Incident Management Situation Report
Friday, February 6, 2009 – 0800 MST
National Preparedness Level 1**

National Fire Activity (Weekly Total)

Initial attack activity: Light (477 new fires)
 New large fires: 13 (*)
 Large fires contained: 9
 Uncontained large fires: 4
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 1
 Fire Use Teams committed: 0

** Uncontained large fires do not include WFU or confine/contain incidents. **

Southern Area (PL 1)

New fires: 438
 New large fires: 9
 Uncontained large fires: 3
 Type 2 IMTs committed: 1

2009 Winter Initial Attack, Texas Forest Service. Texas IMT 2 (Bennett). IMT supporting multiple fires in west Texas. Brush and grass. Structures threatened. Acres reported are a cumulative total.

Crescent, Oklahoma DOF. Four miles north of Crescent, OK. Grass. No further information received. No new information.

Whitehorn, Osage Agency, BIA. Six miles northwest of Hominy, OK. Hardwood litter and grass. Minimal fire activity. No new information.

KSX – Kansas Counties

Predictive Services Discussion: Northeast New Mexico, north Texas, southeast Colorado and western Kansas will be windy today with low humidity. Conditions will moderate Saturday with windy and dry weather over southeast New Mexico and west Texas Monday and Tuesday. Northern Florida, Georgia and the Carolinas will see low humidity through Saturday, with increasing humidity beginning on Sunday.

Extended Attack

After your initial sizeup of the fire and/or transfer of command from an initial attack IC, answer the following questions. Repeat this analysis whenever there is a change, or predicted change, in fire conditions.

- Do you have a current fire weather forecast for the fire location?
- Is the observed fire weather consistent with the forecast?
- Have you established a new organizational structure and communicated it to the other forces associated with the fire?
- Can you control the fire with the resources available (either on the incident or soon to be on the incident) under expected conditions?
- Have you developed a plan to attack the fire?
 - Direct or indirect
 - Anchor points
 - Escape routes
 - Head or flank attack
 - Priority areas
- Have you communicated this to all personnel assigned to the incident, including new arrivals?
- Can you see all of the fire area?
- Can you communicate with everyone on the fire and with dispatch?
- Are escape routes established?
 - If you are using the black, is it completely burned and without a reburn potential?
- Are safety and the standard fire orders being followed?
- Will you contain the fire before the next operational period?
- Have you reported the status of the fire to dispatch?
- Do you have a complete list of what resources have been ordered for the fire?
