

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, October 14, 2010 – 0530 MT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Light (126 new fires)
 New large fires: 3 (*)
 Large fires contained: 1
 Uncontained large fires: ** 0
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 0

Nationally, there are 55 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

ARS – Arkansas Forestry Commission MNF – National Forests in Mississippi

Predictive Services Discussion: Offshore flow will continue in southern California with warm temperatures and poor relative humidity recoveries. Isolated thunderstorms with limited moisture are possible in southern Arizona and southeastern California. Light onshore flow will develop in Northern California with increasing relative humidity. Dry and breezy conditions will develop in Wyoming and portions of the Southeast.

Today's discussion is from the
Miscellaneous Category.

Topic of Choice

Six Minutes for Safety encourages firefighters to use the "Topic of Choice" days to discuss events or issues that have occurred in the past that might provide lessons for doing better, safer work today. Suggested websites to use as references include:

- The Interagency Investigation Review Database- Search this database to find historical documents from wildland fire incidents. The available documents include 24 and 48 hour reports, factual accident investigation reports, escaped prescribed fire reviews and more.

<http://www.wildfirelessons.net/IIRDB.aspx>

- SAFENET- Search recent submissions to find problems and solutions encountered in every aspect of Wildland fire.

<http://safenet.nifc.gov/safenet.nsf/>

- Safety Alerts- This site catalogues all the Safety Alerts sent by the NWCG Safety and Health Working Team over the last five years.

<http://safenet.nifc.gov/notice.nsf>

- Job Hazard Analysis Library- This web based fire JHA library was jointly developed by FFAST and Region 1 of the Forest Service. Numerous JHA's are posted on the site as well as instructions on how to prepare a JHA

http://www.fs.fed.us/r1/people/jha/jha_index_www.html

- After Action Reviews and Rollups- Lessons and practices which are distilled and distributed as knowledge products to the wildland fire community through the Wildland Fire Lessons Learned Center.

<http://www.wildfirelessons.net/AAR.aspx>

- Incident Toolbox- A collection of tactics, techniques and procedures that have proven to work in various parts of the country and on various types of incidents. Includes information on fuels, strategy, tactics, special safety and logistical concerns in any part of the country.

<http://www.wildfirelessons.net/Winning.aspx?Page=Overview>

- FireFit- FireFit is a program intended to provide the interagency wildland fire community with a comprehensive, easy-to-follow, fitness program with the ultimate goal of improving firefighter safety and health and reducing injuries.
