. This complex, burning on both the Salmon-Challis and Bitterroot National Forests, is being managed to accomplish resource objectives. Historic structures, a work center and a lookout remain threatened. Structure protection and trail closures remain in place. Smoldering, creeping and infrequent torching were reported.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. Residences and other structures remain threatened. Steep terrain and limited access continue to hamper containment efforts. Due to scattered showers, fire behavior was minimal with creeping and smoldering reported.

SEEPAY #2, Flathead Agency, Bureau of Indian Affairs. This fire is two miles southwest of Perma, MT in timber. Minimal fire behavior was observed.

ROCKIN, Bitterroot National Forest. This fire is 10 miles northwest of Darby, MT in timber. Heavy fuels, steep terrain, and difficult access continue to hamper containment efforts. Extreme fire behavior with crown runs were reported.

POWELL WFU COMPLEX, Clearwater National Forest. This lightning-caused Wildland Fire Use (WFU) incident is located 45 miles southwest of Missoula, MT in grass, brush and timber. The fires are being managed to accomplish resource objectives. Trail closures are in effect. Creeping, smoldering, torching and short uphill runs were observed.

NORTHWEST AREA INCIDENTS / LARGE FIRES:

SQUAW CREEK, Northeast Region, Department of Natural Resources. A Washington Interagency Incident Management Team (Reed/Holloway) is assigned. This fire started on private land three miles southwest of Methow, WA in timber. Steep, inaccessible terrain is hampering containment efforts. Residences, other structures, wildlife habitat and orchards are threatened. Decreased fire behavior due to higher humidity was reported.

GRANITE COMPLEX, Wallowa-Whitman National Forest. This lightning caused Wildland Fire Use (WFU) incident is 30 miles east of Enterprise, OR in timber and grass. This complex is being managed to accomplish resource objectives. No new information was reported. This will be the last narrative report unless significant activity occurs.

SOUTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

VOLCAN, California Department of Forestry and Fire Protection, Monte Vista Unit. A CDF Type 1 Incident Command Team (Kerrigan) is assigned. This fire is two miles north of Julian, CA in grass and timber understory. Road closures remain in effect. A high number of snags continue to hamper containment efforts. Minimal fire behavior was reported.

OUTLOOK:

Fire Weather Watch: In southern Nevada from noon to 8 pm for gusty winds and low relative humidity.

Weather Discussion: A large low pressure trough will cover the West with cool, unsettled weather in the Northwest, Northern Rockies and the northern Great Basin. Gusty winds will extend from southern Nevada to Wyoming. Along the Gulf Coast, it will be partly cloudy with highs in the 90s.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Eastern Great Basin Idaho, Bridger-Teton: Much colder. Scattered showers and thunderstorms. Snow showers mountains. Northern Utah: Mostly cloudy with scattered showers and thunderstorms. Turning cooler. Southern Utah, Arizona Strip: Partly cloudy with isolated to widely scattered showers and thunderstorms. Windy.	Idaho, Bridger-Teton: 45 to 60 mountains, 60 to 67 valleys. Northern Utah: 58 to 65 mountains, 65 to 80 valleys. Southern Utah, Arizona Strip: 65 to 80 mountains, 80 to 92 valleys, 92 to 100 Lake Mead area.	Idaho, Bridger-Teton: 30 to 60% mountains, 20 to 35% valleys. Northern Utah: 20 to 35% mountains, 17 to 25% valleys. Southern Utah, Arizona Strip: 25 to 35% mountains, 12 to 25% valleys.	Idaho, Bridger-Teton: Northwest to west 10 to 15 mph. Southwest 20 to 30 mph and gusty Wyoming mountains. Northern Utah: Northwest 10 to 15 mph west of Wasatch; southwest 15 to 30 mph east of Wasatch. Southern Utah, Arizona Strip: South to southwest 20 to 35 mph.
Northern Rockies West of divide: Much cooler with widespread wetting moisture. Diminishing winds. East of divide: Turning much cooler with scattered showers. Diminishing winds.	West of divide: 52 to 62. East of divide: 62 to 77. North Dakota: 72 to 83.	West of divide: 39 to 55%. East of divide: 29 to 47%. North Dakota: 32 to 55%.	West of divide: Northeast 10 to 20 mph. East of divide: Northeast 10 to 20 mph. North Dakota: Northwest 15 to 25 mph.
Northern California Variable cloudiness. Chance of showers in the northern mountains. Areas of fog and low clouds with a bit of drizzle possible along the coast.	Upper 50s through the 70s with lower and mid 80s warmest inland valley areas.	25 to 45%.	Afternoon wind westerly 5 to 15 mph and gusty, with stronger gusts of 20 to 32 mph, especially in northeast California.
Southern California Morning low clouds and fog into the coastal valleys and some coastal mountain foothills, otherwise mostly sunny, except partly cloudy with isolated afternoon showers and thunderstorms over the Sierra.	65 to 80 mountains. 75 to 85 valleys. 80 to 90 upper deserts. 90 to 102 lower deserts.	20 to 35%.	Southwest to northwest 10 to 20 mph.
Western Great Basin Windy. Cloudy with isolated showers and thunderstorms in the north. Partly cloudy south.	North valleys: 68 to 80. South valleys: 75 to 89. Mountains: 51 to 78.	North valleys: 16 to 26%. South valleys: 10 to 15%. Mountains: 15 to 30%.	Southwest to northwest at 10 to 20 mph with gusts 30 to 40 mph.

DOWNSHILL FIRELINE CONSTRUCTION CHECKLIST

Downhill fireline construction is hazardous in steep terrain, fast-burning fuels, or rapidly changing weather. Downhill fireline construction should not be attempted unless there is no tactical alternative. When building downhill fireline, the following is required:

- Crew supervisor(s) and fireline overhead will discuss assignments prior to committing crew(s). Responsible overhead individual (TFLD or ICT4 qualified or better) will stay with job until completed.
- Decision will be made after proposed fireline has been scouted by supervisor(s) of involved crew(s).
- LCES will be coordinated for all personnel involved.
 - Crew supervisor(s) is in direct contact with lookout who can see the fire.
 - Communication is established between all crews.
 - Ensure rapid access to safety zone(s) in case fire crosses below crew(s).
- Direct attack will be used whenever possible; if not possible, the fireline should be contested between anchor points before being fired out.
- Fireline will not lie in or adjacent to a chute or chimney.
- Starting point will be anchored for crew(s) building fireline down from the top.
- Bottom of the fire will be monitored; if the potential exists for the fire to spread, action will be taken to secure the fire edge.
