

**National Interagency Coordination Center
Incident Management Situation Report
Wednesday, September 16, 2009 – 0530 MDT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (89 new fires)
 New large fires: 3 (*)
 Large fires contained: 1
 Uncontained large fires : ** 5
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 1

Nationally, there are 69 large fires being managed with minimal or no resource commitment that are not shown on today's report.

** Uncontained large fires do not include confine/contain and resource benefit incidents.

Predictive Services Discussion: It will be warm, dry and unstable today in eastern Oregon with areas of gusty winds. Otherwise, warmer and drier weather is on tap for the West except for thunderstorms over the Four Corner states and rain along the Pacific Northwest coast.

Working with Helicopter Drops

Consider the following questions when you have a helicopter with a bucket working in your area:

- Do you have good communications?
- Does the pilot have a clear understanding of the target?
- Are trees and snags in the drop zone?
- Are ground crews clear of the area?
- What are the winds doing?
- Are other aircraft in the area?
- Are people on the ground aware of the effects of the helicopter's rotorwash?
- Will terrain and obstructions allow the helicopter to attain the proper drop height?
- Be aware that helicopter performance capabilities may be significantly reduced at high altitudes and/or high temperatures.
