

**National Interagency Coordination Center
Incident Management Situation Report
Monday, May 10, 2010 – 0530 MT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Light (43 new fires)
 New large fires: 1 (*)
 Large fires contained: 1
 Uncontained large fires: ** 2
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 0

Nationally, there are 0 large fires being managed to achieve multiple objectives.

** Uncontained large fires includes only fires being managed under a full suppression strategy.**

Department of Interior personnel are assigned to several locations in the Gulf of Mexico to assess and mitigate impacts resulting from the Deepwater Horizon oil spill.

- A total of 167 Fish and Wildlife Service personnel are assigned to Delta, Breton and Bon Secour National Wildlife Refuges, as well as Houma, LA and Mobile, AL.

- A total of 57 National Park Service personnel are assigned to Gulf Islands National Seashore, Everglades National Park, Biscayne National Park, De Soto National Memorial and Big Cypress National Preserve.

Southwest Area (PL 1)

New fires: 14
 New large fires: 0
 Uncontained large fires: 2

89 Mesa, Coconino NF. Nine miles east of Flagstaff, AZ. Timber and hardwood litter. Smoldering.

Haughtelin, Ft. Yuma Agency, BIA. Two miles southwest of Bard, CA. Salt cedar and chaparral. Minimal fire activity.

NJS – New Jersey Forest Fire Service

Predictive Services Discussion: A low pressure system moving into the southern Great Plains today will create strong winds from eastern Arizona, across the eastern Four Corner states, and into the southern Great Plains. Significant fire potential will develop in southeast Arizona, New Mexico and west Texas with windy and dry conditions. Low relative humidity will continue across portions of the Great Lakes and East Coast under a dry surface high pressure system. Windy and dry conditions will continue in the Northeast.

[Link](#) to Predictive Services Outlook products.

**Today's discussion is from the
Fireline Safety Category.**

Extended Attack

After your initial size-up of the fire and/or transfer of command from an initial attack IC, answer the following questions. Repeat this analysis whenever there is a change, or predicted change, in fire conditions.

- Do you have a current fire weather forecast for the fire location?
- Is the observed fire weather consistent with the forecast?
- Have you established a new organizational structure and communicated it to the other forces associated with the fire?
- Can you control the fire with the resources available (either on the incident or soon to be on the incident) under expected conditions?
- Have you developed a plan to attack the fire?
 - Direct or indirect
 - Anchor points
 - Escape routes
 - Head or flank attack
 - Priority areas
- Have you communicated this to all personnel assigned to the incident, including new arrivals?
- Can you see all of the fire area?
- Can you communicate with everyone on the fire and with dispatch?
- Are escape routes established?
 - If you are using the black, is it completely burned and without a reburn potential?
- Are safety and the standard fire orders being followed and/or mitigated?
- Will you contain the fire before the next operational period?
- Have you reported the status of the fire to dispatch?
- Do you have a complete list of what resources have been ordered for the fire?
