

**INCIDENT MANAGEMENT SITUATION REPORT  
WEDNESDAY, AUGUST 9, 2006 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 5**

**CURRENT SITUATION:**

Initial attack activity was heavy nationally with 424 new fires reported. Twenty-three new large fires (\*) were reported, seven in the Southern Area, five in the Northwest Area, four in the Eastern Great Basin Area, three in the Northern Rockies Area, and one each in the Southern California, Western Great Basin, Rocky Mountain and Northern California Areas. Eight large fires were contained, four in the Eastern Great Basin Area, and one each in the Rocky Mountain, Western Great Basin, Southern California and Southern Areas. Very high to extreme fire indices were reported in Arkansas, Arizona, California, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

Two MAFFS C-130 aircraft and support personnel from the 153<sup>rd</sup> Airlift Wing ANG, Cheyenne, Wyoming are deployed to Klamath Falls, Oregon. Lt. Col. Michael Exstrom is the Mission Commander. Two MAFFS C-130 aircraft and support personnel from the 146<sup>th</sup> Airlift Wing ANG, Channel Islands, California are deployed to Boise, Idaho. Lt. Col. Terry Champlin is the Mission Commander.

**NORTHWEST AREA INCIDENTS/LARGE FIRES:**

An Area Command Team (Loach) is assigned to manage the Tripod Complex, Flick Creek, and Tin Pan fires.

TRIPOD COMPLEX, Okanogan-Wenatchee National Forest. Two Type 1 Incident Management Teams (Custer and Lohrey) are assigned. Another Type 1 Incident Management Team (Molumby) has been ordered. This complex, comprised of the Spur Peak and Tripod fires, is seven miles northeast of Winthrop, WA in beetle-killed timber and heavy ground fuels. Numerous residences and other structures remain threatened. Active torching, spotting, and uphill runs were observed.

FLICK CREEK, North Cascades National Park. A Washington Interagency Type 2 Incident Management Team (Jennings) is assigned. This fire is three miles southeast of Stehekin, WA in ponderosa pine, Douglas fir and grass. Smoldering and creeping was reported.

MAXWELL, Ochoco National Forest. A Washington Interagency Type 2 Incident Management Team (Reed) is assigned. This fire is six miles south of Mitchell, OR in heavy dead and down timber. A residence, communications equipment and the water pipeline for the city of Mitchell remain threatened. Steep terrain and limited access are hampering containment efforts. Burnout operations are ongoing. Creeping and smoldering was observed.

TIN PAN, Okanogan-Wenatchee National Forest. A Washington Interagency Type 2 Incident Management Team (Barnett) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning seven miles west of Lucerne, WA in timber. Hiking trails within the fire area remain closed. Creeping down the Entiat River drainage was observed.

MT. HOOD COMPLEX, Mt. Hood National Forest. A Type 2 Incident Management Team (West) is assigned. This complex, comprised of numerous wilderness fires, is six miles east of Government Camp, OR in timber. Several campgrounds are threatened. Active running fire with torching and spotting was reported.

VALLEY MILL, Washington Department of Natural Resources. A Washington Interagency Type 2 Incident Management Team (Gormley) will assume command today. This fire is six miles south of Chewelah, WA in timber and grass. Numerous structures are threatened. Structure protection is in place. Running, crowning and torching were observed.

TWO CABIN COMPLEX, Central Oregon District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Walker) will assume command today. This Complex, comprised of the West, East and Middle fires, is near Monument, OR in grass, brush and pine. Running and single tree torching were reported.

ELM ROAD, Spokane District, Bureau of Land Management. This fire is twelve miles north of Pasco, WA in grass and sagebrush. Several structures are threatened. Running fire behavior was observed.

BLACK CRATER, Deschutes National Forest. A transfer of command from a Type 1 Incident Management Team (Quesinberry) back to the local unit will occur today. This fire is seven miles southwest of Sisters, OR in white fir and lodgepole pine. Rain fell on most of the fire. Smoldering was observed.

FOSTER GULCH COMPLEX, Wallowa-Whitman National Forest. This Complex, consisting of the McClean and Foster Gulch fires, started on Bureau of Land Management land six miles southeast of Halfway, OR in grass, brush and mixed conifers. Surface spread in timber fuels with occasional torching was observed.

THREE HORSES, Prineville District, Bureau of Land Management. This fire is five miles southeast of Clarno, OR in juniper and sagebrush. Short range spotting and uphill runs were reported.

#2415, Burns District, Bureau of Land Management. This fire is thirty miles southwest of Hines, OR in grass, sage, and juniper. Several structures are threatened. Wind driven runs and flame lengths of four to six feet were observed.

BEAR GULCH II, Olympic National Forest. This fire is 15 miles northwest of Hoodport, WA in timber. Steep, rocky terrain is hampering containment efforts. A major access point to the Olympic National Park remains closed. Active perimeter growth on the east and west flanks was observed.

### **EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:**

POTATO, Salmon-Challis National Forest. A Type 1 Incident Management Team (Broyles) is assigned. This fire is seven miles north of Stanley, ID in timber. Historical town site, fisheries, mining resources and recreation sites remain threatened. Structure protection is in place. Extreme fire behavior included sustained crown runs, spotting, torching and uphill runs.

BOUNDARY, Salmon-Challis National Forest. A Type 2 Incident Management Team has been ordered. This fire is 14 miles southeast of Landmark, ID in grass, pinyon pine and juniper. Campgrounds are threatened, and evacuation plans are being developed. Short crown runs and spotting up to ... mile were observed.

BURNT, Boise National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 24 miles northeast of Cascade, ID in subalpine fir and lodgepole pine. Steep terrain and heavy dead and down timber continues to impede containment efforts. An increase in single tree and group tree torching was observed.

STONE 2, Caribou-Targhee National Forest. A Type 2 Incident Management Team (Whalen) is assigned. This fire is five miles southwest of Holbrook, ID in grass, pinyon pine and juniper. Extreme fire behavior caused by strong winds and thunder cell downdrafts was observed. Structures and powerlines are threatened.

RAINBOW, Payette National Forest. A Fire Use Incident Management Team (Bonefeld) is assigned. The Team is also managing the Duncce and Lick Creek incidents. This lightning caused incident is being managed under a confine/contain strategy. The fire is burning 13 miles east of McCall, ID in subalpine fir. Spotting was reported. The fire is being aerially monitored.

GARDEN CREEK, Salmon-Challis National Forest. This fire is 20 miles southwest of North Fork, ID in timber and grass. Structures are threatened. Running fire behavior was observed.

HOGUPS, Salt Lake Field Office, Bureau of land Management. This fire is 10 miles south of Park valley, UT in grass and brush. The town of Park Valley is threatened. Extreme fire behavior was reported.

LICK CREEK, Payette National Forest. This lightning caused Wildland Fire Use (WFO) incident is being managed to accomplish resource objectives. The fire is burning 21 miles northwest of McCall, ID in timber. Smoldering and creeping were observed. Burn out operations continue along Lick Creek Road.

DUNCE, Payette National Forest. This lightning caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 31 miles east of Edwardsburg, ID in grass and timber. Structure protection measures remain in place in Cabin Creek drainage. Minimal fire activity was reported.

OWINZA, Twin Falls District, Bureau of Land Management. This fire is five miles northeast of Detriecht, ID in grass and sagebrush. Strong winds and rocky terrain were encountered. Smoldering and creeping were observed.

FAIRGROUND, Twin Falls District, Bureau of Land Management. This fire is three miles west of Bliss, ID in grass and sagebrush. Three to five foot flame lengths were observed.

INTERCHANGE, Richfield Field Office, Bureau of Land Management. This fire is one mile south of Cove Fort, UT in grass and sagebrush. Running fire behavior was reported.

ANTELOPE POINT, Richfield Field Office. This fire is fifteen miles east of Cove Fort, UT in grass and sagebrush. Running and torching were observed. This will be the last report unless significant activity occurs.

## **NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:**

ORLEANS COMPLEX, Six Rivers National Forest. A Type 2 Incident Management Team (Blume) is assigned. The Orleans complex, comprised of the Somes and Buck fires, is four miles southwest of Orleans, CA in timber and dead and down fuels. Numerous structures, significant cultural and spiritual sites, and the municipal watershed for the community of Orleans remain threatened. Limited road access, steep terrain and snags are hindering containment efforts. Short uphill runs, torching, and some short range spotting was observed.

BAR COMPLEX, Shasta-Trinity National Forest. A Type 1 Incident Management Team (Pincha-Tulley) is assigned. This complex, comprised of four fires, is 40 miles northwest of Redding, CA in timber and grass. Residences, outbuildings, powerlines, municipal watersheds and wildlife habitat remain threatened. Difficult access is hampering containment efforts. Minimal activity with backing fire into drainages was observed.

UNCLES COMPLEX, Klamath National Forest. A Type 2 Incident Management Team (Kaage) is assigned. This complex, comprised of the Uncles, Rush, and Hancock fires, is 18 miles northeast of Orleans, CA in old growth timber and brush. Steep terrain and difficult access is hampering containment efforts. Creeping, backing fire and smoldering were observed.

HAPPY CAMP, Klamath National Forest. A Type 2 Incident Management Team (Bradley) is assigned. This complex, comprised of 11 lightning caused fires, is near Happy Camp, CA in grass and timber. Limited access is hampering containment efforts. Marble Mountain Wilderness is under a closure order. Rain moderated the Titus fire significantly.

HUNTER, Mendocino National Forest. A transfer of command from a Type 2 Incident Management Team (Philbin) to another Type 2 Incident Management Team (Walker) will occur today. This fire is 19 miles southeast of Covelo, CA in timber. Structures and wildlife habitat remain threatened. Short uphill runs with some torching and interior smoldering were reported.

CLEARLAKE, Modoc National Forest. The fire is 20 miles east of Tule Lake, CA in juniper and grass. Single tree torching and creeping was observed.

## **NORTHERN ROCKIES AREA INCIDENTS/LARGE FIRES:**

RAGGED POINT, Billings Field Office, Bureau of Land Management. This fire is ten miles north of Mussellshell, MT in sagebrush and grass. Passing thunderstorms contributed to running fire behavior.

FORD CREEK, Lewis & Clark National Forest This fire is 20 miles west of Augusta, MT in timber. Short crown runs, isolated individual torching and moderate range spotting were reported.

BIG CREEK, Central Land Office, Montana Department of Natural Resources and Conservation. A Type 2 Incident Management Team (Reid) is assigned. This fire started on private land 29 miles southwest of Livingston, MT in timber, grass, and sagebrush. Numerous residences, commercial property and the Bozeman watershed remain threatened. Creeping, smoldering and torching fire behavior was observed.

RED EAGLE, Glacier National Park. A Type 1 Incident Management Team (Stanich) is assigned. This fire is one mile southwest of St. Mary, MT in spruce and fir. Residences, historic structures and commercial resources are threatened. Smoldering, short range spotting and torching fire behavior was observed.

GASH CREEK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. This fire is six miles southwest of Victor, MT in timber. Residences remain threatened. Rough terrain and difficult access continue to hamper containment efforts. Creeping with occasional group tree torching was observed.

KURBY, Craig Mountain Area Office, Idaho Department of Lands. This fire is six miles west of Lenore, ID in timber and farmland. No new information was reported.

SOUTH PINE, Gallatin National Forest. This fire is 13 miles south of Livingston, MT in timber. Steep, rugged terrain continues to impede containment efforts. Minimal fire behavior with occasional torching was observed.

MT. AURA, Bitterroot National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 31 miles west of Darby, MT in grass and timber understory. Single and group tree torching were observed. This will be the last narrative report unless significant activity is reported.

## ROCKY MOUNTAIN AREA INCIDENTS/LARGE FIRES:

HORSE CREEK 2, Campbell County. This fire is 35 miles north of Gillette, WY in grass, sage, and juniper. Residences and structures are threatened. Fire behavior included running, torching and high rates of spread.

LITTLE CANYON CREEK, Wyoming State Forestry. The fire is 22 miles south of Ten Sleep, WY in juniper, sage and grass. Steep terrain is hampering containment efforts. Creeping, smoldering and isolated interior torching were reported.

BULL CREEK COMPLEX, Cheyenne River Agency, Bureau of Indian Affairs. This fire is five miles north of Takini, SD in grass and timber. Residences remain threatened. Smoldering in open timber was observed. No further information was received.

SIOUX COUNTY COMPLEX, Nebraska Department of Forestry. This complex, comprised of the Thayer, Old Aker and Rudloff fires, is three miles northeast of Harrison, NE in timber and grass. No further information was received.

### SOUTHERN AREA INCIDENTS/LARGE FIRES:

WEST COLEMAN, Texas Forest Service. This fire started on private land one mile southwest of Coleman, TX in brush and oak. Residences and commercial resources are threatened. Active fire behavior was reported.

STONELEDGE, Texas Forest Service. A Type 2 Incident Management Team (Hannemann) is assigned. This fire started on private land ten miles northwest of Junction, TX in brush, mesquite and oak. The Team is also managing the Monaham, Whiskey Canyon and Pike fires. Several residences are threatened. Significant runs and short range spotting were observed.

WHISKEY CANYON, Texas Forest Service. This fire started on private land 11 miles northeast of Meridian, TX in oak, juniper and mesquite. Four residences are threatened. Moderate fire behavior was observed.

PIKE, Texas Forest Service. This fire started on private land 18 miles northeast of McKinney, TX in juniper, oak and mesquite. Residences and other structures are threatened. Significant runs and spotting fire behavior were observed.

STRETCH, Okmulgee Field Office, Bureau of Indian Affairs. This fire is three miles northwest of Warner, OK in hardwood litter. Cellular and radio towers are threatened. Rough terrain is hampering containment efforts. Minimal fire behavior was observed.

PUMP STATION, Texas Forest Service. This fire started on private land five miles east of Talpa, TX in brush and mesquite. Active fire behavior with significant runs was reported.

MONAHAM, Texas Forest Service. This fire started on private land six miles northwest of Lometa, TX in pinyon juniper, mesquite and oak. Active fire behavior with individual torching and short range spotting was observed.

WESLEY, Oklahoma Division of Forestry. This fire is eight miles northeast of Stringtown, OK in timber. Rough terrain is hampering containment efforts. Interior burning was reported.

## OUTLOOK:

**Red Flag Warning:** For south-central and southeast Montana for gusty winds, low relative humidity and the potential for lightning.

**Fire Weather Watch:** For winds and low relative humidity in portions of Wyoming.

**Weather Discussion:** An upper low moving across Idaho and Montana today will produce scattered thunderstorms over these two states. High pressure will bring drier conditions to the Pacific Northwest, California, Nevada and Utah. Dry, gusty winds will prevail over much of Wyoming.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>Northwest Area</b> Mostly sunny	Mostly 70s and 80s.	West of Cascades: Generally 30 to 50.  East of Cascades: mostly 20 to 35, locally down to 15 in southeast Oregon.	West 5 to 15 mph.
<b>Northern California Area</b> Mostly sunny.	Upper 50s to low 70s coast, upper 70s to lower 80s higher elevations, 90s to near 100 lower interior valleys.	12 to 25 driest inland areas.	SW-NW 5 to 12 mph with local afternoon gusts to 22 mph.
<b>Eastern Great Basin Area</b> Idaho, Bridger-Teton: Partly cloudy. Isolated mountain thunderstorms in the morning. Northern Utah: Mostly sunny. Southern Utah, Arizona Strip: Partly cloudy. Isolated late day thunderstorms.	Idaho, Bridger-Teton: 68 to 80 mountains, 80 to 90 valleys. Northern Utah: 69 to 85 mountains, 85 to 97 valleys. Southern Utah, Arizona Strip: 73 to 86 mountains, 86 to 103 valleys, 106 to 112 low valleys.	Idaho, Bridger-Teton: 18 to 35% mountains, 12 to 19% valleys. Northern Utah: 20 to 30% mountains, 12 to 20% valleys. Southern Utah, Arizona Strip: 20 to 30% mountains, 10 to 20% valleys.	Idaho, Bridger-Teton: West to southwest 10 to 15 mph. shifting to northwest late. Northern Utah: Upslope 5 to 10 mph.. Southern Utah, AZ Strip: Upslope 5 to 10 mph.

<b>Geographic Area Weather</b>	<b>High Temperatures</b>	<b>Minimum Relative Humidity</b>	<b>Wind</b>
<b>Northern Rockies Area</b> Upper level disturbance will move slowly from west to east across the area late Tuesday night through Wednesday. Expect thundershowers over central Idaho and western Montana to diminish by mid morning. The rest of the Area will see isolated thunderstorms and showers into Wednesday evening.	West of Divide: 76 to 86. East of Divide: 85 to 95. North Dakota: 85 to 95.	West of Divide: 20 to 30. East of Divide: 17 to 27. North Dakota: 30 to 40.	West of Divide: West 5 to 10 mph. East of Divide: Northwest 10 to 15 mph. North Dakota Southeasterly 10 to 15 mph.
<b>Rocky Mountain Area</b> Scattered afternoon thunderstorms in Colorado mainly over the southern mountains. Further north dry and breezy weather prevails, except for isolated to scattered afternoon thunderstorms in central to western South Dakota and northern Nebraska	Upper 80s in western Wyoming, to around 95 elsewhere, except near 100 in southern South Dakota Nebraska, and Kansas.	8% to 18% in the lower elevations of Wyoming into northern Colorado, and the southern Black Hills, with higher values elsewhere.	Afternoon west winds of 10 to 20 mph across Wyoming, except from the northwest in northern Wyoming, with 10 to 18 mph from the north-northeast in northern South Dakota.
<b>Eastern Area</b> Chance of showers and thunderstorms across southern Minnesota, southwestern Wisconsin, eastern Iowa, and western Illinois. Fair elsewhere.	82 to 87 across the western Great Lakes, Iowa, northern Illinois and Indiana, and the Mid-Atlantic states. 76 to 82 over the eastern Great Lakes and Northeast states. 94 to 99 across southern parts of Missouri. 87 to 93 across southern Illinois and Indiana.	30 to 35 across southern Missouri. 35 to 40 across the eastern Great Lakes, Northeast and eastern Mid-Atlantic states. Greater than 40 elsewhere.	Light to moderate winds.
<b>Western Great Basin Area</b> Mostly sunny.	Northern Valleys: 82 to 96. Southern Valleys: 90 to 12. Northern Mountains: 75 to 90. Southern Mountains: 80 to 90.	Northern Valleys: 5 to 15. Southern Valleys: 7 to 17. Northern Mountains: 10 to 20. Southern Mountains: 10 to 17.	South to west at 5 to 15 mph.
<b>Southern California Area</b> Patchy morning low clouds and fog coastal areas, otherwise mostly sunny.	85 to 100 mountains. 95 to 105 valleys. 95 to 105 upper deserts. 105 to 115 lower deserts.	30 to 50 Coastal areas. 10 to 20 Valleys. 5 to 15 Mountains. 5 to 15 Deserts.	Southeast to southwest 5 to 15 mph.
<b>Southern Area</b> No information reported.			
<b>Southwest Area</b> No information reported.

## **SPOT WEATHER FORECAST**

Spot weather forecasts should be requested for fires that have potential for extreme fire behavior, exceed initial attack, or are located in areas where Red Flag Warnings have been issued.

● Basic elements needed for a spot weather forecast include:

- Name of fire and management agency
- Request time and date
- Location by ... section
- Drainage name
- Exposure
- Size
- Elevation (top and bottom)
- Fuel type
- Fire character (ground, crown, etc.)
- Weather conditions (place, elevation, observation time, wind direction, wind velocity, dry bulb, wet bulb, remarks)
