

**National Interagency Coordination Center
Incident Management Situation Report
Sunday, August 1, 2010 – 0530 MDT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (171 new fires)
New large fires:	6 (*)
Large fires contained:	2
Uncontained large fires: **	11
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	2
Type 2 IMTs committed:	3

Nationally, there are 56 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy. **

Southern California Area (PL 3)

New fires:	11
New large fires:	1
Uncontained large fires:	3
Type 1 IMTs committed	2

Crown, Los Angeles County FD. Seven miles northwest of Acton, CA. Chaparral. Rapid rates of spread. Numerous structures and major transmission lines threatened. Some evacuation orders have been lifted.

West, Kern County FD. Cal Fire IMT 1 (Zombro). Five miles south of Tehachapi, CA. Grass. Smoldering.

Bull, Sequoia NF. IMT 1 (Opliger). Eight miles north of Kernville, CA. Brush and grass. Minimal fire activity.

* **Slope**, Yosemite National Park. Eleven miles northwest of Yosemite Village, CA. Timber. Creeping and smoldering with isolated flare-ups. Last report unless significant activity occurs.

TFD – Twin Falls District, BLM

Predictive Services Discussion: Thunderstorm activity will be decreasing today and focused mainly over eastern Washington, northern Idaho, Montana, Wyoming and the Four Corner states. Gusty winds are on tap for northeast California, Nevada, eastern Idaho and Montana. Windy conditions are also expected in the passes of southern California.

**Today's discussion is from the
Aviation Category.**

AIRCRAFT AND PILOT CARDING

Every aircraft and pilot used in support of a Federal wildland fire mission must have a current Aircraft and pilot Card or letter of authorization. The card must be held in the aircraft or with the pilot, and give specific authorization to do the mission being requested.

● These missions could be all, one, or any number of, missions as follows:

- Air attack (Level I, Level II, Level III)
- Reconnaissance
- Fire surveillance
- Water bucket
- Helitorch
- Cargo
- Longline

● Every pilot who flies a properly carded aircraft must possess a current Interagency Airplane or Helicopter Pilot Qualification Card that gives specific authorization to fly the type of mission being requested and for the specific type of aircraft being used for the mission. These missions could be all, or any number of, missions as follows:

- Air attack
- Reconnaissance
- Fire surveillance
- Low-level
- Paracargo
- Mountain/Remote airstrips
- Smokejumper
- Longline

● Before the aircraft and pilot can be used for a specific mission, the aircraft must be specifically listed on a valid and current contract for the type of work being performed and a copy of the contract must be onboard the aircraft.

● Each user of the aircraft and pilot has the authorization to physically inspect the Aircraft Data Card, the Interagency Airplane or Helicopter Pilot Qualification Card, and the contract. If any one of these three are not available for inspection, the mission must be cancelled or at least postponed until the authorizations of the aircraft, pilot, or contract can be determined.

● Pilots have very specific and closely monitored duty time and flight time limitations that users must understand and adhere to:

- 14-hour duty day
- 8 hours flight time per day
- 2 days off in 14 calendar days
- 36 hours cumulative flight hours in any 6 consecutive days
