

**National Interagency Coordination Center
Incident Management Situation Report
Friday, February 26, 2010 – 0800 MT
National Preparedness Level 1**

National Fire Activity (Weekly Total)

Initial attack activity: Light (528 new fires)
 New large fires: 7(*)
 Large fires contained: 5
 Uncontained large fires : ** 1
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 0

Nationally, there are 0 large fires being managed with minimal or no resource commitment.

** Uncontained large fires do not include confine/contain and resource benefit incidents.

Thirteen incident management specialists are assisting the State of Victoria, Australia. They are stationed at Orbost, Traralgon, Woori Yallock, Otways, Bendigo, Ballarat and Alexandra to supplement Victoria's Incident Management Team capacity and assist local offices with aviation management, community risk assessment, fuels management, and community bushfire protection planning.

Southern Area (PL 1)

New fires: 497
 New large fires: 7
 Uncontained large fires: 1

Turkey Hunter, Oklahoma DOF. Seven miles southwest of Keys, OK. Grass. No further information received.

Going Away Party, National Forests in Mississippi. Confine/contain management strategy. Six miles northeast of Brooklyn, MS. Grass and heavy downed fuels. Moderate fire activity. Last report unless significant activity occurs.

FLS - Florida DOF ALS – Alabama Forestry Commission

Predictive Services Discussion: Very low humidity is expected for much of the Southeast today and mainly over Georgia and the Carolinas on Saturday. Rain west of the Mississippi River today will spread to Florida on Saturday. Much of the Southwest will be dry on Sunday. Rain and mountain snow is on tap for Southern California today and tonight with the storm reaching the Southwest on the weekend.

Today's discussion is from the
Aviation Category.

HELICOPTER LANDING AREA SAFETY

The following points should be considered when operating around an unimproved landing site:

- Always wear your personal protective equipment (PPE) when working around an operating helicopter. (Eye, hearing, head)
- Always get the approval of a flight crewmember or the pilot before approaching an operating helicopter.
- Only approach and depart a helicopter as directed, in a slightly crouched position, and in full view of a crewmember. Keep in pilot's field of vision at all times.
- Never go near the tail of helicopters.
- When loading helicopters in uneven terrain, always approach and depart from the down slope (lower) side and do not hold equipment overhead..
- Remove or secure loose articles prior to working around an operating helicopter.
- Be aware of the dust abatement conditions of the landing area, as blowing dust, sand, or rocks caused by the helicopter's rotor wash can be hazardous.
