

**INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, AUGUST 4, 2006 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was light nationally with 104 new fires reported. Five new large fires (*) were reported, two in the Eastern Great Basin Area, and one each in the Northwest, Northern Rockies and Southern Areas. Fourteen large fires were contained, seven in the Southern Area, two each in the Western Great Basin, Eastern Great Basin and Rocky Mountain Areas, and one in the Northern Rockies Area. Very high to extreme fire indices were reported in Arkansas, Arizona, California, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Washington and Wyoming.

Two MAFFS C-130 aircraft and support personnel from the 153rd Airlift Wing, Cheyenne, Wyoming are deployed to Klamath Falls, Oregon. Lt. Col. Michael Exstrom is the Mission Commander.

NORTHWEST AREA INCIDENTS/LARGE FIRES:

An Area Command Team (Loach) is assigned to manage the Tripod Complex, Flick, and Tin Pan fires.

TRIPOD COMPLEX, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Custer) and a Washington Interagency Type 2 Incident Management Team (LaFave) are assigned. This complex, comprised of the Spur Peak and Tripod fires, is seven miles northeast of Winthrop, WA in beetle-killed lodgepole pine and heavy ground fuels. Backing fire, uphill runs, single and group tree torching, and short range spotting were observed.

FLICK CREEK, North Cascades National Park. A Washington Interagency Type 2 Incident Management Team (Jennings) is assigned. The Team is also managing the Tin Pan Wildland Fire Use incident. This fire is three miles southeast of Stehekin, WA in ponderosa pine, Douglas fir and grass. Minimal fire activity was reported.

BLACK CRATER, Deschutes National Forest. A Type 1 Incident Management Team (Quesinberry) is assigned. This fire is seven miles southwest of Sisters, OR in white fir and lodgepole pine. Road closures remain in effect. Increased fire activity with individual tree torching and short runs was observed.

FOSTER GULCH COMPLEX, Wallowa-Whitman National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This Complex, consisting of the McClean and Foster Gulch fires, started on Bureau of Land Management land six miles southeast of Halfway, OR in grass, brush and mixed conifers. Power transmission lines and cultural resources remain threatened. Moderate fire behavior with isolated torching was observed.

MAXWELL, Ochoco National Forest. A Washington Interagency Type 2 Incident Management Team (Reed) is assigned. This fire is six miles south of Mitchell, OR in heavy dead and down timber. A residence, communications equipment and the water pipeline for the city of Mitchell

remain threatened. Steep terrain and limited access are hampering containment efforts. Minimal fire activity was reported.

BEAR GULCH II, Olympic National Forest. This fire is 15 miles northwest of Hoodspur, WA in timber. Rolling rocks and burning debris are posing hazards to Forest Road 2400 and necessitating the closure to a portion of Olympic National Park. Steep rocky terrain is hampering containment efforts.

TIN PAN, Okanogan-Wenatchee National Forest. A Washington Interagency Type 2 Incident Management Team (Jennings) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning seven miles west of Lucerne, WA in timber. Hiking trails within the fire area remain closed. Backing fire, single tree torching, spotting, and short uphill runs were observed.

BYBEE, Crater Lake National Park. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 29 miles northwest of Chiloquin, OR in timber. The Pacific Crest Trail is closed within the fire area. Isolated torching was observed. This will be the last narrative report unless significant activity occurs.

NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

ORLEANS COMPLEX, Six Rivers National Forest. A Type 2 Incident Management Team (Blume) is assigned. The Orleans complex, comprised of the Somes, and Buck fires, is four miles southwest of Orleans, CA in timber and dead and down fuels. Numerous structures, significant cultural and spiritual sites, and the municipal watershed for the community of Orleans remain threatened. Limited road access, steep terrain and snags are hindering containment efforts. Short uphill runs and spotting were observed.

BAR COMPLEX, Shasta-Trinity National Forest. A Type 1 Incident Management Team (Pincha-Tulley) is assigned. This complex, comprised of four fires, is 40 miles northwest of Redding, CA in timber and grass. Residences, outbuildings, power lines, municipal watersheds and wildlife habitat remain threatened. Difficult access is hampering containment efforts. Tree torching and uphill runs were observed.

UNCLES COMPLEX, Klamath National Forest. A Type 2 Incident Management Team (Sinclair) is assigned. This complex, comprised of the Uncles, Rush, and Hancock fires, is 18 miles northeast

of Orleans, CA in brush and old growth forest. Residences and outbuildings remain threatened, and structure protection is in place. Steep terrain, difficult access and poor visibility due to an inversion are hampering containment efforts. Short runs and isolated torching were observed.

HUNTER, Mendocino National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This fire is 19 miles southeast of Covelo, CA in timber. Structures and wildlife habitat remain threatened. Short range spotting and isolated torching was observed.

KINGSLEY COMPLEX, Mendocino National Forest. A Type 1 Incident Management Team (Opliger) is assigned. This complex is 38 miles southwest of Red Bluff, CA in timber. The Team is also managing a portion of the Hunter fire. Numerous summer cabins and residences remain threatened, and evacuation orders are in place. Steep terrain and difficult access continue to impede containment efforts. Forest Road 7 is closed at Alder Junction. Isolated torching and backing fire was observed today.

HAPPY CAMP, Klamath National Forest. A Type 2 Incident Management Team (Bradley) is assigned. This complex, comprised of 11 lightning-caused fires, is near Happy Camp, CA in grass and timber. The Titus and Goff fires remain active. This Complex is in a roadless area and limited access is hampering containment efforts. Marble Mountain Wilderness is under a closure order. Backing fire and individual tree torching was reported.

PANTHER, Six Rivers National Forest. This fire is 14 miles west of Big Bar, CA in timber, brush, and some areas of heavy dead and down. A watershed and historic cabin are threatened. Remote access and steep slopes are hampering containment efforts. Moderate fire activity was reported.

NORTHERN ROCKIES AREA INCIDENTS/LARGE FIRES:

BIG CREEK, Central Land Office, Montana Department of Natural Resources and Conservation. A Type 2 Incident Management Team (Reid) is assigned. This fire started on private land 29 miles southwest of Livingston, MT in timber, grass, and sagebrush. Numerous residences remain threatened. Creeping and smoldering in heavy fuels with individual and group tree torching was reported.

RED EAGLE, Glacier National Park. A Type 1 Incident Management Team (Stanich) is assigned. This fire is one mile southwest of St. Mary, MT in spruce and fir. Structure protection for Glacier

National Park Visitor Center, park residences and the community of St. Mary is in place. Torching, spotting and short runs in heavy fuels were reported.

GASH CREEK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. This fire is six miles south of Victor, MT in timber. Residences remain threatened. A voluntary evacuation order has been lifted. Rough terrain and difficult access continue to hamper containment efforts. Backing fire, torching and spotting were observed.

BEARMOUTH, Department of Natural Resources & Conservation, Southwestern Land Office. A Type 2 Incident Management Team (Grant) is assigned. This fire is 10 miles west of Drummond, MT in grass and timber. One residence remains threatened. Active torching and interior burning was observed.

SOUTH PINE, Gallatin National Forest. A transfer of command from a Type 2 Incident Management Team (Hall) back to the local unit will occur tomorrow. This fire is 13 miles south of Livingston, MT in timber. Extremely steep, rugged terrain continues to impede containment efforts. Minimal fire activity was reported.

LITTLE SPAR, Kootenai National Forest. A Type 2 Incident Management Team (McNitt) is assigned. This fire is twenty miles south of Troy, MT. in timber and brush. Ross Creek Cedars Natural Area is threatened. Steep terrain and difficult access are hindering containment efforts. Single tree torching, creeping and flare-ups were observed.

BRUSHY, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 25 miles southwest of Hamilton, MT in timber. Minimal activity with single tree torching was reported.

EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

4 WHEEL DRIVE, Twin Falls District. This fire is 15 miles northwest of Paul ID in grass and sagebrush. Extreme fire behavior due to high winds was reported.

POTATO, Salmon-Challis National Forest. A Type 2 Incident Management Team (Lunde) is assigned. This fire is seven miles north of Stanley, ID in grass and timber. Structures, fisheries, power lines and recreation sites remain threatened. Steep terrain is hampering containment efforts. Spotting up to one quarter of a mile was reported.

BURNT, Boise National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 24 miles northeast of Cascade, ID in subalpine fire and lodgepole pine. Wildlife and fisheries habitat, and recreational facilities remain threatened. Steep terrain and heavy dead and down lodgepole pine is impeding containment efforts. Isolated single tree and group torching was reported.

LICK CREEK, Payette National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 21 miles northwest of McCall, ID in timber. Minimal fire activity was observed.

DUNCE, Payette National Forest. A Fire Use Management Team (Bonefeld) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The Team is also managing the Lick Creek WFU. The fire is burning 31 miles east of Edwardsburg, ID in cheatgrass and timber. Structure protection measures remain in place in Cabin Creek drainage. Minimal fire activity was observed.

SOUTHERN AREA INCIDENTS/LARGE FIRES:

SHEPARDS FOLD, Osage Agency, Bureau of Indian Affairs. Several residences, Indian Trust Lands, grazing allotments and commercial property are threatened. Rough terrain is impeding containment efforts. Running, torching and spotting were observed.

WESLEY, Talihina Agency, Bureau of Indian Affairs. This fire is eight miles northeast of Stringtown, OK in timber. Several residences and structures remain threatened. County road closures remain in effect due to downed power lines. Rough terrain is hampering containment efforts. Crowning, torching and spotting were observed.

PEACOCK COMPLEX, Texas Forest Service. This complex started on private land 12 miles northwest of Sanderson, TX in brush and mesquite. Burn out operations are ongoing. Two fires within the complex are in monitor status.

MCINTOSH ONE, Oklahoma Division of Forestry. This fire is five miles northwest of Warner, OK in grass and timber. No further information was received.

DOSS CUTTOFF, Oklahoma Division of Forestry. This fire is 20 miles north of Antlers, OK in heavy logging slash. No further information was received.

OUTLOOK:

Fire Weather Watches: In effect Friday afternoon and evening across northwest and west central Montana for gusty winds and low humidities. Across south central Montana for very low humidities and increased thunderstorm activity, and during the afternoon and evening for south central North Dakota for low humidities and breezy south winds. For central South Dakota for winds and low relative humidity.

Weather Discussion: A low pressure system will set up off the California coast with another weather disturbance moving across southwestern Canada. Thunderstorms will develop across much of the West with isolated dry storms extending from California to Montana/Wyoming. Windy and dry conditions will develop over Montana and the northern Plains.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northwest Area Mostly sunny with a slight chance of thunderstorms in southeast Oregon.	West of Cascades: 70s and 80, 60s in the higher mountains. East of Cascades: 80s to low 90s.	West of Cascades: Generally 40 to 50 except 20 to 30 in the extreme south. East of Cascades: mostly 15 to 25, except 10 to 15 in deserts.	Generally northwest 5 to 15 mph except to 20 to 25 mph south Oregon coast. Breezy west winds in northeast Washington.
Northern California Area Mostly sunny. A few afternoon cumulus clouds over the mountains with a less than 10% chance of isolated thunderstorms developing.	Mostly 80s and 90s.	Driest inland areas 10 to 22.	North to southeast in the morning less than 10 mph, afternoon wind quite variable 5 to 15 mph, although often from the west or southerly.
Western Great Basin Area Becoming partly sunny with isolated thunderstorms, drier storms could occur from northeast Nevada west southwestward to west central Nevada. Wetter storms could occur over southeastern Nevada.	Northern. valleys: 83 to 97 Southern valleys: 87 to 106. Northern mountains: 73 to 89. Southern mountains: 77 to 82.	Northern valleys: 8 to 22. Southern valleys: 11 to 25. Northern mountains: 18 to 26. Southern mountains: 15 to 20.	South to west at 5 to 15 mph with localized gusts to 25 mph.
Northern Rockies Area A fairly strong upper trough will push across northern Idaho and Montana producing gusty west winds across the western half of the Area. This system will also draw some moisture northward for widely scattered thunderstorms over southwest and south central Montana. Upper ridge to the east will keep areas east of the Divide hot. Moderate winds and a few thunderstorms are expected over eastern North Dakota.	West of Divide to 82 to 88 East of Divide - 85 to 95 North Dakota – 86 to 96.	West of Divide: 14 to 22. East of Divide: 14 to 22. North Dakota: 16 to 35.	West of Divide: West 15 to 30 mph . East of Divide: West 10 to 20 mph. North Dakota: South 10 to 20 mph.

Rocky Mountain Area Scattered wet thunderstorms in southern/central Colorado, with isolated dry thunderstorms in portions of western Wyoming, northwest Colorado. Isolated mixed wet/dry storms in western/northern South Dakota.	Mid 80s to lower 90s in most locations, except into the mid 90s across South Dakota. In the mountains 70s to lower 80s in Wyoming and the Black Hills, with upper 60s and 70s in Colorado.	10 to 20 can be expected in lower elevations of Wyoming, central/western South Dakota, and lower elevations of northern Colorado.	Southerly at 15 to 25 mph in Nebraska and South Dakota, and 10 to 20 mph from the west-northwest in Wyoming into northwest South Dakota, with lighter winds elsewhere except stronger gusts near thunderstorms.
Eastern Great Basin Area Idaho, Bridger-Teton: Partly cloudy with isolated afternoon mountain showers and thunderstorms. Northern Utah: Partly cloudy with isolated valley and scattered mountain showers and thunderstorms. Southern Utah, Arizona Strip: Partly to mostly cloudy with scattered showers and thunderstorms.	Idaho, Bridger-Teton: 72 to 79 mountains, 80 to 94 valleys. Northern Utah: 75 to 85 mountains, 86 to 94 valleys. Southern Utah, Arizona Strip: 69 to 88 mountains, 88 to 98 valleys.	Idaho, Bridger-Teton: 10 to 20 mountains, 15-25 valleys. Northern Utah: 28-41 mountains, 17-27 valleys. Southern Utah, Arizona Strip: 31-45 mountains, 20-30 valleys.	Idaho, Bridger-Teton: Northwest 8 to 10 mph in the west with higher gusts, southwest 10 mph in the east. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, AZ Strip: Upslope/upvalley 5 to 10 mph.
Eastern Area Scattered showers and storms over the southeastern Northeast and eastern Mid-Atlantic states. A chance of showers and storms over northern Minnesota. Fair elsewhere.	87 to 92 across the western % of the Great Lakes, Iowa, and Missouri. 77 to 81 over the northern Northeast states. 81 to 87 elsewhere.	30 to 38% over the Great Lakes, Iowa, and Missouri. Greater than 38% elsewhere.	South to southeast at 12 to 22 mph across western Minnesota and northwest Iowa. Light to moderate winds elsewhere.
Southern California Area Areas of morning low clouds and fog to the lower coastal slopes, otherwise partly cloudy with a slight chance of afternoon thunderstorms over the Sierra and Northern Deserts.	75 to 85 mountains. 80 to 90 valleys. 85 to 95 upper deserts. 95 to 105 lower deserts.	55 to 70% Coastal areas. 40 to 55% valleys. 25 to 40% mountains. 15 to 25% deserts.	Southeast to southwest 5 to 15 mph.
Southern Area No information reported.			
Southwest Area No information reported.
