

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, July 2, 2009 – 0530 MDT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Moderate (213 new fires)
 New large fires: 2 (*)
 Large fires contained: 2
 Uncontained large fires: 2
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 0

** Uncontained large fires do not include confine/contain incidents. **

ALS – Alabama Forestry Commission

Predictive Services Discussion: Thunderstorms will increase across the West today as moisture continues to move northward. Driest storms will be on the northwestern periphery of moisture in the western and northern Great Basin, Northern California, and Oregon. Relative humidity will begin to improve across the Southeast. A warming and drying trend will continue in Alaska with isolated dry thunderstorms possible in the eastern interior.

Operational Briefings

Operational briefings are critical to safe fire operations. To ensure a consistent and effective briefing, a standardized briefing checklist should always be used. The following checklist is printed on the cover of the NWCG Incident Response Pocket Guide:

● **Situation:**

- Fire name, location, map orientation, other incidents in the area
- Terrain influences
- Fuel type and conditions
- Fire weather (previous, current, and expected)
- Fire behavior (previous, current, and expected)

● **Mission/Execution:**

- Command (Incident Commander/immediate supervisor)
- Commander's intent
- Specific tactical assignments
- Contingency plans

● **Communications:**

- Communication Plan (tactical, command, air/ground frequencies, cell phone numbers, etc.)
- Medivac Plan

● **Service/Support:**

- Other resources that may be working adjacent to you and those available to order
- Aviation operations
- Logistics (e.g., transportation, supplies, equipment)
