

**INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, AUGUST 16, 2006 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was moderate nationally with 272 new fires reported. Twenty new large fires (*) were reported, six in the Eastern Great Basin Area, five in the Western Great Basin Area, and three each in the Northwest and Southern Areas, two in the Northern Rockies Area, and one in the Rocky Mountain Area. Two large fires were contained, one each in the Northwest and Southern Areas. Very high to extreme fire indices were reported in Arizona, Arkansas, California, Idaho, Montana, Nebraska, Nevada, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

Two MAFFS C-130 aircraft and support personnel from the 153rd Airlift Wing ANG, Cheyenne, Wyoming are deployed to Klamath Falls, Oregon. Maj. Ricky Rau is the Mission Commander. Two other MAFFS C-130 aircraft and support personnel from the 146th Airlift Wing ANG, Channel Islands, California are deployed to Boise, Idaho. Lt. Col. Glenn Bourne is the Mission Commander.

The U.S. Army Task Force Blaze, commanded by LTC Ricky Love, is deployed to the Tripod Complex in Washington.

NORTHWEST AREA INCIDENTS/LARGE FIRES:

An Area Command Team (Loach) has been released.

TRIPOD COMPLEX, Okanogan-Wenatchee National Forest. Two Type 1 Incident Management Teams (Molumby and Lohrey) are assigned. This Complex is seven miles northeast of Winthrop, WA in timber. Numerous residences and other structures remain threatened. Uphill crown runs and short range spotting were observed. Burn out operations are planned.

LAKE GEORGE, Deschutes National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This fire is 13 miles west of Sisters, OR in timber and dead and down fuels. Communication sites remain threatened. Heavy fuel loading and steep terrain are hampering containment efforts. Evacuation and structure protection plans are in place. Moderate surface fire, torching and spotting were observed.

MT. HOOD, Mt. Hood National Forest. A Type 2 Incident Management Team (West) is assigned. This Complex, comprised of 13 fires, is six miles east of Government Camp, OR in timber and heavy downed fuels. Sections of State Highway 35, campgrounds and trails remain closed. Recreation facilities, a communication repeater site and municipal watersheds are threatened. Steep terrain and heavy fuel loading with dead and down fuels are hampering containment efforts. Active fire behavior with group tree torching was observed.

BLISTER, Mount Hood National Forest. A Type 2 Incident Management Team (Paul) is assigned. This fire is 25 miles southeast of Mollala, OR in timber. Inaccessible, steep terrain, thick

undergrowth and rolling material are hampering containment efforts. Torching, creeping and spotting were observed.

FLICK CREEK, North Cascades National Park. A Washington Interagency Type 2 Incident Management Team (Barnett) is assigned. This fire is three miles southeast of Stehekin, WA in ponderosa pine, Douglas fir and grass. The Team is also managing the Tin Pan incident. Several residences remain threatened. Smoldering and creeping were observed.

TIN PAN, Okanogan-Wenatchee National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning seven miles west of Lucerne, WA in timber. Hiking trails within the fire area remain closed. Isolated torching and creeping were observed.

HOLE IN THE GROUND, Vale District, Bureau of Land Management. A Type 2 Incident Management Team (Morcom) has been ordered. This fire is 32 miles northwest of Jordan Valley, OR in grass and sagebrush. Difficult access is hampering containment efforts. Very active fire behavior with running and spotting was reported.

TROUT CREEK, Burns District, Bureau of Land Management. This fire is 9 miles southeast of Fields, OR in grass and sagebrush. Poor access is hindering containment efforts. Wind driven runs were reported.

BLOWOUT, Vale District, Bureau of Land Management. This fire is 18 miles northwest of Jordan Valley, OR in grass and sagebrush. Running and spotting fire behavior was observed.

EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

An Area Command Team (Zimmerman) is assigned to manage fires on the Payette National Forest.

OLA COMPLEX, Southwest Area Office, Idaho Department of Lands. A Type 2 Incident Management Team (Lund) is assigned. This Complex, comprised of four fires, is 31 miles

northwest of Boise, ID in timber, grass, and sagebrush. Residences and ranches remain threatened. Active fire behavior was observed on the Cherry Fire; minimal fire behavior on the other fires in the Complex.

SOUTH FORK COMPLEX, Payette National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This Complex, comprised of 25 fires, is 13 miles east of McCall, ID in timber. Structure protection for the town of Yellow Pine and Krassel Work Center is in place. Lick Creek and South Fork Salmon River roads are closed. Fire activity increased after inversion lifted.

RED MOUNTAIN, Boise National Forest. This fire is 15 miles northeast of Lowman, ID in closed timber. Red Mountain Lakes Recreational Area and a historic lookout are threatened. Crowning and long range spotting were observed.

BOUNDARY COMPLEX, Salmon-Challis National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This complex comprised of three fires and four wildland fire use fires is 14 miles southeast of Landmark, ID in grass, subalpine fir and mixed conifer. Difficult access and steep terrain are hampering containment efforts. Fisheries, cultural resources, campgrounds and a mine are threatened. Upslope runs, group tree torching, crowning, short and long range spotting were observed.

BASIN, Idaho Falls District, Bureau of Land Management. This fire is three miles west of Holbrook, ID in grass, brush and timber. Communication structures, historical sites and grazing allotments are threatened. Extreme fire behavior was observed.

BOWEN, Idaho Falls District, Bureau of Land Management. This fire is three miles west of Holbrook, ID in grass, brush and timber. The community of Holbrook is threatened. Running and fire whirls were observed.

CRYSTAL, Idaho Falls District, Bureau of Land Management. This fire is 20 miles northwest of American Falls, ID in grass. Power line structures and historical sites are threatened. Extreme fire behavior with running and fire whirls was observed.

POTATO, Salmon-Challis National Forest. A Type 1 Incident Management Team (Broyles) is assigned. This fire is nine miles northeast of Stanley, ID in timber. Residences, historical sites, fisheries, power lines, mining resources and recreation sites remain threatened. Accessibility and steep terrain are hampering containment efforts. Torching, creeping and smoldering were observed.

SADDLE, Wasatch Front Area, Utah State Division of Forestry Fire and State Lands. This fire is near Stockton, UT in grass and sagebrush. Running fire behavior was observed.

EAST HICKMAN, Wasatch Front Area, Utah State Division of Forestry Fire and State Lands. This fire is 12 miles south of Grantsville, UT in timber and brush. Uphill runs, torching and fire whirls were observed.

HYNES, Twin Falls District, Bureau of Land Management. This fire is eight miles west of Paul, ID in grass. Running fire behavior was observed.

BADGER, Cedar City Field Office, Bureau of Land Management. This fire is 11 miles southwest of Minersville, UT in grass, brush, pinyon pine and juniper. No further information was received.

TROUT CREEK, Payette National Forest. A transfer of command from a Fire Use Incident Management Team (Bonefeld) to another FUMT (Hall) has begun. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 50 miles northeast of McCall, ID in timber. The Team is also managing the Payette WFU Complex. Structure protection is in place. Slope driven crown fire in timber was observed.

MIDDLE FORK COMPLEX, Salmon-Challis National Forest. A Fire Use Incident Management Team (Svalberg) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, which includes the previously reported Trail Creek incident, is being managed to accomplish resource objectives. The fires are burning 30 miles west of Challis, ID. Structure protection is in place. Torching, spotting and uphill runs were observed.

PAYETTE WFU COMPLEX, Payette National Forest. This lightning-caused Wildland Fire Use (WFU) incident, comprised of 12 fires, is being managed to accomplish resource objectives. The fires are burning 20 to 50 miles northeast of McCall, ID in timber. Structure protection is in place for Taylor and Davis Ranches. Active backing, torching and spotting were reported.

NORTHERN ROCKIES AREA INCIDENTS/LARGE FIRES:

SAND BASIN, Beaverhead/Deerlodge National Forest. A Type 2 Incident Management Team (Grant) is assigned. This fire is 14 miles west of Phillipsburg, MT in lodgepole pine and sub-alpine fir. Remote, steep and inaccessible terrain is hampering containment efforts. A communication repeater is threatened. Torching and mid-range range spotting were observed.

LIGHTNING CREEK, Nez Perce National Forest. A Type 2 Incident Management Team (McNitt) is assigned. This fire is 2 miles east of Riggins, ID in grass and timber. Steep terrain is hampering containment efforts. Recreation sites are threatened. Short up canyon runs were observed.

GASH CREEK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. This fire is six miles southwest of Victor, MT in timber. Residences, a trail system and watershed are threatened. An evacuation plan has been implemented. Active fire spread, short crown runs, group torching and long range spotting were observed.

KEEP COOL, Helena National Forest. This fire is located five miles north of Lincoln, MT in timber. Moderate fire activity with interior torching was observed.

BASTON-COOK COMPLEX, Nez Perce National Forest. A Type 2 Incident Management Team (Kusicko) is assigned. This Complex is 15 miles southeast of Elk City, ID in timber. Numerous residences and a ranch remain threatened. Structure protection is in place. Torching and smoldering were observed.

RED EAGLE, Glacier National Park. A Type 2 Incident Management Team (Heintz) is assigned. This fire is one mile southwest of St. Mary, MT in timber. Steep, difficult terrain is hampering containment efforts. Isolated tree torching and creeping was observed.

BIG CREEK, Central Land Office, Montana Department of Natural Resources and Conservation. This fire started on private land 29 miles southwest of Livingston, MT in timber, grass, and sagebrush. Creeping, smoldering, and isolated tree torching were reported.

FORD CREEK, Lewis & Clark National Forest This fire is 20 miles west of Augusta, MT in timber. Backing fire with isolated torching and spotting were observed.

SOUTH PINE, Gallatin National Forest. This fire is 13 miles south of Livingston, MT in timber. Steep, rugged terrain continues to hamper containment efforts. Occasional flare-ups were observed.

SAPPINGTON JUNCTION, Central Land Office, Montana Department of Natural Resources & Conservation. This fire is 16 miles southeast of Whitehall, MT in timber, grass and brush. Crown fire, torching and spotting were reported.

SLIDE, Clearwater National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 33 miles northeast of Pierce, ID in timber. Short runs and isolated torching were reported.

DANNY, Northern Cheyenne Agency, Bureau of Indian Affairs. This fire is five miles southeast of Lame Deer, MT in grass. Running, spotting and torching were observed.

NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

ORLEANS COMPLEX, Six Rivers National Forest. A Type 2 Incident Management Team (Sinclair) is assigned. This Complex, comprised of the Somes and Buck fires, is east of Orleans, CA in timber and dead and down fuels. Numerous structures and cultural sites remain threatened. Backing fire, uphill runs, isolated torching were reported.

BAR COMPLEX, Shasta-Trinity National Forest. A Type 1 Incident Management Team (Dietrich) is assigned. This Complex, comprised of four fires, is northwest of Weaverville, CA in timber and grass. Residences and utility infrastructure remain threatened. Difficult access continues to hamper containment efforts. Backing fire and isolated torching fire behavior was observed.

UNCLES COMPLEX, Klamath National Forest. A Type 2 Incident Management Team (Kaage) is assigned. This Complex, comprised of the Uncles, Rush, and Hancock fires, is 18 miles northeast of Orleans, CA in old growth timber and brush. Steep terrain is hampering containment efforts. Backing fire was observed.

HAPPY CAMP, Klamath National Forest. A Type 2 Incident Management Team (Garwood) is assigned. This Complex, comprised of 15 fires, is near Happy Camp, CA in grass and timber. Limited access is hampering containment efforts. Recreational trails and cultural and spiritual sites are threatened. Smoldering fire behavior was reported.

HUNTER, Mendocino National Forest. A Type 2 Incident Management Team (Walker) is assigned. This fire is 19 miles southeast of Covelo, CA in timber and brush. Steep terrain is hampering containment efforts. Moderate intensity surface fire was observed.

WESTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

GOPHER, Elko Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Thomas) is assigned. This fire is eight miles north of Deeth, NV in sage and grass. Ranches, structures, power lines and grazing allotments are threatened. Rapid rates of spread, wind driven runs and spotting were observed.

NORTH BEAVER, Elko Field Office, Bureau of Land Management. This fire is 50 miles north of Elko, NV in sage and grass. A power line and ranches are threatened. Extreme fire behavior with rapid rates of spread was reported.

CHARLESTON, Elko Field Office, Bureau of Land Management. This fire is 55 miles north of Elko, NV in sage and grass. Extreme fire behavior with rapid rates of spread was reported.

SUGARLOAF 2, Elko Field Office, Bureau of Land Management. This fire is 55 miles north of Elko, NV in sage and grass. A power line is threatened. Running, spotting and torching were observed.

SUGARLOAF, Elko Field Office, Bureau of Land Management. This fire is 45 miles north of Elko, NV in sage and grass. Torching and significant runs were observed.

BEAVER, Elko Field Office, Bureau of Land Management. This fire is 30 miles north of Elko, NV in sage and grass. Running fire behavior was observed.

ROCKY MOUNTAIN AREA INCIDENTS/LARGE FIRES:

JACKSON CANYON, Natrona County. A Type 1 Incident Management Team (Muir) is assigned. This fire is six miles south of Casper, WY in timber. Residences and communication towers are threatened. Casper Mountain Road is closed. Evacuations orders are in effect. Rough terrain is hampering containment efforts. Crowning and running fire behavior was observed.

PURDY, Shoshone National Forest. A Type 2 Incident Management Team (Mullenix) is assigned. This fire is 21 west of Dubois, WY in timber and sagebrush. Numerous structures and grazing

allotments are threatened. Heavy fuel loading is hampering containment efforts. Extreme fire behavior with short runs, group torching and occasional crown fire was reported.

POISON SPIDER, Rawlins Field Office, Bureau of Land Management. This fire is near Muddy Gap, WY in timber and grass. A residence, commercial structures and a powerline are threatened. Bug killed trees are contributing to high rates of spread. Short runs with short range spotting were observed. Burn out operations were completed.

SHEEP TRAIL, Rock Springs Field Office, Bureau of Land Management. This fire is located southeast of Cokeville, WY in brush and grass. Residences are threatened. Running, creeping and smoldering were observed.

SOUTHERN AREA INCIDENTS/LARGE FIRES:

JOHNSON MOUNTAIN, Texas Forest Service. A Unified Command between two state Type 2 Incident Management Teams (Hannemann and Floyd) is in place. The Unified Command is also managing the Clayton fire. This Complex is 12 miles northwest of Mineral Wells, TX in timber. Rugged terrain is hampering containment efforts. Moderate fire activity was reported.

KANAWHA 2, Texas Forest Service. This fire started on private land 20 miles northeast of Paris, TX in timber. Evacuation orders are in place for six residences and a private campground. Extreme fire behavior was reported.

TURKEY, Ouachita National Forest. This fire is seven miles northeast of Glenwood, AR in mixed hardwoods. Minimal fire behavior was observed.

JUNIPER, National Forests in Florida. A Florida State Type 2 Incident Management Team (Hill) is assigned. This fire is six miles west of Astor, FL in southern rough and brush. Commercial property is threatened. Short range spotting was observed. Burn out operations were successful.

CLAYTON, Texas Forest Service. This fire is near Bryson, TX in Brush and grass. No new information was reported.

MAC DADDY, Florida Division of Forestry. This fire is 24 miles northwest of Miami, FL in southern rough. No new information was reported.

KENWORTHY, Osage Agency, Bureau of Indian Affairs. This fire is 40 miles northwest of Tulsa, OK in timber and grass. Minimal fire activity with smoldering and creeping was reported.

BAZAAR, Florida Division of Forestry. This fire is 33 miles east of Gainesville, FL in southern rough. No new information was reported.

OUTLOOK:

Red Flag Warnings: For parts of Northeastern California for a combination of gusty winds and low relative humidity from 12 pm to 8 pm PDT Wednesday. For much of northern and western Nevada for strong gusty winds and low humidity.

Fire Weather Watches: For east central Idaho mountains for strong winds, low relative humidity, and lightning for Wednesday 16 August, 2006. Pendleton: for scattered lightning and dry fuels in northeastern Oregon mountains. For west-central Nevada for strong gusty winds and low humidity.

Weather Discussion: Scattered thunderstorm activity will continue the next couple days over portions of the Pacific Northwest, Idaho, Montana, and Wyoming. Some of these storms will be dry on Wednesday and moisten by Thursday. Winds will increase and be gusty over the Sierra, Great Basin, and Wyoming over the next couple days. These conditions are in response to a low pressure trough moving across the region.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northwest Area Partly cloudy. Scattered wet thunderstorms east of Cascades.	Mostly 60s and 70s. Locally to 80 warmest locations	West of Cascades: Generally above 50, except 40 to 50 in interior western Washington. East of Cascades: 25 to 40 except 15 to 25 southeast Oregon.	Mostly west to north 6 to 12 mph. 8 to 18 mph in southeast Oregon.
Eastern Great Basin Area Idaho, Bridger-Teton: Partly cloudy with isolated afternoon mountain showers and thunderstorms- mix of wet and dry. Northern Utah: Partly cloudy with isolated afternoon showers and thunderstorms. Southern Utah, Arizona Strip: Partly cloudy with isolated showers and thunderstorms in the west, more widely scattered in the east.	Idaho, Bridger-Teton: 62 to 75 mountains, 76 to 90 valleys. Northern Utah: 73 to 83 mountains, 84 to 92 valleys. Southern Utah, Arizona Strip: 71 to 85 mountains, 86 to 102 valleys, 103 to 110 in the lower valleys.	Idaho, Bridger-Teton: 20 to 27 mountains, 10 to 19 valleys. Northern Utah: 20 to 33 mountains, 11 to 19 valleys. Southern Utah, Arizona Strip: 22 to 38 mountains, 10 to 20 valleys.	Idaho, Bridger-Teton: West to northwest 15 mph with higher gusts in the west, southwest 10 to 15 mph in the east. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, AZ Strip: Southwest 15 mph in the west, upslope/upvalley 5 to 10 mph in the east.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northern Rockies Area Upper level low will move towards the area producing unstable southwest flow. Expect mostly cloudy skies with scattered showers and thunderstorms over central Idaho and most of Montana. Southeast Montana and western North Dakota may see stronger thunderstorms. Temperatures will be cooler.	West of divide – 74 to 84. East of divide – 80 to 90. North Dakota – 80 to 90.	West of divide – 20 to 30. East of divide - 18 to 28. North Dakota - 30 to 40.	West of divide West 4 to 8 mph. East of divide East 4 to 8 mph. North Dakota East to - Southeast 5 to 10 mph.
Northern California Area Sunny. A chance of thunderstorms near the OR border until early afternoon.	Warmest inland areas 80s to low 90s.	12 to 25 east of the Cascade-Sierra crest and 17 to 32 elsewhere inland.	South to west 10 to 20 mph with gusts to 35 mph east of the crest, and south to SW 7 to 17 mph with gusts to 27 mph elsewhere.
Rocky Mountain Area Isolated to widely scattered thunderstorms, a few dry over Wyoming. Otherwise, partly cloudy.	85 to 95, with 75 to 85 in the mountains.	8 to 18% across the lower elevations of Wyoming, with 18 to 30% elsewhere.	South 10 to 20 mph.
Western Great Basin Area Mostly sunny, windy and dry. Slight chance for a thunderstorm far northwest. Isolated wet thunderstorms far southeast.	Northern Valleys: 82-92 Southern Valleys: 90-105 Northern Mountains: 65-80 Southern Mountains: 78-88	Northern Valleys: 8 to 15%. Southern Valleys: 8 to 18%. Northern Mountains: 10 to 20%. Southern Mountains: 12 to 22%	South to west 12 to 25 mph with widespread gusts to 40 mph northern half.
Southern Area Northeast Oklahoma: Partly cloudy, chance for thunderstorms. Central-North Texas: Partly cloudy and hot. Florida: Partly cloudy, slight chance for isolated thunderstorms.	Upper 90s. Near 100 to low 100s. Low 90s.	Mid 30s. Upper 20s to 30. Mid 40s to 50s.	NE to 6 mph. South to 8 mph. East/southeast to 8 mph.
Southern California Area Morning low clouds and fog coastal and coastal valleys, otherwise mostly sunny.	80 to 90 mountains. 85 to 95 valleys. 95 to 100 upper deserts. 105 to 110 lower deserts.	50 to 70 coastal areas. 25 to 40 valleys. 5 to 15 mountains except 25 to 40 lower coastal slopes. 5 to 15 deserts.	Southeast to southwest 5 to 15 mph except locally 20 to 30 mph deserts and mountain passes in the afternoon.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Eastern Area A chance of showers and thunderstorms across far northwestern Minnesota, far western Missouri, and far western Iowa. Fair elsewhere.	82 to 87 across the western Great Lakes, Iowa, northern Missouri, northern Illinois, and Indiana. 71 to 77 across the Northeast states. 86 to 91 over southern Missouri and southern Illinois. 77 to 82 elsewhere.	28 to 33% across the eastern and northern Great Lakes and Iowa. 33 to 38% across the central Great Lakes, Missouri, Illinois, Indiana, and the western Mid-Atlantic states. Greater than 38% elsewhere.	South wind increasing to 15 to 25 mph across western and northwest Minnesota and western Iowa. South at 10 to 20 mph across central parts of Minnesota and Iowa. Light to moderate winds elsewhere.
Southwest Area No information reported.

PROPER USE OF TRIGGER POINTS

Accurate situational awareness (SA) requires constant reassessment of conditions (existing or potential) that may impact the safety and effectiveness of firefighters. Keeping an eye out for the 18-Watchout Situations and establishing operational / environmental limits ("trigger points") ahead of time can help to focus SA, prompt reassessment, and help you re-evaluate the risk of current actions. The following items are things to consider in your planning and discussion. Remember, trigger points are NOT decision makers, but serve as predetermined cues to prompt you to re-evaluate the situation and associated risks, and help you to determine and implement the proper course of action.

- Preplan! Don't wait until you're in the wrong place at the wrong time---with no time.
- Trigger points should be based on measurable factors such as:
 - RH
 - Winds
 - Fire Behavior
 - Topographical boundaries
 - Time constraints/Time of day
 - Time/distance to safety zones
 - Loss of support resources (airtankers, helicopters, etc.)
 - Other operational considerations (e.g., firefighter fatigue, loss of lookouts or communication, etc.)
- As you approach predetermined trigger points, go through the Risk Management Process to help you decide if a change in tactics is appropriate. (See the Incident Response Pocket Guide)
 - Gather information to assure good Situational Awareness
 - Assess hazards to anticipate serious risks
 - Establish hazard controls to mitigate serious risks
 - Make decisions based on your ability to mitigate those serious risks
 - Evaluate effectiveness of current actions
- Command/Leadership responsibilities when changing tactics
 - Communicate the changes to your subordinates, as well as to adjacent forces and up the chain of command
 - Account for all your people
 - Make sure everyone knows and follows the new plan
