

**National Interagency Coordination Center
Incident Management Situation Report
Saturday, August 21, 2010 – 0530 MDT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (151 new fires)
New large fires:	4 (*)
Large fires contained:	1
Uncontained large fires: **	15
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	4

Nationally, there are 53 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy. **

OKS – Oklahoma DOF

Predictive Services Discussion: Significant fire potential is forecast across much of the northwest quarter of the country today for dry and windy conditions west of the Great Divide, and hot and dry conditions east of the Divide. Isolated, initially dry thunderstorms are possible across western Montana, northern Idaho, and western Wyoming. Wet thunderstorms will develop across the Four Corner states.

[Link](#) to Predictive Services Outlook products.

Today's discussion is from the
Fireline Leadership Category.

Developing a Learning Organization

Leaders evaluate performance at all levels to understand the causal factors of successes and failures. All those involved learn incrementally, applying today's lessons to the next assignment. This focus on continuous improvement brings with it a responsibility to share lessons learned throughout the organization.

In a learning organization, leaders treat honest mistakes as opportunities to learn and do better next time. Understanding that failure is a part of learning, they establish command climates in which followers are motivated by desire to succeed rather than fear of failure. At the crew level, conducting regular After Action Reviews is one of the most powerful tools a leader has for building effective and cohesive teams.

Discussion Points

- Discuss the relationship between developing a learning organization and safety.
- What happens when honest mistakes are punished rather than used as a learning opportunity?
- How are mistakes and failure dealt with within your crew / organization?
- What was your crew's / organization's most recent learning moment?
