

INCIDENT MANAGEMENT SITUATION REPORT
SATURDAY, SEPTEMBER 17, 2005 0800 MDT
NATIONAL PREPAREDNESS LEVEL 4

CURRENT SITUATION:

Initial attack activity was light nationally with 134 fires reported. Three new large fires were reported, one each in the Northern California, Eastern Great Basin and Southern Areas. Two large fires were contained in the Southern Area. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah and Wyoming.

A Presidential Disaster Declaration was issued on 8/29 for Hurricane Katrina in Mississippi, Alabama and Louisiana. Three Area Command Teams are assigned (Williams-Rhodes, Ribar and Zimmerman). Williams-Rhodes Team is providing Incident Management Team coordination for FEMA Region IV at the Regional Response Coordination Center in Atlanta, GA. Ribar's Team is assigned to the Louisiana Emergency Operations Center in Baton Rouge, LA. The Team is coordinating activities of the Incident Management Teams in FEMA Region VI. A transfer of command from Ribar's Team to Zimmerman's Area Command Team will occur tomorrow.

SOUTHERN AREA INCIDENTS / LARGE FIRES:

HURRICANE KATRINA SUPPORT, Federal Emergency Management Agency. Emergency Support Function 4 are staffed at the Regional Response Coordination Center in Atlanta, GA, and state Emergency Operations Centers in Raleigh, NC, Montgomery, AL, Jackson, MS and Baton Rouge, LA. Six Type 1 Incident Management Teams (Pincha-Tulley, Gelobter, Cable, Wilcock, Molumby and Anderson) are assigned. Pincha-Tulley's Team is operating a mobilization center, base camp, and is supporting the receiving and distribution of relief supplies to six counties from Stennis Space Center in MS. Gelobter's Team is providing logistical support to FEMA Branch II for base camps at Gautier, MS, and Mobile, AL. Cable's Team is supporting emergency personnel at Jackson Square, New Orleans Convention Center and several satellite camps in and around New Orleans and southern Louisiana. Wilcock's Team has established an Incident Command Post in Selma, AL and is managing FEMA mobile trailer staging areas and supporting the allocation of trailers and mobile homes to stricken areas. Molumby's Team is at Saints Field in New Orleans operating a base camp in support of 1,700 emergency response and military personnel. Anderson's Team is assigned to New Orleans, where they are supporting the New Orleans Fire Department.

Eleven Type 2 Incident Management Teams (Jenkins, Mullenix, Smith, Thomas, Philbin, Stanford, Paul, Whalen, Sinclear, Koehler and Furlong/Gormley) are assigned. Jenkins Team is managing an evacuation center and base camp, providing services to military, state, local and federal agencies at Louis Armstrong New Orleans International Airport in Kenner, LA. Mullenix's Team is assisting with base camp operations and long term support at several facilities housing 5,000 people in San Antonio, TX. Smith's Team is managing a base camp and supporting receiving and distribution operations at Camp Shelby, MS. Thomas Team is managing a base camp and supporting the military and civilian first responders at the Naval Construction Battalion Center at Gulfport, MS. Philbin's Team is managing an evacuee center in Phoenix, AZ. Registered evacuees housed at the center numbers 1,300. Stanford's Texas State Incident Management Team is jointly managing the Hammond Receiving and Distribution Center and the Harahan

Regional Staging Area with the Louisiana Department of Agriculture and Forestry in Hammond and Reserve, LA. The Team is distributing relief supplies throughout eastern Louisiana. Paul's Team is managing the Louisiana Interagency Emergency Support Base camp and St. Gabriel Mortuary Support Camp at St. Gabriel and Baton Rouge, LA. Two Type 2 Incident Management Teams (Whalen and Sinclear) are clearing roadways and supporting National Forest recovery operations in Mississippi. A Type 2 Incident Management Team (Furlong/Gormley) is assigned to Camp Beauregard, LA. Koehler's Florida State Incident Management Team is managing a logistical staging area at Stennis Space Center. The Team is training state personnel to take over management of the staging area.

Four Logistics Management Teams (Prevey, Floyd, Hayes and Easterling) are assigned at the following locations: Prevey's Team, Maxwell Air Force Base, AL; Floyd's Team, Bossier City, LA; Hayes Team, Texarkana, AR and Easterling's Team, Baton Rouge, LA. The Teams are operating mobilization centers and trailer staging areas. Three National Park Service All Risk Teams have been assigned to various areas to assist with hurricane recovery. A U.S. Fish and Wildlife Service team is engaged in road clearing, community assistance, and supporting search and rescue work in LaCombe, LA.

HURRICANE OPHELIA SUPPORT, North Carolina State. A Type 2 Incident Management Team (Houseman) is pre-positioned at Kinston, NC. The Team is assisting local Emergency Operations Centers and counties with requested resources.

G3-05-WF, Sabine National Wildlife Refuge. This fire is 24 miles east of Hackberry, LA in tall grass and peat. Fire behavior was minimal.

DBF - Daniel Boone National Forest

NORTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

CLOVER, Sonoma-Lake Napa Unit, California Department of Forestry and Fire Protection. This fire is three miles east of Upper Lake, CA in oak woodland. Residences and a watershed are threatened. Northwest winds produced active fire behavior with spotting and a rapid rate of spread.

HIGHWAY, Mendocino Unit, California Department of Forestry and Fire Protection. This fire is eight miles south of Laytonville, CA in oak litter and timber. The fire received some light precipitation. Active burning in heavy fuels under the tree canopy was reported.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

ROUND BUTTE, Idaho Falls District, Bureau of land Management. This fire started on private land 25 miles west of Blackfoot, ID in cheatgrass and sage. Residences, other structures, historic sites and wildlife habitat are threatened. Extreme fire behavior was observed.

VALLEY ROAD, Sawtooth National Forest. This fire started on private land seven miles south and east of Stanley, ID in timber. Recreation areas and wildlife habitat remain threatened. Steep, inaccessible terrain continues to hamper containment efforts. Minimal fire behavior with smoldering and creeping were reported. Pockets of heavy fuels continue to burn out.

OUTLOOK:

Weather Discussion: An upper level low pressure system will continue to move over Idaho and into Montana today with showers and thunderstorms extending from the Northern Rockies, across the northern portion of the Great Basin, and into eastern Oregon. Dry conditions and gusty winds will be a concern over the southern portion of the Great Basin, southern Wyoming, and the four-corners region. Along the Gulf Coast, scattered thunderstorms are expected over Louisiana and Mississippi with high temperatures in the 90s.

| Geographic Area Weather | High Temperatures | Minimum Relative Humidity | Wind |
|--|--|--|---|
| Northern Rockies West half: Much cooler with widespread wetting moisture diminishing. East half: Turning much cooler with scattered showers. | West of divide: 50s. East of divide: 60s. North Dakota: 60s. | West of divide: 40 to 60%. East of divide: 30 to 45%. North Dakota: 40 to 60%. | West of divide: Northwest 5 to 15 mph. East of divide: Northeast 5 to 15 mph. North Dakota: Northeast 10 to 20 mph with higher gusts. |
| Southern California Morning low clouds and fog to the low coastal mountain slopes, otherwise mostly sunny. | 65 to 80 mountains. 75 to 85 valleys. 80 to 90 upper deserts. 90 to 100 lower deserts. | 15 to 30%. | Southwest to northwest 5 to 15 mph. |
| Eastern Great Basin Idaho, Bridger-Teton: Mostly cloudy with scattered rain showers in the northern Idaho mountains. Northern Utah: Partly cloudy. Southern Utah, Arizona strip: Mostly sunny. | Idaho, Bridger-Teton: 45 to 54 mountains, 55 to 69 valleys. Northern Utah: 59 to 71 mountains, 71 to 78 valleys. Southern Utah, Arizona strip: 60 to 80 mountains, 80 to 94 valleys. | Idaho, Bridger-Teton: 45 to 65% mountains, 20 to 40% valleys. Northern Utah: 20 to 30% mountains, 11 to 21% valleys. Southern Utah, Arizona strip: 15 to 23% mountains, 10 to 16% valleys. | Idaho, Bridger-Teton: West/northwest 10 to 15 mph. Northern Utah: Northwest 15 mph west. Upslope/upvalley 4 to 8 mph east. Southern Utah, Arizona strip: South/southwest 15 mph. |
| Western Great Basin Increasing clouds in the north with a chance of afternoon thunderstorms and evening showers near the Nevada/Idaho border. Otherwise, mostly sunny skies. | North valleys: 70 to 82. South valleys: 70 to 97. Mountains: 54 to 70. | North valleys: 12 to 24%. South valleys: 6 to 16%. Mountains: 16 to 35%. | Southwest to west at 8 to 15 mph with afternoon gusts of 25 to 35 mph. |

DOZER/TRACTOR PLOW OPERATIONS

Dozers/tractor plows provide suppression and support capability for fire operations. When working on or around dozers on the fireline, it is important to respect the following guidelines:

- Load/unload equipment from the transport in a safe manner on a level, stable surface.
- Park transport in an area free of fuel. Clear an area if needed to protect parked equipment.
- Do not sit or bed down near equipment. Walk around the equipment before starting or moving it.
- Lower the dozer blade and/or fire plow to the ground when the equipment is idling or stopped.
- When working a dozer or tractor plow, stay at least 100 feet in front or 50 feet behind the equipment.
- Allow no one but the operator to ride on the equipment.
- Never get on or off equipment while it is moving.
- Provide front and rear lights for equipment working at night or in heavy smoke.
- Provide lights and fluorescent vests to personnel working with dozer/tractor plow units.
- Use hand signals for direction and safety. (See Fireline Handbook, Appendix A, for hand signals.)
- Do not use a dozer or tractor plow without a canopy or brush guard and radio communications.
- Operators will wear required PPE and carry a fire shelter.
- Be aware of different fuel types, rates of spread, and flammability.
- Watch for wetlands, steep slopes, rocks, ditches, and other obstacles that might stop the equipment.
- Do not get too far ahead of a firing crew during firing operations.
- Anchor the line to a secure firebreak and create a black line (burn out) until the fire is completely enclosed.
- Tractor plow operators should wear headgear protection for head, face, eyes, and ears while also providing radio reception and ventilation capabilities.
- Tractor plow crews should consist of a minimum of two people.
- When the dozer or tractor plow is equipped with a hand-clutch lever, always take equipment out of gear when mounting and dismounting.
