

**National Interagency Coordination Center  
Incident Management Situation Report  
Friday May 18, 2007 - 0530 MDT  
National Preparedness Level 2**

**National Fire Activity**

Initial attack activity:	129 (Light)
New large fires:	3 (*)
Large fires contained:	4
Uncontained large fires:	17
Area Command Teams committed:	1
NIMOs committed:	2
Type 1 IMTs committed:	5
Type 2 IMTs committed:	3

Fire Use Teams committed:

\*\* Uncontained large fires do not include WFU or confine/contain incidents. \*\*

**Southern Area (PL 5)**

New fires:	45
New large fires:	3
Uncontained large fires:	13
Area Command Teams committed:	1
NIMOs committed:	1
Type 1 IMTs committed:	4
Type 2 IMTs committed:	2

Area Command Team (Rounsville) assigned to assist with creating a strategic plan for suppression action in Florida.

**Florida Bugaboo**, National Forests in Florida. Unified Command between IMT 1 (Quesinberry) and Florida DOF (Greene). NIMO (Ferguson). Baker County, FL. Southern rough. Extreme fire behavior with torching and spotting. Numerous structures in several communities remain threatened.

**Bugaboo Scrub**, Okefenokee NWR. Transfer of command from IMT 1 (Ruggiero) to IMT 1 (Oltrogge). IMT also managing the Big Turnaround fire. Sixteen miles west of Folkston, GA. Southern rough and timber. Creeping and smoldering. Numerous structures and a state park remain threatened.

**Bugaboo Scrub 2**, Georgia Forestry Commission. IMT 2 (Hannemann). IMT also managing the Sweat Farm Road, Roundabout Swamp and KneeKnocker Swamp fires. Started on private land five miles east of Fargo, GA. Southern rough and timber. Moderate fire activity with single and group tree torching and short range spotting. Numerous structures remain threatened.

**Big Turnaround Complex** (two fires), Okefenokee NWR. Ten miles southeast of Waycross, GA. Southern rough and timber. Running fire. A community, refuge facilities, railroad infrastructure and microwave installation threatened.

**BICY Complex** (five fires), Big Cypress National Preserve. IMT 1 (Stanich). Fifty-one miles west of Ft. Lauderdale, FL. Southern rough. Increased fire activity. One community, isolated structures and petroleum equipment remain threatened.

**Dairy Road**, Florida DOF. Seven miles northwest of Keystone Heights, FL. Southern rough. Numerous residences remain threatened. Numerous spot fires occurring.

**Sweat Farm Road**, Georgia Forestry Commission. Started on private land 10 miles west of Waycross, GA. Southern rough and timber. Moderate fire activity. Structures, a state forest and refuge remain threatened.

**Roundabout Swamp**, Georgia Forestry Commission. Started on private land four miles west of Pearson, GA. Southern rough and timber. Minimal fire activity. Communities of Kirkland and Pearson are threatened.

**Knee Knocker Swamp**, Georgia Forestry Commission. One mile northwest of Nahunta, GA. Southern rough. Minimal fire activity. Numerous structures remain threatened.

**DeLand Complex** (three fires), Florida DOF. IMT 2 (Utley). Southern rough. Smoldering fire.

**Half Moon**, Timucuan Ecological & Historic Preserve, NPS. Five miles south of Yulee, FL. Southern rough. Creeping fire. Increase in acreage due to more accurate mapping.

**Callaway Height**, Florida DOF. Eight miles northeast of Callaway, FL. Southern rough. Minimal fire activity.

**Oompa**, Florida Panther National Wildlife Refuge. Twenty-five miles east of Naples, FL. Grass. Creeping fire. No further information received.

## Eastern Area (PL 3)

New fires: 17

New large fires: 0

Uncontained large fires: 3

## Type 1 IMTs committed: 1

**Ham Lake**, Superior NF. IMT 1 (Broyles). Canadian IMT is managing the portion of the fire within Canada. Forty-nine miles northeast of Grand Marais, MN. Timber and dead and down fuels. Minimal fire activity. Structures, power and telephone infrastructure remain threatened.

**Warren Grove**, New Jersey Forest Fire Service. Twenty-five miles north of Atlantic City, NJ. Hardwood litter and timber. Creeping and smoldering. Evacuations and road closures lifted.

**Correction Corner**, Minnesota Department of Natural Resources. Four miles south of Williams, MN. Grass and timber. Smoldering fire. No new information.

**Predictive Services Discussion:** Dry, windy weather is on tap for Northern Florida and southern Georgia today. Winds will diminish Saturday but low humidity will persist through the weekend. Arizona should see scattered thunderstorms today with activity decreasing over the weekend. Some of the thunderstorms will produce dry lightning. Northern Minnesota can expect warm and windy weather today before rain arrives tonight and continues over the weekend.

### **Radio Narrowbanding**

The ability to have positive, reliable communication is one of the most important safety considerations we have in Wildland fire. As we are forced to adapt to technological changes, maintaining good radio communications becomes more complex and requires a heightened level of skill and awareness from all firefighters. The following are some facts and suggestions that may make radio communications easier

- Federal Agencies are under a congressional mandate to narrowband their frequencies by January 1, 2005. State and municipal agencies will not have to follow suit until the year 2013. For firefighters trying to determine if a frequency will be narrowbanded or not, this means that it is probably a good bet that Federal frequencies (those frequencies between 162.0000 and 174.0000 Mhz) are.
- Operating your radio in the wideband mode while working in a narrowband environment may cause radio communication problems for everyone working on that channel. The symptoms may range from distorted transmissions to no transmission at all.
- Before we were mandated to work in narrowband, frequencies were listed with just three digits past the decimal point. It is imperative that we now convey frequencies with four digits past the decimal point, for example 168.xxxx
- Some firefighters mistakenly believe that if they simply punch in four numbers past the decimal point, the channel will then be narrowbanded. This is not true! Each channel must be programmed specifically to operate in wideband or narrowband. Narrowband programming instructions for most handheld radios can be found at [www.radios.nifc.gov](http://www.radios.nifc.gov)
- Check your frequency guides, plans and maps to see which mode the frequencies are supposed to be operating on. If these don't have the information you need, find it and make pen and ink notes for yourself.
- If available, have a radio technician check your radio to ensure you are operating in the proper mode on the assigned frequencies.
- Discuss the narrow/wide band concept with all firefighters, managers and pilots.
