Incident Management Situation Report
Friday, May 15, 2009 – 0530 MDT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Light (102 new fires)
 New large fires: 2 (*)
 Large fires contained: 2
 Uncontained large fires: 10
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 2
 Type 2 IMTs committed: 2

** Uncontained large fires do not include confine/contain incidents. **

Southern Area (PL 2)

New fires: 34
 New large fires: 1
 Uncontained large fires: 7
 Type 2 IMT's committed: 2

2009 Winter Initial Attack, Texas Forest Service. Texas IMT 2 (Bennett). IMT is supporting multiple fires throughout west Texas. Acres reported are a cumulative total. Last report unless significant activity occurs.

Orlando-Volusia Complex, Florida DOF. Florida IMT 2 (Utley). Complex includes previously reported Dragon Fly, International and Belly fires. Ten miles northeast of Chuluota, FL. Southern rough. Moderate fire activity. Precipitation occurred over the fire area yesterday.

Musgrave Canyon, Texas Forest Service. Seventeen miles southwest of Valentine, TX. Brush and grass. Minimal fire activity.

Bomb, Florida DOF. Twelve miles northeast of Sebring, FL. Southern rough. Minimal fire activity.

Indian Trail, Florida DOF. Two miles northeast of Indiantown, FL. Southern rough. Moderate fire activity.

Lincoln Park, Florida DOF. Two miles northeast of Indiantown, FL. Southern rough. Minimal fire activity. Precipitation occurred over the fire area yesterday. Reduction in acreage due to more accurate mapping.

Green Farm, Florida DOF. Ten miles northeast of Indiantown, FL. Southern rough. Minimal fire activity.

A2S – Flagstaff District, Arizona Department of Lands

Predictive Services Discussion: Southern California will be warm and dry with diminishing winds. The Southwest will be very warm with low humidity except for scattered thunderstorms over eastern New Mexico and west Texas. Florida and the Southwest should see scattered thundershowers. Alaska's Kenai Peninsula will be partly cloudy with generally light winds.

In Country Not Seen In Daylight

Often firefighters arrive on a fire after dark. This is recognized as Watchout Situation #2. Before safely fighting fire in country not seen in daylight, firefighters must be able to answer the following questions:

- Can the resources you are replacing give you a thorough briefing? Identify whom you might get information from. Can you meet up with the departing crew/engine leaders?
- Can you observe the area/use scouts? List ways you could observe the area you need to work.
- Have escape routes and safety zones been thoroughly scouted and marked for night use? Talk about what constitutes an escape route and a safety zone; who would identify them; and in what ways might they be marked.
- Have potential dangers been located; can they be mitigated? What are the dangers associated with Watchout Situation #2? How can they be worked around?
- Reduce the risks by:
 - Posting lookouts.
 - Checking communications.
 - Retreat if you have doubts about your escape routes or safety zones or the situation becomes too complex. Give examples of arriving on a fire after dark and what was done to allow you to fight fire safely in country not seen in daylight.
