Incident Management Situation Report
Tuesday, June 2, 2009 – 0530 MDT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Light (123 new fires)
 New large fires: 3 (*)
 Large fires contained: 3
 Uncontained large fires: 4
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 1

** Uncontained large fires do not include confine/contain incidents. **

Predictive Services Discussion: Scattered wet thunderstorms will continue today in California, Oregon and the Great Basin. The Southwest Area will be warmer, drier with increasing southwest winds, especially across western Arizona. A few thunderstorms and higher humidity expected in northeast New Mexico. Much of the Alaska interior will be warmer and drier with cool, showery weather in the west. Gusty winds are expected over the north slopes of the Alaska Range.

Unburned Fuel Between You And The Fire

It is important for firefighters to recognize unburned fuel between themselves and the fire as Watchout Situation #11. Often it is not possible or practical to direct attack a fire. Before attempting indirect attack and any time the firefighter is in a position where there is unburned fuel between them and the fire, the following questions must be addressed immediately:

- Can you see the fire? Discuss situations you might find yourself in where you are out in the green and cannot see the fire. What can you do?
- Is fire spread in a direction away from you? Do you consider the potential for fire spread? Are you safe if the wind switches?
- Will your position be defensible when the fire reaches you? Talk about what must be taken into account when building indirect line or approaching a fire through the green.
- Is your line anchored? Discuss how you anchor indirect line.
- Are your escape routes and safety zones adequate? What is adequate?
- To reduce the risks:
 - Post lookouts
 - Consider a different location. Review situations where you constructed indirect line or approached a fire through the green and how you provided for your safety.
