

**INCIDENT MANAGEMENT SITUATION REPORT**  
**MONDAY MAY 1, 2006 0530 MDT**  
**NATIONAL PREPAREDNESS LEVEL 2**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 9 new fires reported. Four new large fires were reported, three in the Eastern Area, and one in the Southern Area. One large fire was contained in the Southern Area. Very high to extreme fire indices were reported in Arizona, New Mexico, Texas, Colorado, Kansas, Michigan and Minnesota.

**SOUTHERN AREA INCIDENTS/LARGE FIRES:**

SIX PACK, Big Cypress National Preserve. A Type 1 Incident Management Team (Custer) is assigned. This fire is 20 miles northeast of Ochopee, FL in southern rough. One new fire was reported near ICP, and is being managed by the Team. Burn out operations along control lines have been completed.

WEST TEXAS IA, Texas Forest Service. A Texas State Type 2 Team (Rogers) is assigned in Midland, TX. The Team is assisting local jurisdictions with managing initial and extended attack fires within the 140 million acre fire management response area. One new fire for 15 acres was reported within the management area. Acres, structure losses and costs represent cumulative fire activity for the response area.

CORBETT TRAIL, Florida Division of Forestry. This fire is four miles south of Indiantown, FL in grass. No new information was reported. This will be the last report unless new information is received.

FL SPORTS PARK, Florida Division of Forestry. This fire is near Naples, FL in southern rough. No new information was reported. This will be the last report unless new information is received.

ACERA, Florida Division of Forestry. This fire is six miles northwest of Sharpes, FL in southern rough. No new information was reported. This will be the last report unless new information is received.

GARCON-EASTER, Florida Division of Forestry. This fire is six miles south of Bagdad, FL in grass. No new information was reported. This will be the last report unless new information is received.

## EASTERN AREA INCIDENTS/LARGE FIRES:

**HUGHES LAKE**, Huron-Manistee National Forest. This fire is five miles south of Luzerne, MI in timber. Gusty winds and low relative humidity are hampering suppression efforts.

**DELTA**, Massachusetts Bureau of Forest Fire Control. This fire is three miles east of Leominster, MA in grass, oak and hardwood litter. Running surface fire with occasional torching was reported. Unexploded ordnance within the burn area is hampering containment efforts. Smoke is impacting the community of Lancaster.

**INDIANTOWN GAP**, Pennsylvania Division of Forest Fire Protection. This fire is near Fort Indiantown, PA in brush and hardwood slash. A portion of the fire is burning within a military impact zone, limiting suppression efforts to portions of the fire that escape the impact zone.

* INDIANTOWN GAP	PA	PAS	350	90	UNK	63	3	6	1	0	NR	ST

## OUTLOOK:

**Red Flag Warnings:** In effect for most of Florida for long durations of humidities less than 35% along with moderately gusty winds to about 15 mph.

**Fire Weather Watches:** None for Monday; Most of Florida for Tuesday.

**Weather Discussion:** High pressure will cover much of the nation with low humidity over the Southwest and along the entire East Coast. A slow moving low pressure system will bring showers to the Great Lakes region.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>Southern Area</b> Florida: Partly cloudy.	80s.	30 to low 40%.	Northeast 10 to 15 mph.
<b>Southwest Area</b> Mostly sunny, warmer and drier most areas. Partly cloudy with isolated rain showers northern Arizona and New Mexico.	Mid 70s to mid 90s lower elevations and mid 50s to mid 70s higher elevations.	8 to 18% lower elevations and 18% to 28% higher elevations.	West 10 to 20 mph.
<b>Rocky Mountain Area</b> A few showers lingering in the morning over eastern Colorado, otherwise partly sunny.	65 to 75.	15 to 25% lower elevations of western/southern Colorado and southwest Wyoming, with higher values elsewhere.	Increasing in the afternoon from the west at 10 to 20 mph in western and northern portions, and 10 to 15 elsewhere.
<b>Eastern Area</b> No information reported.

### **Standard Fire Orders**

The NWCG approved a revision of the Standard Fire Orders, in accordance with their original arrangements. The orders are arranged according to their importance and grouped in logical sequence. Review and consider Standard Fire Orders as a part of every shift.

- Did you receive or request adequate weather briefing, current and predicted fire behavior, wind direction, predicted humidity, fuel moisture, local factor?
- Do you have map of the fire? Is topography, type of fuels, direction of the spread defined?
- Fire behavior group deals with what the firefighter will encounter - weather, fire status, fire behavior.
  1. Keep informed on fire weather conditions and forecasts.
  2. Know what your fire is doing at all times.
  3. Base all actions on current and expected behavior of the fire.
- Are you familiar with direction, distance, location, size of escape routes and safety zones?
- Discuss the need for lookout, such as extreme fire behavior, fire located out of line-of-sight.
- Discuss importance of the situational awareness.
- Fireline safety group emphasizes personal safety.
  4. Identify escape routes and safety zones and make them known.
  5. Post lookouts when there is possible danger.
  6. Be alert. Keep calm. Think clearly. Act decisively.
- Review importance and means of passing tactical decisions and resource movement.
- Review other factors influencing potential changes in tactics, which could affect control of your forces.
- Organizational Control group is centered around tactical decisions.
  7. Maintain prompt communications with your forces, your supervisor and adjoining forces.
  8. Give clear instructions and insure they are understood.
  9. Maintain control of your forces at all time.
- After you have considered, discussed and acted on the previous nine orders:
  10. Fight fire aggressively, having provided for safety first.
