

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, October 23, 2007 – 0800 MDT
National Preparedness Level 1**

National Fire Activity

Initial attack activity:	Light (186 new fires)
New large fires:	3 (*)
Large fires contained:	2
Uncontained large fires:	11
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	5
Type 2 IMTs committed:	0
Fire Use Teams committed:	0

** Uncontained large fires do not include WFU or confine/contain incidents. **

Southern California Area (PL 3)

New fires:	44
New large fires:	3
Uncontained large fires:	11
Type 1 IMTs committed:	5

Witch, Monte Vista Unit, CAL FIRE. CAL FIRE IMT 1 (Kerschen). One mile east of Ramona, CA. Timber, brush and grass. Extreme wind-driven fire behavior with long-range spotting. Multiple communities threatened. Evacuations in effect.

Ranch, Angeles NF. IMT 1 (Pincha-Tulley). Six miles north of Castaic, CA. Chaparral and oak woodland. Extreme fire behavior with wind-driven runs and short-range spotting. Numerous structures and utility infrastructure threatened. Road closures and evacuations in effect.

Buckweed, Los Angeles County FD. Unified Command between IMT 1 (Opliger), CAL FIRE and LA County. Fourteen miles west of Palmdale, CA. Chaparral and grass. Moderate wind-driven fire behavior. Multiple communities threatened. Transportation and utility infrastructure threatened. Evacuations in effect.

Harris, Monte Vista County FD. CAL FIRE IMT 1 (Windsor). Two miles southeast of Potrero, CA. Brush and grass. Wind-driven fire behavior with rapid rates of spread. Multiple communities and utility infrastructure threatened. Evacuations in effect.

Santiago, Orange County FD. Twelve miles east of Santa Ana, CA. Brush and grass. Wind-driven fire behavior. Multiple communities and utilities threatened. Road closures in effect.

Canyon, Los Angeles County FD. Two miles north of Malibu, CA. Chaparral. High rates of spread and long-range spotting. Numerous structures threatened. Road closures and evacuations in effect.

Rice, Monte Vista Unit, CAL FIRE. CAL FIRE IMT 1 (Morris). Seven miles east of Fallbrook, CA. Brush and grass. Extreme fire behavior with rapid rates of spread and long-range spotting. Fallbrook and Oceanside communities threatened.

Magic, Los Angeles County FD. Three miles west of Santa Clarita, CA. Chaparral and grass. Wind-driven fire activity with rapid rates of spread and spotting. Multiple communities threatened. Transportation and oil infrastructures threatened.

Poomacha, Monte Vista Unit, CAL FIRE. Seven miles east of Pauma Valley, CA. Chaparral and grass. Extreme rates of spread and long-range spotting. Structures threatened. Evacuations in effect.

McCoy, Cleveland NF. Four miles southwest of Julian, CA. Grass. Minimal fire activity with smoldering. Reduction in acreage due to more accurate mapping.

Coronado Hills, San Marcos County FD. Two miles south of San Marcos, CA. Chaparral. No new information.

LPF – Los Padres NF

RRU – Riverside Unit, CAL FIRE

Predictive Services Discussion: Dry and windy conditions will continue in southern California through Wednesday. A strong Santa Ana wind event will continue to impact the southern California mountains, valleys and coastal areas through Wednesday, with strongest winds tapering off by Tuesday afternoon. Dry and windy conditions will develop over eastern and southern New Mexico into northwest Texas. Much of the East will see precipitation through Wednesday.

Instructions And Assignments Not Clear

Every firefighter will give and receive briefings at some point on the job. Briefings are an effective way to disseminate information that can make the firefighter's job safer and easier. When giving a briefing, it is important to keep the following questions in mind and remain perceptive to how the audience is receiving the information:

- Did they ask questions? Talk about what it is like giving a briefing. Do you get empty stares? What feedback are you looking for to ensure they understand you?
- Did they take notes? What kind of information would you like to see people write down?
- Did they repeat information back? What other ways can you identify that your briefing is registering?
- Did you give all the necessary information? How will you ensure that you covered everything necessary?
 - Task
 - Location
 - Communications
 - Hazards
 - Who, when, etc.
- It is also important for the firefighter who is receiving instructions to be mindful of the following during the briefing:
 - Did you really listen? What do you do to make yourself pay attention to everything being said?
 - Did you understand the assignment, location, and the nature and location of hazards? Do you expect to figure it out for yourself when you get out there or do you step forward and ask questions?

● To reduce the risks, take the time and get it right!

● You must know the location of the assignment and:

- What is to be done.
- Who you are to report to and how often to report.
- When you are expected to complete the assignment.
- Hazards.
- Communication plan frequencies.
- Weather and fire behavior.
- Status of adjoining forces.
