Predictive Services Discussion: Dry and windy weather today for northeast California, the northern Great Basin, northern Wyoming and the Northern Rockies. A cold front will move across the northwest quarter of the country today with dry and windy conditions out ahead of it. Wet thunderstorms are expected in eastern Oregon, the northern Great Basin, western Montana and southern California. The Southeast will be mostly dry with thundershowers over the Gulf Coast states.

OPERATIONAL BRIEFINGS

Operational briefings are critical to safe fire operations. To ensure a consistent and effective briefing, a standardized briefing checklist should always be used. The following checklist is printed on the cover of the NWCG Incident Response Pocket Guide:

● Situation:

- Fire name, location, map orientation, other incidents in the area
- Terrain influences
- Fuel type and conditions
- Fire weather (previous, current, and expected)
- Fire behavior (previous, current, and expected)

● Mission/Execution:

- Command (Incident Commander/immediate supervisor)
- Commander's intent
- Specific tactical assignments
- Contingency plans

● Communications:

- Communication Plan (tactical, command, air/ground frequencies, cell phone numbers, etc.)
- Medivac Plan

● Service/Support:

- Other resources that may be working adjacent to you and those available to order
- Aviation operations
- Logistics (e.g., transportation, supplies, equipment)

● Risk Management:

- Identify known hazards and risks
- Identify control measures to eliminate hazards and reduce risk
- Identify trigger points for disengagement or reevaluation of operational plan

● Questions or Concerns
