National Interagency Coordination Center
Incident Management Situation Report
Friday, June 25, 2010 – 0530 MT
National Preparedness Level 2

National Fire Activity

Initial attack activity:	Light (124 new fires)
New large fires:	2 (*)
Large fires contained:	2
Uncontained large fires: **	12
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	5

Nationally, there are 41 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy. **

Link to Geographic Area daily reports.

Department of Interior personnel are assigned to several locations in the Gulf of Mexico to assess and mitigate impacts resulting from the Deepwater Horizon oil spill.
- A total of 499 personnel are assigned to the Fish and Wildlife Service at Delta, Breton and Bon Secour National Wildlife Refuges, as well as Houma, LA and Mobile, AL.
- A total of 88 National Park Service personnel are assigned to Gulf Islands National Seashore, Jean Lafitte Park and Preserve, Everglades National Park, Dry Tortugas, Biscayne National Park, De Soto National Memorial and Big Cypress National Preserve.

Southwest Area (PL 4)

New fires:	23
New large fires:	0
Uncontained large fires:	8
Type 1 IMTs committed:	1
Type 2 IMTs committed:	3

Schultz, Coconino NF. IMT1 (Hughes). Four miles north of Flagstaff, AZ. Timber. Moderate fire activity.

South Fork, Santa Fe NF. IMT 2 (Templin). Twenty miles west of Espanola, NM. Timber. Moderate fire activity. Municipal watershed threatened. Precipitation occurred over the fire area yesterday.

Paradise, Apache-Sitgreaves NF. IMT 2 (Small). Limited perimeter control incident. Sixteen miles southeast of Alpine, AZ. Timber. Creeping fire with isolated torching.

Horseshoe, Coronado NF. IMT 2 (Cook). Five miles south of Portal, AZ. Timber. Minimal fire activity. Reduction in acreage due to more accurate mapping.

Eagle Rock, Kaibab NF. Eleven miles northeast of Williams, AZ. Timber. Smoldering with isolated interior torching.

Aspen, Gila NF. Twenty-six miles northwest of San Lorenzo, NM. Timber. Backing fire. Reduction in acreage due to more accurate mapping.

Dead Man, Capitan District, New Mexico State Forestry. Thirty miles west of Roswell, NM. Grass. Creeping fire with short runs.

Tecolote, Santa Fe NF. Fifteen miles northwest of Las Vegas, NM. Timber. No new information.

Hardy, Flagstaff District, Arizona Dept. of Lands. Two miles southeast of Flagstaff, AZ. Timber. Interior smoldering. Structures threatened.

FKU – Fresno-Kings Unit, Cal Fire

Predictive Services Discussion: Significant fire potential is forecasted today for eastern Arizona, western New Mexico and portions of Colorado due to dry thunderstorms. Gusty winds are on tap for the southwest quarter of the country. Alaska will be warm and dry with isolated thunderstorms possible across the interior.

Link to Predictive Services Outlook products.

Today's discussion is from the Fireline Safety Category.

TAKING A NAP NEAR THE FIRELINE

Firefighting is often exhausting work and firefighters can find themselves needing to sleep while on the fireline. Before pausing to rest, firefighters must weigh the following considerations:

- Are lookouts posted? Discuss who that lookout can be. Can the lookout on the knob across the draw watch over you or does it need to be your partner on the fireline alternating rest times?
- Is the area free of hazards? (Falling snags or rolling materials) Discuss what you need to do to create a safe resting area.
- Are you still within agency work and rest guidelines? Review what these guidelines are.
- Does your crew need a break? Have they been pushed too hard? Talk about situations where you need to simply take yourself and/or your crew off the fire for uninterrupted rest.
- To reduce risks:
    - Keep lookouts posted; rotate lookouts.
    - Communicate crew conditions and status to supervisor or chain-of-command contact. Have firefighters discuss ways that they find to rest on the fireline and suggestions for methods to alternate shifts for more effective firefighting.
