

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, June 17, 2010 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (113 new fires)
New large fires:	2 (*)
Large fires contained:	1
Uncontained large fires: **	11
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	3

Nationally, there are 35 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy. **

Department of Interior personnel are assigned to several locations in the Gulf of Mexico to assess and mitigate impacts resulting from the Deepwater Horizon oil spill.

- A total of 456 personnel are assigned to the Fish and Wildlife Service at Delta, Breton and Bon Secour National Wildlife Refuges, as well as Houma, LA and Mobile, AL.

- A total of 410 National Park Service personnel are assigned to Gulf Islands National Seashore, Jean Lafitte Park and Preserve, Everglades National Park, Dry Tortugas, Biscayne National Park, De Soto National Memorial and Big Cypress National Preserve.

Southwest Area (PL 4)

New fires:	8
New large fires:	0
Uncontained large fires:	7
Type 1 IMTs committed:	1
Type 2 IMTs committed:	2

Tecolote, Santa Fe NF. IMT 1 (Van Bruggen). Fifteen miles northwest of Las Vegas, NM. Timber. Moderate fire activity.

South Fork, Santa Fe NF. IMT 2 (Templin). Twenty miles west of Espanola, NM. Timber. Active fire behavior with torching and spotting.

Horseshoe, Coronado NF. IMT 2 (McBratney). Five miles south of Portal, AZ. Timber. Active fire behavior.

Cutoff, Guadalupe Mountains National Park. Twenty-five miles southwest of Queen, NM. Brush. No new information.

Aspen, Gila NF. Twenty-six miles northwest of San Lorenzo, NM. Timber. Backing fire.

Ft Bliss 2, Las Cruces Field Office, BLM. Fifteen miles southeast of Las Cruces, NM. Brush and grass. Moderate fire activity.

Red Fern, Santa Fe NF. Twelve miles east of Cuba, NM. Timber. Smoldering. Structures threatened.

Predictive Services Discussion: Significant fire potential is forecast for the southern Front Range of Colorado due to dry and windy conditions. The low pressure system over the West will move across the Northern Rockies with strong winds across the central U.S. Winds will decrease today across southern California, the Great Basin and the Southwest. Mixed wet and dry thunderstorms are possible across southeast New Mexico.

Today's discussion is from "This Day in History"

"Lessons Learned" serve as brief summaries of powerful learning opportunities. You can use these summaries as a foundation and launch point for further dialogue and discussion. Apply these lessons learned to yourself, your crew, and your unit.

Origin of the 10 and 18's – June 17th, 1957

Summary: The original ten Standard Firefighting Orders were developed in 1957 by a task force commissioned by the USDA-Forest Service Chief Richard E. McArdle. The task force reviewed the records of [16 tragedy fires that occurred from 1937 to 1956](#). The Standard Firefighting Orders were based in part on the successful "General Orders" used by the United States Armed Forces. The Standard Firefighting Orders are organized in a deliberate and sequential way to be implemented systematically and applied to all fire situations.

Shortly after the Standard Firefighting Orders were incorporated into firefighter training, the 18 Situations That Shout Watch Out were developed. These 18 situations are more specific and cautionary than the Standard Fire Orders and described situations that expand the 10 points of the Fire Orders with the intent that if firefighters follow the Standard Firefighting Orders and are alerted to the 18 Watch Out Situations, much of the risk of firefighting can be reduced. Below is the original recommendation and fire orders from the report.

Standard Firefighting Orders. Recommendation:

Adopt for service-wide use the attached "Standard Firefighting Orders." These orders are to be committed to memory by all personnel with fire control responsibilities.

STANDARD FIREFIGHTING ORDERS

1. **FIRE WEATHER.** Keep informed of fire weather conditions and predictions.
2. **INSTRUCTIONS.** Know exactly what my instructions are and follow them at all times.
3. **RIGHT THINGS FIRST.** Identify the key points of my assignment and take action in order of priority.
4. **ESCAPE PLAN.** Have an escape plan in mind and direct subordinates in event of a blow-up.
5. **SCOUTING.** Thoroughly scout the fire areas for which I am responsible.
6. **COMMUNICATION.** Establish and maintain regular communication with adjoining forces, subordinates, and superior officers.
7. **ALERTNESS.** Quickly recognize changed conditions and immediately revise plans to handle.
8. **LOOKOUT.** Post a lookout for every possibly dangerous situation.
9. **DISCIPLINE.** Establish and maintain control of all men under my supervision and at all times know where they are and what they are doing.
10. **SUPERVISION.** Be sure men I commit to any fire job have clear instructions and adequate overhead.

Discussion Points

Have everyone at the briefing look at the IRPG outside back cover, the current Standard Fire Orders. Compare the current and original list.

- Is the same material covered?
- What are the biggest differences?

Though the Fire Orders are in the form of a list, they are *not* a checklist. The intended use of the Orders is not to check off 1 through 10 and be done with them, but to act as reminders of conditions that need to be continuously maintained and assessed.

- What is the connection between the Standard Fire Orders and situational awareness?

Originally there were 13 Watchout Situations with the last 5 being added on in the early 90's.

- If you could add one more Watch Out what would it be and why?

The original recommendation in 1957 states that the Fire Orders "are to be committed to memory".

- What do you and your crew/unit do to help each other remember and understand the 10 & 18's?
