

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, September 17, 2009 – 0530 MDT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (78 new fires)
 New large fires: 3 (*)
 Large fires contained: 0
 Uncontained large fires : ** 4
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 1

Nationally, there are 71 large fires being managed with minimal or no resource commitment that are not shown on today's report.

** Uncontained large fires do not include confine/contain and resource benefit incidents.

Eastern Great Basin Area (PL 3)

New fires: 8
 New large fires: 1
 Uncontained large fires: 0

*** Bearpaw Bay**, Grand Teton National Park, NPS. Confine/contain management strategy. Ten miles west of Moran, WY. Lodgepole pine, sage and grass. Creeping and smoldering. Last report unless significant activity occurs.

Northwest Area (PL 2)

New fires: 3
New large fires: 1
Uncontained large fires: 3

Boze, Umpqua NF. Nine miles southwest of Toketee Falls, OR. Timber. Creeping fire with isolated torching.

Lobert, Winema NF. Two miles southeast of Chiloquin, OR. Hardwood litter and grass. Creeping fire with isolated torching. Residences threatened.

*** Tumblebug Complex**, Willamette NF. Twenty-three miles southeast of Oakridge, OR. Timber. Moderate fire activity. Road closure in effect.

Predictive Services Discussion: Warm and dry weather is on tap today over much of the West except for some showers and thunderstorms over portions of eastern Washington, northern Idaho and Montana. Thunderstorms are also expected in parts of the Four Corner states. Gusty winds are forecast for Montana.

DOZER/TRACTOR PLOW OPERATIONS

Dozers/tractor plows provide suppression and support capability for fire operations. When working on or around dozers on the fireline, it is important to respect the following guidelines:

- Load/unload equipment from the transport in a safe manner on a level, stable surface.
- Park transport in an area free of fuel. Clear an area if needed to protect parked equipment.
- Do not sit or bed down near equipment. Walk around the equipment before starting or moving it.
- Lower the dozer blade and/or fire plow to the ground when the equipment is idling or stopped.
- When working a dozer or tractor plow, stay at least 100 feet in front or 50 feet behind the equipment.
- Allow no one but the operator to ride on the equipment.
- Never get on or off equipment while it is moving.
- Provide front and rear lights for equipment working at night or in heavy smoke.
- Provide lights and fluorescent vests to personnel working with dozer/tractor plow units.
- Use hand signals for direction and safety. (See Fireline Handbook, Appendix A, for hand signals.)
- Do not use a dozer or tractor plow without a canopy or brush guard and radio communications.
- Operators will wear required PPE and carry a fire shelter.
- Be aware of different fuel types, rates of spread, and flammability.
- Watch for wetlands, steep slopes, rocks, ditches, and other obstacles that might stop the equipment.
- Do not get too far ahead of a firing crew during firing operations.
- Anchor the line to a secure firebreak and create a black line (burn out) until the fire is completely enclosed.
- Tractor plow operators should wear headgear protection for head, face, eyes, and ears while also providing radio reception and ventilation capabilities.
- Tractor plow crews should consist of a minimum of two people.
- When the dozer or tractor plow is equipped with a hand-clutch lever, always take equipment out of gear when mounting and dismounting.
