

**National Interagency Coordination Center  
Incident Management Situation Report  
Saturday, October 21, 2006 - 0800 MDT  
National Preparedness Level 1**

**National Fire Activity**

Initial attack activity: Light (51 new fires)

New large fires: 0 (\*)

Large fires contained: 0

Uncontained large fires: 2

Area Command Teams:

Type 1 IMTs committed:

Type 2 IMTs committed:

Fire Use Teams:

\*\* Uncontained large fires do not include WFU or confine/contain incidents. \*\*

**Northern California Area (PL 2)**

New fires: 7

New large fires: 0

Uncontained large fires: 2

**Bar Complex** (three fires), Shasta-Trinity NF. Fourteen miles northwest of Weaverville, CA. Timber and brush. No new information reported. Last report unless significant activity occurs.

**Uncles Complex** (three fires), Klamath NF. Eighteen miles northeast of Orleans, CA. Old growth timber and brush. Smoldering and creeping. Last report unless significant activity occurs.

## Predictive Services Discussion

**Warm and dry weather will continue in California this weekend.** Southern California will be very warm and dry this weekend with locally gusty offshore winds. Cooler weather with higher humidity is on tap Monday and Tuesday. Northern California should see warm and dry weather through Tuesday. Gusty northeast winds are expected Saturday.

### Standard Fire Orders

The NWCG approved a revision of the Standard Fire Orders, in accordance with their original arrangements. The orders are arranged according to their importance and grouped in logical sequence. Review and consider Standard Fire Orders as a part of every shift.

- Did you receive or request adequate weather briefing, current and predicted fire behavior, wind direction, predicted humidity, fuel moisture, local factor?
- Do you have map of the fire? Is topography, type of fuels, direction of the spread defined?
- Fire behavior group deals with what the firefighter will encounter - weather, fire status, fire behavior.
  1. Keep informed on fire weather conditions and forecasts.
  2. Know what your fire is doing at all times.
  3. Base all actions on current and expected behavior of the fire.
- Are you familiar with direction, distance, location, size of escape routes and safety zones?
- Discuss the need for lookout, such as extreme fire behavior, fire located out of line-of-sight.
- Discuss importance of the situational awareness.
- Fireline safety group emphasizes personal safety.
  4. Identify escape routes and safety zones and make them known.
  5. Post lookouts when there is possible danger.
  6. Be alert. Keep calm. Think clearly. Act decisively.
- Review importance and means of passing tactical decisions and resource movement.
- Review other factors influencing potential changes in tactics, which could affect control of your forces.
- Organizational Control group is centered around tactical decisions.
  7. Maintain prompt communications with your forces, your supervisor and adjoining forces.
  8. Give clear instructions and insure they are understood.
  9. Maintain control of your forces at all time.
- After you have considered, discussed and acted on the previous nine orders:
  10. Fight fire aggressively, having provided for safety first.
