

**National Interagency Coordination Center
Incident Management Situation Report
Wednesday, November 3, 2010 – 0530 MT
National Preparedness Level 1**

National Fire Activity

Initial attack activity:	Light (118 new fires)
New large fires:	3 (*)
Large fires contained:	4
Uncontained large fires: **	12
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	0

Nationally, there are 15 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

Southern Area (PL 3)

New fires:	99
New large fires:	3
Uncontained large fires:	12

The Crippled Chinook, National Forests in Mississippi. Six miles southwest of Augusta, MS. Timber and southern rough. Minimal fire activity. Last report unless significant activity occurs.

Wrangler, Kisatchie NF. Twenty miles southwest of Natchitoches, LA. Southern rough, pine and hardwood. Smoldering.

Bombing Range Nine 21, National Forests in Florida. Eleven miles west of Astor, FL. Timber and brush. Smoldering. Last report unless significant activity occurs.

Lucky Hollow, George Washington and Jefferson NF. Fourteen miles northeast of Harrisonburg, VA. Timber. Minimal fire activity.

Fish Trap, Daniel Boone NF. Nine miles northwest of Campton, KY. Hardwood litter. No new information.

Middle Branch, Kentucky DOF. Started on private land one mile northeast of McDowell, KY. Hardwood litter. No new information.

Sheppard, Florida DOF. Thirty-five miles west of Orlando, FL. Southern rough. No further information received.

* **Mooney**, Oklahoma DOF. Three miles northeast of Jay, OK. Hardwood litter. No further information received.

McGill, Osage Agency, BIA. Four miles southwest of Barnsdall, OK. Timber. No further information received.

* **Barker Branch**, Daniel Boone NF. Eleven miles southeast of Stanton, KY. Hardwood litter. No further information received.

* **Tower Hill**, Oklahoma DOF. Five miles southeast of Kenwood, OK. Hardwood litter. No further information received.

Asbury LN, Kentucky DOF. Started on private land one mile northeast of Lomansville, KY. Hardwood litter. No new information.

MTF – Mark Twain NF

Predictive Services Discussion: Low humidity is on tap today in a band stretching from Missouri and Illinois northeast into New England. Showers are expected across much of the Southeast. Southern California will be hot and dry with gusty north to east winds over the mountains and passes.

[Link](#) to Predictive Services Outlook products.

Today's discussion is from the Weather / Fire Behavior Category

[Scenario](#) (Interactive Cloud Poster: loads slow)

UNFAMILIAR WITH WEATHER AND LOCAL FACTORS INFLUENCING FIRE BEHAVIOR

- Ask questions of local experts! What kinds of questions would you ask?
- Does the operational period plan give you adequate weather and information? What kinds of weather forecasts can you get? What other weather or local information do you look for in the shift plan?
- Can you get information from resources that have been on the fire? What questions will you ask of the crew that you are replacing?
- Is there any other way to obtain information? List common sources of information on weather and local factors (Examples: Web based weather Activity Planner, Point Forecast Matrix, NOAA Internet Briefing)
- To reduce risks:
 - Base all actions on current and expected fire behavior.
 - Post lookouts.
 - Establish escape routes and safety zones.
 - Take extra caution! Discuss a fire where you relied on information from the local unit (perhaps where your fire knowledge and experience was very different from how they did things—southeast or Alaska).
 - Recognize and report visual indicators (clouds, WX obs., cold front passage, inversion breaking)
