A NIMO Team (Gage) is assigned as a planning and operational group in support of the National Multi-Agency Coordinating Group at Boise, ID.

Australia and New Zealand are providing 44 fire specialists and managers to assist with fire suppression operations in California.

Northern California Area (PL 5)

New fires:	36
New large fires:	0
Uncontained large fires:	19
Area Command Teams committed:	2
Type 1 IMTs committed:	5
Type 2 IMTs committed:	4

Area Command Team (Lohrey) is managing fire complexes on the Shasta-Trinity and Mendocino National Forests. Area Command Team (Zimmerman) is managing fire complexes on the Six Rivers and Klamath National Forests.

Rich, Plumas NF. IMT 1 (Hoff). Twenty miles west of Quincy, CA. Timber. Moderate fire behavior with backing, flanking and short-range spotting. Communities, communication site and power lines threatened. Evacuations in effect. Restricted traffic flow on state highway 70.

Panther, Klamath NF. IMT 1 (McGowan). Fourteen miles southwest of Happy Camp, CA. Timber and brush. Active fire behavior with slope-driven runs and single and group tree torching. Structures and cultural resources threatened.

Ukonom Complex, Six Rivers NF. IMT 1 (Wilcock). IMT is also managing the Siskiyou Complex and the Blue 2 fire. Ten miles east of Orleans, CA. Timber. Moderate fire with backing, flanking and short upslope runs. Structures, cultural sites, and telecommunication facility threatened.

Iron and Alps Complexes (3 fires), Shasta-Trinity NF. IMT 2 (Kaage). One mile north of Junction City, CA. Heavy timber, brush and grass. Moderate fire behavior with flanking, backing, short runs, single and group tree torching, and spotting. Numerous residences and structures threatened.

Lime Complex (2 fires), Shasta-Trinity NF. IMT 1 (Hughes). IMT 2 (Woychak) ordered. Fourteen miles west of Hayfork, CA. Timber. Moderate fire behavior with group tree torching and short-range spotting. Residences, ranches and power lines threatened. Evacuations in effect.

Bear Wallow Complex (2 fires), Klamath NF. IMT 2 (Swartzlander). Confine/contain management strategy. Thirteen miles southeast of Happy Camp, CA. Timber and brush. Moderate surface fire with isolated torching and spotting. Residences threatened.

Siskiyou Complex (2 fires), Klamath NF. Eighteen miles southwest of Happy Camp, CA. Conifer and hardwood overstory with heavy timber litter. Moderate fire behavior with backing, flanking and short upslope runs. Cultural sites threatened.

Blue 2, Six Rivers NF. Twelve miles east of Klamath, CA. Timber. Creeping and smoldering with group tree torching. Cultural and communications sites threatened. Trail and road closures in effect.

Yolla Bolly Complex (3 fires), Mendocino NF. IMT 1 (Larsen). Forty-seven miles southwest of Redding, CA. Timber. Active fire behavior with short uphill runs, isolated & group tree torching and short-range spotting. Cultural sites threatened.

Canyon Complex (5 fires), Plumas NF. IMT 2 (Sciacca). Sixteen miles northeast of Paradise, CA. Timber. Moderate fire behavior with short runs and isolated tree torching.

KNF – Kaibab NF

Predictive Services Discussion: Very hot and moderately dry conditions are expected today for parts of Texas and Oklahoma as high pressure builds in across the Red River Valley. Continued breezy conditions are expected for parts of the Northern Rockies. Isolated thunderstorms are expected to develop across the Rockies mainly east of the Continental Divide.

Fatigue/Stress

Accumulated (Chronic) Fatigue is defined as fatigue from which normal rest does not produce recovery. Accumulated fatigue is often caused by extended periods of stress with inadequate recovery periods, which results in decreased productivity, compromised immune function, and reduced alertness. Fatigued workers perform poorly, behave carelessly, tolerate greater errors and become inattentive. Chronic fatigue often results in increased stress, which may present itself through certain behavioral and physiological indicators, such as those described below:

- Decreased motivation and low morale.
- Increased irritability and depression.
- Confused, poor problem solving.
 - ☐ Poor abstract thinking
 - ☐ poor attention/decisions
 - ☐ poor concentration/memory
- Altered state of alertness.
 - ☐ A marked increased or decreased awareness of surroundings.
- Physical reactions (any of these symptoms may indicate need for medical evaluation. When in doubt, contact a medical professional).
 - ☐ chills
 - ☐ thirst
 - ☐ nausea
 - ☐ fainting
 - ☐ twitches
 - ☐ vomiting
 - ☐ dizziness
 - ☐ weakness
 - ☐ chest pain
 - ☐ headaches
 - ☐ elevated blood pressure
 - ☐ rapid heart rate
 - ☐ muscle tremors
 - ☐ profuse sweating
 - ☐ difficulty breathing
- Extreme emotional responses.
 - ☐ fear
 - ☐ panic
 - ☐ intense anger
 - ☐ emotional outbursts
 - ☐ feeling overwhelmed
 - ☐ loss of emotional control
 - ☐ inappropriate emotional response
- Social/behavioral changes.
 - ☐ withdrawn
 - ☐ antisocial acts
 - ☐ erratic movements
 - ☐ change in speech patterns
 - ☐ change in usual communications
 - ☐ alcohol or substance abuse
- Recommendations for chronic fatigue/stress are:
 - ☐ Take longer periods of rest/recovery
 - ☐ Ensure that workers are adequately rested before they begin workshifts
 - ☐ Slow the work pace to a moderate level on physically demanding tasks
 - ☐ Provide periodic rest breaks to allow physical and mental recovery
 - ☐ Alternate between heavy and light tasks
 - ☐ Change assignments to prevent boredom
 - ☐ Provide breaks, naps, or time off after tasks have been completed
 - ☐ Eat well-balanced meals regularly, with energy supplements during periods of high exertion.
 - ☐ Maintain hydration
 - ☐ Ensure workers maintain good personal hygiene
 - ☐ maintain high standards of physical fitness and work capacity
 - ☐ Seek medical attention when in doubt of symptoms
 - ☐ In extreme cases, personnel may need to be relieved of their duties.
