

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, August 3, 2010 – 0530 MDT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (165 new fires)
New large fires:	3 (*)
Large fires contained:	3
Uncontained large fires: **	9
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	4

Nationally, there are 47 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy. **

[Link](#) to Geographic Area daily reports.

Interagency personnel are assigned to a number of locations in the Gulf of Mexico to assess and mitigate impacts resulting from the Deepwater Horizon oil spill.

- Support to the Fish and Wildlife Service includes these areas: Bayou Sauvage NWR (LA), Big Branch Marsh NWR (LA), Breton NWR (LA), Delta NWR (LA), Shell Key NWR (LA), Bon Secour NWR (AL), Grand Bay NWR (AL), St. Vincent NWR (FL), and McFaddin NWR (TX).

- Support to the National Park Service includes these areas: Gulf Islands National Seashore (FL), Jean Lafitte Park and Preserve (LA), Everglades National Park (FL), Dry Tortugas (FL), Biscayne National Park (FL), De Soto National Memorial (FL) and Big Cypress National Preserve (FL).

Predictive Services Discussion: Warmer today over most of the West. Thunderstorms are expected over northern Washington, Northern Rockies, Wyoming and the Four Corner states.

[Link](#) to Predictive Services Outlook products.

**Today's discussion is from the
Fireline Safety Category.**

The 10 Standard Fire Orders

The orders are arranged according to their importance and grouped in logical sequence. Review and consider Standard Fire Orders as a part of every shift.

- Did you receive or request adequate weather briefing, current and predicted fire behavior, wind direction, predicted humidity, fuel moisture, local factor?
- Do you have map of the fire? Is topography, type of fuels, direction of the spread defined?
- Fire behavior group deals with what the firefighter will encounter - weather, fire status, fire behavior.
 1. Keep informed on fire weather conditions and forecasts.
 2. Know what your fire is doing at all times.
 3. Base all actions on current and expected behavior of the fire.
- Are you familiar with direction, distance, location, size of escape routes and safety zones?
- Discuss the need for lookout, such as extreme fire behavior, fire located out of line-of-sight.
- Discuss importance of the situational awareness.
- Fireline safety group emphasizes personal safety.
 4. Identify escape routes and safety zones and make them known.
 5. Post lookouts when there is possible danger.
 6. Be alert. Keep calm. Think clearly. Act decisively.
- Review importance and means of passing tactical decisions and resource movement.
- Review other factors influencing potential changes in tactics, which could affect control of your forces.
- Organizational Control group is centered around tactical decisions.
 7. Maintain prompt communications with your forces, your supervisor and adjoining forces.
 8. Give clear instructions and insure they are understood.
 9. Maintain control of your forces at all time.
- After you have considered, discussed and acted on the previous nine orders:
 10. Fight fire aggressively, having provided for safety first.
