

**National Interagency Coordination Center
Incident Management Situation Report
Monday, August 31, 2009 – 0530 MDT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (158 new fires)
New large fires:	6 (*)
Large fires contained:	3
Uncontained large fires : **	16
Area Command Teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	4
Type 2 IMTs committed:	4

Nationally, there are 77 large fires being managed with minimal or no resource commitment that are not shown on today's report.

** Uncontained large fires do not include confine/contain and resource benefit incidents. **

[Link](#) to Geographic Area daily reports.

Southern California Area (PL 3)

New fires:	38
New large fires:	1
Uncontained large fires:	7
Type 1 IMTs committed:	3
Type 2 IMTs committed:	2

Station, Angeles NF. Unified command between IMT1 (Dietrich) and Los Angeles County FD. Four miles north of La Canada, CA. Chaparral. Extreme fire behavior. Residences and a major communications facility threatened. Road closures and evacuations in effect.

* **Oak Glen**, San Bernadino Unit, Cal Fire. Four miles north of San Bernadino, CA. Residences threatened. Evacuations in effect. No further information received.

Big Meadow, Yosemite National Park, NPS. IMT1 (McGowan). Two miles northeast of El Portal, CA. Brush. Active fire behavior with group torching. Residences threatened. Community of Foresta threatened. Road closures and evacuations in effect.

Gloria, San Benito-Monterey Unit, Cal Fire. Four miles east of Gonzales, CA. Brush and grass. Minimal fire activity.

Cottonwood, San Bernardino NF. Unified command between IMT2 (Fiorella) and Cal Fire IMT1 (Richey). Four miles east of Hemet, CA. Chaparral and grass. Smoldering.

Morris, Angeles NF. IMT2 (Woychak). Five miles north of Azusa, CA. Chaparral. Creeping and smoldering.

Ridge, Camp Pendleton Marine Corps Base, DOD. Nine miles west of Fallbrook, CA. Timber and chaparral. No new information. Last report unless new information is received.

Predictive Services Discussion: Windy conditions will continue today across portions of the Sierra Nevada, southern Great Basin, northern Arizona, Wyoming and Colorado. Gradual improvement will take place across southern California with lower temperatures and higher relative humidity. Showers and wet thunderstorms will continue today across portions of Idaho and Montana with drier storms possible in Wyoming and Colorado. Isolated thunderstorms are possible across portions of northern California and the Northwest today.

Safenet

SAFENET is a form, and process, that provides a method for reporting unsafe situations on, or off, the fireline. The information provided on the form will help collect important, safety-related data to determine long-term trends and problem areas. A SAFENET may be filled out at any time to report a valid concern about unsafe situations in fire operations, as well as document corrective action.

- Discuss the methods for filing a SAFENET.
 - Electronically (Access site through NIFC web site)
 - By hardcopy (self-addressed, stamped forms available through the cache system).
 - By phone (1-800-670-3938)
- Discuss advantages of filing a SAFENET through your supervisor versus sending it yourself.
 - Increase the chances of finding an immediate solution.
 - Keeps supervisor "in the loop."
- Discuss using SAFENET in situations other than fire.
 - Prescribed fire
 - All-risk
 - Training
- Where does a SAFENET go, and what response can you expect?
 - SAFENETs are received and stored in a database in Boise. After a SAFENET is received, the names are removed. It is then given a document number and posted to the web.
 - Every new SAFENET is then forwarded to the affected agencies designated list of contacts, which usually includes the National or Regional Safety Officer.
 - It is each agency's responsibility to insure that corrective actions are taken.
- Corrective actions can be filed by anyone at any time. They are automatically attached to the individual SAFENET on the database.
- Discuss using SAFENET to monitor safety issues other firefighters may be having.
