

**National Interagency Coordination Center
Incident Management Situation Report
Monday, June 16, 2008 – 0530 MDT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (116 new fires)
 New large fires: 5 (*)
 Large fires contained: 2
 Uncontained large fires: 14
 Area Command Teams committed: 0
 NIMOs committed: 2
 Type 1 IMTs committed: 3
 Type 2 IMTs committed: 4
 Fire Use Teams committed: 1

** Uncontained large fires do not include WFU or confine/contain incidents. **

Predictive Services Discussion: Hot and dry weather will continue for Southern California, southern Great Basin, Southwest, and southern Colorado. Isolated dry thunderstorms are possible in eastern New Mexico today. Onshore flow along the northern California coast will bring increased relative humidity and decreased temperatures, however inland areas will remain hot and dry. The Carolinas and Virginia will continue to see a few showers today.
