

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, April 24, 2007 - 1000 MDT
National Preparedness Level 1**

National Fire Activity

Initial attack activity:	Heavy 473 (new fires)
New large fires:	4 (*)
Large fires contained:	0
Uncontained large fires:	12
Area Command Teams:	
NIMOs committed:	1
Type 1 IMTs committed:	
Type 2 IMTs committed:	2
Fire Use Teams committed:	

** Uncontained large fires do not include WFU or confine/contain incidents. **

Southern Area (PL 3)

New fires:	270
New large fires:	2
Uncontained large fires:	9
NIMOs committed:	1
Type 2 IMTs committed:	2

Sweat Farm Road, Georgia Forestry Commission. IMT 2 (Floyd). NIMO (Ferguson). Started on private land 10 miles southeast of Waycross, GA. Southern rough and timber. Intense fire behavior with spotting. Evacuations from Eight Mile road to Highway 84 have been lifted. Highways 82, 84 122 and US 1 continue to be impacted by smoke. Reduction in acreage due to more accurate mapping.

Big Turnaround, Okefenokee NWR. IMT 2 (Wilder). Ten miles southeast of Waycross, GA. Southern rough, timber and gallberry. Torching. Numerous road closures in affect.

Carnsaw, Ouachita NF. Ten miles northeast of Broken Bow, AR. Hardwood litter. Minimal fire activity. No further information received.

Bull Creek, Kentucky DOF. Four miles north of Hyden, KY. Hardwood litter. Moderate fire activity. No further information.

New Berry, North Carolina State DOF. Three miles north of Old Fort, NC. Timber. Moderate fire behavior. No further information.

Black Aggie, Oklahoma DOF. Started on private land seven miles southeast of Locust Grove, OK. Timber understory. No new information.

Workman Mtn., Oklahoma DOF. Started on private land six miles southeast of Stilwell, OK. No new information.

Lukin Ridge, Oklahoma DOF. Started on private land six miles south of Jay, OK. No new information.

Burns Lake, Big Cypress National Preserve. Eight miles east of Ochopee, FL. Southern rough. Backing and flanking fire.

HAZARDOUS MATERIALS ENCOUNTERS

Employees who may encounter hazardous materials in the field should be trained as mandated by OSHA 1910.120 (q), First Responder Awareness Level. However, employees should always recognize that hazmat encounters require special precautions.

● Hazardous materials in the field include, but are not limited to:

- Clandestine drug waste – waste as a result of “meth” labs, etc., which may look like common household trash at first glance. Drug lab waste can be identified by the presence of gallon plastic jugs, large plastic bags, 5-gallon buckets, and laboratory equipment (tubes and beakers).
- Midnight dumping – may be recognized by the presence of barrels or other containers, discoloration of land, plants, or water, and/or dead vegetation and animals.
- Transportation accidents – truck, rail, or pipeline accidents may result in the spillage or release of hazardous materials that may result in danger to life, property, or resources.

● In all instances, self-protection is your primary responsibility.

● Respond to all encounters by implementing the Three Rs:

- Recognize: Attempt to identify the substance using the North American Emergency Response Guide, occupancy/location, placards/labels, container shapes/colors, and/or MSDS shipping papers.
- Retreat: Move upwind, upgrade, or upstream; isolate the material; and deny entry to the site. Guidelines for isolation distances include: 150 feet for a minor incident (1 drum, 1 bag, etc.); 500 feet for a major incident (more than 1 drum, etc.); 300 feet for a residential and light commercial incident; 1,000 feet for an open area; 2,500 feet for an incident with BLEVE potential; 2,500 feet for the staging area (must be upwind with vehicles in a headed-out position)
- Report: Notify your supervisor and agency dispatcher. Request hazmat assistance via a safe route.
