

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, July 14, 2009 – 0530 MDT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Moderate (225 new fires)
 New large fires: 3 (*)
 Large fires contained: 2
 Uncontained large fires**: 20
 Area Command Teams committed: 0
 NIMOs committed: 2
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 3

Nationally, there are 43 large fires being managed with minimal or no resource commitment that are not shown on today's report.

** Uncontained large fires do not include confine/contain and resource benefit incidents. **

[Link](#) to Geographic Area daily reports.

Alaska Area (PL 3)

New fires: 7
 New large fires: 1
 Uncontained large fires: 7
 NIMOs committed: 1
 Type 2 IMTs committed: 1

Railbelt Complex (3 fires), Fairbanks Area, Alaska DOF. IMT 2 (Allen). Includes previously reported Minto Flat South fire. Twelve miles southwest of Nenana, AK. Black spruce and tussock with mixed hardwood litter. Running fire with group tree torching. Numerous structures threatened.

Shanta Creek, Kenai – Kodiak Area, Alaska DOF. NIMO (Gage). Started on FWS land twelve miles southeast of Soldotna, AK. Spruce. Moderate fire activity with isolated torching.

Rock Slough, Upper Yukon Zone, BLM. Started on FWS land, 47 miles northeast of Fort Yukon, AK. Black spruce, brush and tundra. Creeping and smoldering with isolated torching. Numerous structures threatened.

*** Upper Healy River**, Delta Area, Alaska DOF. Forty-six miles east of Delta Junction, AK. Black spruce and hardwoods. Moderate fire activity.

Logging Slash, Fairbanks Area, Alaska DOF. Twenty-three miles northeast of Nenana, AK. Mixed spruce and hardwood slash. Creeping and smoldering.

Predictive Services Discussion: Hot with low humidity in the Alaska interior today along with a few thunderstorms. Hot and dry over much of the West except for scattered thundershowers over the Northern Rockies Area. A few mixed wet and dry thunderstorms over the Four Corner States. Hot, dry and windy weather is on tap for portions of Texas and Oklahoma.

NFDRS Pocket Cards

An aid to identifying local fuels conditions that might contribute to severe fire behavior is the NFDRS Pocket Card. The Pocket Card displays a general assessment of the fire potential compared to local fire occurrence and historical fire danger. It is a tool that can be used to track daily outputs of the National Fire Danger Rating System (NFDRS) throughout the fire season for a local area.

● The Pocket Card provides:

- A general indicator of the potential for extreme fire behavior and difficulty of control.
- A graph to show the trend and status of the current year's fire season.
- A comparison of current year's conditions to historical worst and average conditions.
- Fire danger values related to past large fires.
- Locally significant values for temperature, humidity, wind speed, and more.

● Discuss the following ways to use the Pocket Card:

- Use it primarily before fires occur, before arriving to a fire, and during initial stages of fire events, such as initial fire size-up, initial attack, and extended attack.
- Use the Pocket Card to track local fire danger and in so doing increase the safety of your firefighters through increased awareness of fire danger conditions. NOTE: If fire danger is running at or above seasonal highs, be alert to those weather conditions that can lead to extreme fire behavior; e.g., low RH, 1-hour fuel moisture less than 5%, high temperatures, moderate to high winds.
- Use it to track daily fire dangers so that there are no surprises when extreme fire behavior occurs.
- Use it to supplement local experience.
- Use the Pocket Card as a point of reference for firefighters not familiar with the area represented by the card.
- When you receive your fire assignment outside your local area, visit the National Pocket Card website at <http://famweb.nwccg.gov/pocketcards/>. Click on the map and locate a Pocket Card for the area to which you are going.
- Put the Card in the Pocket of all your firefighters and keep a copy in your fire vehicle.
- Post the card in dispatch. Use them in briefings. Provide them to incoming crews.
- Do not use the PocketCard for site specific fire behavior predictions and fireline actions.
