

**National Interagency Coordination Center
Incident Management Situation Report
Wednesday, March 28, 2007 - 1000 MDT
National Preparedness Level 1**

National Fire Activity (Weekly Total)

Initial attack activity: Moderate (1,079 new fires)
 New large fires: 35 (*)
 Large fires contained: 39
 Uncontained large fires: 4
 Area Command Teams:
 Type 1 IMTs committed:
 Type 2 IMTs committed:
 Fire Use Teams:

** Uncontained large fires do not include WFU or confine/contain incidents. **

Southern Area (PL 2)

New fires: 1,022
 New large fires: 34
 Uncontained large fires: 4

Edwards Point, Tennessee DOF. Six miles northwest of Chattanooga, TN. Hardwood litter. Spotting. Community of Signal Mountain and gas pipeline threatened.

Owl Mountain, Oklahoma DOF. Twelve miles southeast of Tahlequah, OK. Hardwood timber. Some activity in the interior with hot spots close to the fireline.

Preston Branch, Kentucky DOF. Three miles east of Paintsville, KY. Grass understory. Moderate flame spread.

Crawford, George Washington & Jefferson NF. Two miles west of Buffloa Gap, VA. Hardwood litter. Minimal fire spread. Summer cabin threatened.

MOS - Missouri Department of Conservation

Predictive Services Discussion: Showers will move along the warm frontal boundary today, across the central portions of TN and KY, gradually expanding eastward toward the Appalachian Mountains by nightfall. Locally heavy rain is a possibility in the mountains of KY and VA this evening. This area of rain will move into VA and NC overnight, and then off the coast during the day on Thursday. A few showers will be possible late this afternoon in the Panhandles of OK and TX, but this will only be a precursor to the rain that is forecast over that area tonight and Thursday.

Topic of Choice

Six Minutes for Safety encourages firefighters to use the "Topic of Choice" days to discuss events or issues that have occurred in the past, that might provide lessons for doing better, safer work today. Suggested websites to use as references include:

- The Interagency Investigation Review Database- Search this database to find historical documents from wildland fire incidents. The available documents include 24 and 48 hour reports, factual accident investigation reports, escaped prescribed fire reviews and more.

<http://www.wildfirelessons.net/IIRDB.aspx>

- SAFENET- Search recent submissions to find problems and solutions encountered in every aspect of Wildland fire.

<http://safenet.nifc.gov/safenet.nsf/>

- Safety Alerts- This site catalogues all the Safety Alerts sent by the NWCG Safety and Health Working Team over the last five years.

<http://safenet.nifc.gov/notice.nsf>

- Job Hazard Analysis Library- This web based fire JHA library was jointly developed by FFAST and Region 1 of the Forest Service. Numerous JHA's are posted on the site as well as instructions on how to prepare a JHA

http://www.fs.fed.us/r1/people/jha/jha_index_www.html

- After Action Reviews and Rollups- Lessons and practices which are distilled and distributed as knowledge products to the wildland fire community through the Wildland Fire Lessons Learned Center.

<http://www.wildfirelessons.net/AAR.aspx>

- Incident Toolbox- A collection of tactics, techniques and procedures that have proven to work in various parts of the country and on various types of incidents. Includes information on fuels, strategy, tactics, special safety and logistical concerns in any part of the country.

<http://www.wildfirelessons.net/Winning.aspx?Page=Overview>

- FireFit- FireFit is a program intended to provide the interagency wildland fire community with a comprehensive, easy-to-follow, fitness program with the ultimate goal of improving firefighter safety and health and reducing injuries.
