

**National Interagency Coordination Center
Incident Management Situation Report
Friday, April 27, 2007 - 1000 MDT
National Preparedness Level 1**

National Fire Activity

Initial attack activity:	140 (Light)
New large fires:	3 (*)
Large fires contained:	1
Uncontained large fires:	9
Area Command Teams committed:	
NIMOs committed:	1
Type 1 IMTs committed:	
Type 2 IMTs committed:	3
Fire Use Teams committed:	

** Uncontained large fires do not include WFU or confine/contain incidents. **

Southern Area (PL 3)

New fires:	53
New large fires:	2
Uncontained large fires:	8
NIMOs committed:	1
Type 2 IMTs committed:	3

Sweat Farm Road, Georgia Forestry Commission. IMT 2 (Floyd) and NIMO (Ferguson). Started on private land 10 miles southeast of Waycross, GA. Southern rough and timber. High rates of spread and spotting. School closures and evacuations remain in place.

Pinnacle, National Forests in North Carolina. IMT 2 (Raley). Fifteen miles east of North Cove, NC. Hardwood litter and timber. Extreme fire activity. Burning in wilderness area.

Big Turnaround Complex, Okefenokee NWR. IMT 2 (Wilder). Ten miles southeast of Waycross, GA. Southern rough, timber and gallberry. High rates of spread with torching and spotting.

Knee Knocker Swamp, Georgia Forestry Commission. Previously reported. Two miles northwest of Nahunta, GA. Southern rough. Long range spotting and 50 foot flame lengths. Numerous residences threatened.

Topsail Tower, North Carolina DOF. Five miles north of Hampstead, NC. Brush. Long range spotting and crown fire. Residences evacuated.

Friar, George Washington & Jefferson NF. Five miles north of Amherst, VA. Hardwood litter. Minimal fire activity

Burns Lake, Big Cypress National Preserve. Eight miles east of Ochopee, FL. Southern rough. No new information.

Two Sided, Eglin Air Force Base. Two miles south of Holt, FL. Southern rough. No new information.

Predictive Services Discussion: A weakening front will bring a few showers to the Georgia coast and much of Florida. However, drier air will begin to spread into the rest of Georgia and the Florida panhandle today and across the entire region over the weekend. Rain today in the Eastern Area will diminish Saturday with dry weather returning Sunday. The Southwest will be hot and dry, while Southern California will see very warm weather, low humidity and gusty winds today and Saturday.

HELICOPTER PERFORMANCE AND EFFECTIVENESS

Certain helicopter missions push the limits of the aircraft's performance capabilities. Items that reduce the effectiveness and increase the risk of the mission include weight, temperature, altitude, and visibility.

- Helicopter missions that transport external loads increase risk.
- Helicopters reach their maximum performance capabilities as temperature and/or altitude increase.
- All helicopters have different maximum performance capabilities, so be aware of the capabilities of the specific helicopter that you are working with.
- Low-level helicopter operations often occur in heavy smoke where hazards (e.g., trees, snags, antennas, visibility, turbulence, and other aircraft) increase the risk level significantly.
- Determine the risk level for every mission. Is the risk level acceptable? Can the risk be mitigated? If the risk is not acceptable or it cannot be mitigated, then the mission should not be flown.
- A large part of the success of a helicopter mission is the result of good communications between the pilot and the user on the ground.
- Accurate target and hazard descriptions are essential to a safe mission. Locate this information and relay it to the pilot. Things to consider in the target description include:
 - Have you considered what the target would look like from the air?
 - Are you located where the pilot can see you?
 - Do you have a signal mirror?
 - Are you using cardinal directions or clock directions in relation to the track of the aircraft?
 - What is the wind direction? Provide this information to the pilot.
 - Are all firefighters clear of the drop area?
 - Is there a safer way to carry out an effective suppression action?
