

**INCIDENT MANAGEMENT SITUATION REPORT**  
**MONDAY, AUGUST 21, 2006 0530 MDT**  
**NATIONAL PREPAREDNESS LEVEL 5**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 126 new fires reported. Seven new large fires (\*) were reported, two each in the Eastern Great Basin, and Western Great Basin Areas, and one each in the Northwest, Northern Rockies and Southern California Areas. Six large fires were contained, three in the Eastern Great Basin Area, two in the Southern Area, and one in the Northern Rockies Area. Very high to extreme fire indices were reported in Arizona, Arkansas, California, Colorado, Idaho, Montana, Nebraska, Nevada, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

On August 17<sup>th</sup> a firefighter was fatally injured on the Devil's Den fire near Oak City, UT. The firefighting community extends condolences to the family and friends of the deceased.

Two MAFFS C-130 aircraft and support personnel from the 153<sup>rd</sup> Airlift Wing ANG, Cheyenne, Wyoming are deployed to Klamath Falls, Oregon. Lt. Col. Don Taylor is the Mission Commander. Two other MAFFS C-130 aircraft and support personnel from the 146<sup>th</sup> Airlift Wing ANG, Channel Islands, California are deployed to Boise, Idaho. Lt. Col. Glen Bourne is the Mission Commander.

The U.S. Army Task Force Blaze, commanded by Maj. Jody Miller, is deployed to the Tripod Complex in Washington.

**EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:**

An Area Command Team (Zimmerman) is assigned to manage fires on the Payette National Forest.

DEVIL'S DEN, Fishlake National Forest. A Type 1 Incident Management Team (Feser) is assigned. This fire is three miles southeast of Oak City, UT in mahogany, pinyon pine, juniper and Gambel oak. The town of Oak City, watersheds and archaeological sites are threatened. A campground remains closed. Rugged and inaccessible terrain is hampering containment efforts. Active fire behavior was observed.

FACER, Bear River Area, Utah State Division of Forestry Fire and State Lands. This fire is one mile northeast of Mantua, UT in timber, sagebrush and grass. Residences, the Mantua Reservoir facilities and communication site remain threatened. Smoldering was observed.

CRYSTAL, Idaho Falls District, Bureau of Land Management. A Type 2 Incident Management Team (Raley) is assigned. This fire is 20 miles northwest of American Falls, ID in grass. Minimal fire activity was observed.

PILOT, Bear River Area, Utah State Division of Forestry Fire and State Lands. This fire is 19 miles north of Wendover, UT in grass, sagebrush, pinyon pine and juniper. Steep, rugged terrain is hampering containment efforts. Isolated torching, creeping and smoldering were observed.

POTATO, Salmon-Challis National Forest. A Type 1 Incident Management Team (Broyles) is assigned. This fire is nine miles northeast of Stanley, ID in timber. Residences, historical sites, fisheries, power lines, mining resources and recreation sites remain threatened. Accessibility and steep terrain are hampering containment efforts. Creeping, smoldering, single and group tree torching were observed.

SOUTH FORK COMPLEX, Payette National Forest. A Type 2 Incident Management Team (Reed) is assigned. This Complex, comprised of 26 fires, is 13 miles east of McCall, ID in timber. Structure protection for the town of Yellow Pine and Krassel Work Center remains in place. Lick Creek and South Fork Salmon River roads remain closed. Moderate fire behavior with isolated torching and creeping was observed.

RED MOUNTAIN, Boise National Forest. A Type 2 Incident Management Team (Lund) is assigned. This fire is 16 miles northeast of Lowman, ID in subalpine fir and lodgepole pine. Fisheries are threatened. Difficult access and rugged terrain are hampering containment efforts. Group torching, short runs and spotting up to one quarter mile were observed.

HORSE CREEK, Bridger Teton National Forest. This fire is located 6 miles northeast of Hoback Junction, WY in timber and heavy dead and down fuels. Limited access and steep terrain are hampering containment efforts. Isolated torching and creeping were observed.

HECHTMAN, Grand Teton National Park. This lightning caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning seven miles southwest of Flagg Ranch, WY in lodgepole pine, spruce and fir. This will be the last narrative unless significant activity occurs.

BOUNDARY COMPLEX, Salmon-Challis National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This complex, comprised of three fires and four Wildland Fire Use incidents, is 14 miles southeast of Landmark, ID in grass, subalpine fir and mixed conifer. Difficult access and steep terrain are hampering containment efforts. Fisheries, cultural resources, campgrounds and a mine remain threatened. The Boundary Creek Area is closed to public access. Interior group tree torching, short runs and short range spotting were observed.

MIDDLE FORK COMPLEX, Salmon-Challis National Forest. A Fire Use Incident Management Team (Svalberg) is assigned. This lightning caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fires are burning 30 miles west of Challis, ID in mixed conifer and light fuels. Residences, campgrounds, and fisheries are threatened. Structure protection is in place. Moderate fire behavior with upslope runs, torching and spotting was observed.

TROUT CREEK, Payette National Forest. A Type 2 Incident Management Team (Kusicko) is assigned. This fire is 50 miles northeast of McCall, ID in timber and grass. Several structures remain threatened, and structure protection is in place. Steep terrain and poor access are hampering containment efforts. Smoldering and occasional flare-ups were reported.

PAYETTE WFU COMPLEX, Payette National Forest. A Fire Use Management Team (Hall) is assigned. This lightning caused Wildland Fire Use (WFU) incident, comprised of 12 fires, is being managed to accomplish resource objectives. The fires are burning 20 to 50 miles northeast of McCall, ID in timber. Structure protection is in place for Cabin Creek and Taylor Ranch. Moderate fire behavior increased due to weather.

### NORTHWEST AREA INCIDENTS/LARGE FIRES:

TRIPOD COMPLEX, Okanogan-Wenatchee National Forest. Two Type 1 Incident Management Teams (Molumby and Lohrey) are assigned. A Type 1 Incident Management Team (Whitney) has been ordered. This Complex is seven miles northeast of Winthrop, WA in mixed conifer. Numerous residences and other structures remain threatened. Fire behavior increased with running, group torching and spotting up to one mile.

CASCADE CREST COMPLEX, Willamette National Forest. A Type 1 Incident Management Team (Anderson) is assigned. A Type 1 Incident Management Team (Wilcock) has been ordered. This complex, comprised of the Lake George, Puzzle and Black Crater Fires, is ten miles southeast of Idanha, OR in timber and heavy dead and down fuels. Structures, communication sites and a fish hatchery are threatened. Moderate fire behavior was observed.

MT. HOOD COMPLEX, Mt. Hood National Forest. A Type 2 Incident Management Team (West) is assigned. This Complex, comprised of 13 fires, is six miles east of Government Camp, OR in timber and heavy downed fuels. Repeater sites, lookouts and campgrounds are threatened. Campgrounds, trails and other recreation sites remain closed. Steep terrain and heavy fuel loading with dead and down fuels are hampering containment efforts. Very active fire behavior with group torching and short range spotting was observed.

BLISTER, Mount Hood National Forest. A Type 2 Incident Management Team (Paul) is assigned. This fire is 25 miles southeast of Mollala, OR in timber. Difficult access, steep terrain, thick undergrowth and rolling material are hampering containment efforts. Interior torching, creeping and spotting were observed.

FLICK CREEK, North Cascades National Park. A Washington Interagency Type 2 Incident Management Team (Barnett) is assigned. The Team is also managing the Tin Pan incident. This fire is three miles southeast of Stehekin, WA in ponderosa pine, Douglas fir and grass. Structures remain threatened. Some active fire behavior was observed but fire is mostly smoldering and creeping.

TIN PAN - WFU, Okanogan-Wenatchee National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning seven miles west of Lucerne, WA in timber. Lower humidity and higher temperatures produced increased fire activity with single and group tree torching observed.

SHARP RIDGE, Umatilla National Forest. A Type 2 Incident Management Team (Goheen) has been ordered. This fire is 26 miles northeast of John Day, OR in timber and heavy dead and down fuels. A Forest Service lookout and campground are threatened. Torching, spotting and moderate rates of spread were observed.

BEAR GULCH II, Olympic National Forest. This previously reported fire is 15 miles northwest of Hoodport, WA in timber. Staircase Entrance to Olympic National Park is closed. Structure protection plan is being implemented for Staircase Ranger Station. Active fire behavior was reported.

CARBON COPY, South Puget Sound, Washington Department of Natural Resources. A Type 2 Incident Management Team (LaFave) has been ordered. This fire is 13 miles southeast of Enumclaw, WA in timber and heavy dead and down fuels. Accessibility, steep rugged terrain and rolling debris are hampering containment efforts. Group torching and spotting were observed.

## **NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:**

ORLEANS COMPLEX, Six Rivers National Forest. A Type 2 Incident Management Team (Sinclair) is assigned. This Complex, comprised of the Somes and Buck fires, is east of Orleans, CA in timber and dead and down fuels. Steep rugged terrain and accessibility are hampering containment efforts. Numerous structures, cultural sites and a watershed remain threatened. Salmon River Road is closed and Highway 96 is subject to intermittent closures. Backing fire, short upslope runs and minimal torching were reported.

BAR COMPLEX, Shasta-Trinity National Forest. A Type 1 Incident Management Team (Dietrich) is assigned. This Complex, comprised of four fires, is northwest of Weaverville, CA in timber and grass. Residences and historic mining sites remain threatened. Difficult access continues to hamper containment efforts. Low intensity runs, spotting and individual tree torching were observed.

UNCLES COMPLEX, Klamath National Forest. A Fire Use Management Team (Hahnenberg) is assigned. This Complex, comprised of the Uncles, Rush, and Hancock fires, is 18 miles northeast of Orleans, CA in old growth timber and brush. Historic structures, cultural resources and wildlife habitat are threatened. Interior torching and backing fire were observed.

HAPPY CAMP, Klamath National Forest. This Complex, comprised of 15 fires, is near Happy Camp, CA in grass and timber. No new information was reported.

## **NORTHERN ROCKIES AREA INCIDENTS/LARGE FIRES:**

SAND BASIN, Beaverhead/Deerlodge National Forest. A Type 2 Incident Management Team (Grant) is assigned. This fire is 14 miles west of Phillipsburg, MT in lodgepole pine and subalpine fir. Residences are threatened. The remote location, steep terrain and difficult access are hampering containment efforts. Residences and communication sites are threatened. Increased fire activity with group torching was observed.

GASH CREEK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. This fire is six miles southwest of Victor, MT in mixed conifer and heavy dead and down fuels. Residences and a watershed are threatened. Creeping, smoldering, torching and short runs were observed.

RED EAGLE, Glacier National Park. This fire is one mile southwest of St. Mary, MT in timber. Minimal fire behavior was reported.

ULM PEAK, Idaho Panhandle National Forest. A Type 2 Incident Management Team (Reid) has been ordered. This fire is 12 miles southwest of Noxon, MT in sub-alpine fir and mountain

hemlock. A section of the Bitterroot Divide Road is closed. Group tree torching, running and mid-range spotting were observed.

STINKY, Yellowstone National Park. This fire is 37 miles south east of Gardiner, MT in lodgepole pine. Single tree torching and backing fire were observed.

### **SOUTHERN AREA INCIDENTS/LARGE FIRES:**

CADD0 2 COMPLEX, Texas Forest Service. A Unified Command between two state Type 2 Incident Management Teams (Hannemann and Floyd) is in place. A North Carolina State Type 2 Team (Hildreth) has been ordered. The Unified Command is also managing the Johnson Mountain, Parson-Picture-Black and Purgatory fires. This complex, comprised of the Hart and Kelly fires, is two miles east of Caddo, TX in brush, juniper, mesquite brush and oak. Power lines, oil and gas wells are threatened. Down power lines are hampering containment efforts. Extreme fire behavior with running, group torching and long range spotting was observed. Burn out operations are planned.

JOHNSON MOUNTAIN, Texas Forest Service. This fire is 12 miles northwest of Mineral Wells, TX in timber. Rugged terrain, and dry fuels are hampering containment efforts. Extreme fire behavior with torching, uphill runs and short range spotting was reported.

PARSON - PICTURE - BLACK, Texas Forest Service. This fire is five miles northeast of Albany, TX in heavy brush. Low to moderate fire behavior was observed.

TURNER FALLS #3, Chickasaw Agency, Bureau of Indian Affairs. This fire is located near Turner Falls, OK in timber. Residences, commercial property and power lines are threatened. Occasional torching was observed.

MILL CREEK, Oklahoma Division of Forestry. This fire is eight miles north of Centerpoint, OK in hardwood litter. No new information was reported.

### WESTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

BURNING CHAIR, Nevada Division of Forestry, Northern Region. This fire is nine miles west of Elko, NV in sagebrush, grass, pinyon pine and juniper. The community of Elko and numerous residences, highways and telephone lines are threatened. Extreme fire behavior with wind driven runs and torching was observed.

SNOW CANYON, Humboldt-Toiyabe National Forest. This fire is 65 miles north of Elko, NV in sagebrush, grass and aspen. Residences, grazing allotments and livestock are threatened. Passing thunderstorms produced erratic winds.

CHARLESTON COMPLEX, Elko Field Office, Bureau of Land Management. A transfer of command from a Type 2 Incident Management Team (Thomas) back to the local unit will occur today. This Complex, comprised of the Gopher, Sugarloaf and Charleston fires, is 55 miles north of Elko, NV in sagebrush, grass and juniper. Interior burning was reported.

TP, Elko Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Smith) is assigned. The Team is also managing the Bell Canyon fire. This fire is 23 miles southeast of Jackpot, NV in grass, sagebrush, and juniper. Reduction in acreage is due to more accurate mapping. Interior burning and torching were observed.

## ROCKY MOUNTAIN AREA INCIDENTS/LARGE FIRES:

JACKSON CANYON, Natrona County. A Type 1 Incident Management Team (Muir) is assigned. This fire is six miles south of Casper, WY in timber. All evacuation orders have been lifted. Creeping and smoldering were observed.

PURDY, Shoshone National Forest. A Type 2 Incident Management Team (Mullenix) is assigned. This fire is 21 miles west of Dubois, WY in timber and sagebrush. Numerous structures and grazing allotments are threatened. Heavy fuel loading is hampering containment efforts. Torching and slope driven spread were reported.

## SOUTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

ROARING, Sequoia & Kings Canyon National Park. This fire is one mile south of Cedar Grove, CA in Mixed conifer and chaparral. Backing fire was observed.

BRODER/BECK, Sequoia National Forest. This previously reported lightning caused Wildland Fire Use Incident (WFU) is being managed to accomplish resource objectives. The fire is burning 48 miles northeast of Porterville, CA in timber. Occasional torching and creeping were observed. This will be the last narrative report unless significant activity occurs.

MAGGIE, Sequoia National Forest. This previously reported lightning caused Wildland Fire Use Incident (WFU) is being managed to accomplish resource objectives. The fire is burning eight miles north of Camp Nelson, CA in timber. Smoldering was observed. This will be the last narrative report unless significant activity occurs.

## OUTLOOK:

**Red Flag Warnings:** for north and central Idaho panhandle for low humidity and unstable conditions. For a very small section of northwest Siskiyou county for scattered thunderstorms and very dry fuels from 1 pm to 9 pm. For Eastern Washington and Oregon for Haines Index of 6 and low relative humidity. For scattered thunderstorms and very dry fuels in southwest and south central Oregon.

**Fire Weather Watches:** Southern and central Utah mountains for dry thunderstorms on Monday for scattered thunderstorms and very dry fuels in the Central and North Oregon Cascades and the east slopes of the southern Washington Cascades. Central Nevada Mountains for strong gusty winds and low humidity.

**Weather Discussion:** Dry thunderstorms are possible today over portions of the Northwest, Great Basin, and western portion of the Northern Rockies. Thunderstorms will move east by mid week. Dry and unstable conditions continue today along the West Coast states and the Great Basin. A weather system will move across the Northwest and Northern Rockies starting Tuesday with windy conditions for the Great Basin and Intermountain West. Elsewhere, thunderstorms are expected to move into southern portions of California and Nevada by early to mid week.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>Eastern Great Basin Area</b> Idaho, Bridger-Teton: Partly cloudy. Isolated dry thunderstorms east Idaho widely scattered thunderstorms western Wyoming mountains. Northern Utah: Partly cloudy widely scattered to scattered thunderstorms mountains and Uintah Basin isolated dry thunderstorms west deserts. Southern Utah, Arizona Strip: Partly cloudy with scattered dry thunderstorms southern mountains west deserts. Widely scattered to scattered wet and dry thunderstorms east.	Idaho, Bridger-Teton: 65 to 80 mountains, 80 to 96 valleys. Northern Utah: 78 to 85 mountains, 85 to 97 valleys. Southern Utah, Arizona Strip: 78 to 90 mountains, 90 to 105 valleys, 106 to 113 in the lower valleys.	Idaho, Bridger-Teton: 13 to 25% mountains, 8 to 15% valleys. Northern Utah: 12 to 27% mountains, 10 to 15% valleys. Southern Utah, Arizona Strip: 15 to 30% mountains and east, 6 to 15% valleys.	Idaho, Bridger-Teton: South to southwest 10 to 15 mph except upslope 4 to 8 mph western Wyoming mountains. Northern Utah: South 10 to 20 mph and gusty west deserts and mountains upslope 3 to 7 mph east. Southern Utah, AZ Strip: South 10 to 15 mph except south 5 to 8 mph east.
<b>Northwest Area</b> Mostly Sunny, hot, and dry with high Haines Indices. Scattered thunderstorms in eastern Oregon and the Cascades from southern Oregon to central Washington.	West of Cascades: 80s to low 90s.  East of Cascades: 90s to low 100s	West of Cascades: 40% north to 15% south.  East of Cascades: 5% to 15%.	West to Northwest winds 5 to 15 mph.

<b>Geographic Area Weather</b>	<b>High Temperatures</b>	<b>Minimum Relative Humidity</b>	<b>Wind</b>
<b>Northern California Area</b> Partly cloudy. A chance of thunderstorms in mountainous areas, with the biggest threat in far northern and northwestern CA.	Warmest inland areas upper 80s and 90s.	East of the Cascade-Sierra crest 5 to 15%. Elsewhere inland 10 to 20%.	Southeast to southwest 7 to 15 mph with gusts to 27 mph. Inland and southwest to northwest 7 to 17 mph with gusts to 27 mph near the coast.
<b>Rocky Mountain Area</b> Isolated thunderstorms over the Colorado Front Range mountains, western sections of the plains states, and a mix of wet and dry storms in eastern Wyoming.	Mid 80s at lower elevations, except near 90 in west/southwest Colorado, with 70s in the mountains.	8% to 18% across the lower elevations of western Wyoming, with 15% to 25% in the mountains and eastern sections of Wyoming, western South Dakota, and western Colorado.	10 to 18 mph with varying directions from northeast to southeast are anticipated across locations east of the divide, with lighter winds to the west.
<b>Northern Rockies Area</b> Another hot and dry day for Idaho and Montana. Expect partly cloudy skies and isolated dry thunderstorms over the southwest and southeast of Montana. Upper level ridge will continue to dominate.	West of divide: 85 to 95 East of Divide: 86 to 92 North Dakota: 76 to 83	West of divide: 10 to 20% East of divide: 17 to 28% North Dakota: 25 to 35%	West of Divide: Variable 5 to 10 mph East of Divide: Easterly 5 to 15 mph North Dakota: Easterly 5 to 10 mph
<b>Western Great Basin Area</b> Mostly sunny, warm and dry, with increasing south to southwest winds. Slight chance for dry thunderstorms northeast and northwest corners of Nevada.	Northern Valleys: 85 to 95 Southern Valleys: 95 to 105 Northern Mountains : 75 to 85 Southern Mountains : 85 to 95	Northern Valleys: 5 to 15% Southern Valleys: 5 to 10% Northern Mountains: 10 to 20% Southern Mountains: 10 to 20%	South to southwest 10 to 15 mph with gusts to 20 to 30 mph.
<b>Southern California Area</b> Areas of morning low clouds and fog into the coastal valleys, otherwise mostly sunny.	80 to 95 mountains. 90 to 100 valleys. 95 to 105 upper deserts. 105 to 115 lower deserts.	40 to 60% coastal areas 15 to 30% valleys 5 to 15% mountains 5 to 15% deserts	Southeast to southwest 5 to 15 mph.
<b>Eastern Area</b> Scattered showers and storms possible across the western and northern Great Lakes as well as the northern Northeast states. Fair elsewhere.	70 to 80 across the northern parts of the Great Lakes and the Northeast states. 80 to 86 elsewhere.	35 to 40% across the northwest Great Lakes, southern Northeast, and eastern Mid-Atlantic states. Greater than 40% elsewhere.	West to northwest at 10 to 20 mph over the northern Great Lakes. Southwest winds at 10 to 18 mph across the central and eastern Great Lakes. Light to moderate winds elsewhere.
<b>Southern Area</b> No information reported.			
<b>Southwest Area</b> No information reported.

### **IN COUNTRY NOT SEEN IN DAYLIGHT**

Often firefighters arrive on a fire after dark. This is recognized as Watchout Situation #2. Before safely fighting fire in country not seen in daylight, firefighters must be able to answer the following questions:

- Can the resources you are replacing give you a thorough briefing? Identify whom you might get information from. Can you meet up with the departing crew/engine leaders?
- Can you observe the area/use scouts? List ways you could observe the area you need to work.
- Have escape routes and safety zones been thoroughly scouted and marked for night use? Talk about what constitutes an escape route and a safety zone; who would identify them; and in what ways might they be marked.
- Have potential dangers been located; can they be mitigated? What are the dangers associated with Watchout Situation #2? How can they be worked around?
- Reduce the risks by:
  - Posting lookouts.
  - Checking communications.
  - Retreat if you have doubts about your escape routes or safety zones or the situation becomes too complex. Give examples of arriving on a fire after dark and what was done to allow you to fight fire safely in country not seen in daylight.
