

**National Interagency Coordination Center
Incident Management Situation Report
Saturday, September 25, 2010 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (196 new fires)
 New large fires: 3 (*)
 Large fires contained: 2
 Uncontained large fires: ** 4
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 1

Nationally, there are 80 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Eastern Great Basin Area (PL 3)

New fires: 11
 New large fires: 1
 Uncontained large fires: 2
 Type 2 IMTs committed: 1

Machine Gun, Wasatch Front Area, Utah DOF. Two miles south of Herriman, UT. Brush and grass. Minimal fire activity.

Twitchell Canyon, Fishlake NF. IMT 2 (Whalen). Seven miles east of Manderfield, UT. Timber. Minimal fire activity. Numerous structures and a major power corridor threatened.

* **MM107 HWY20**, Boise District, BLM. Eight miles northeast of Mountain Home, ID. Brush and grass. Active fire behavior.

NCS – North Carolina Division of Forest Resources

Predictive Services Discussion: A warming and drying trend is on tap this weekend over the West as strong high pressure builds over the region. Southern California will be hot with very low humidity and local gusty winds in the canyons and passes. The Southeast and Mid-Atlantic States will see increasing humidity along with scattered showers and thunderstorms this weekend.

[Link](#) to Predictive Services Outlook products.

Today's discussion is from the
Aviation Category.

SAFECOM Summaries

The Aviation Safety Communiqué (**SAFECOM**) [AMD-34/FS-5700-14](#) should be used to report any condition, observation, act, maintenance problem, or circumstance with personnel or the aircraft that has the potential to cause an aviation-related mishap. SAFECOMS are a tool used to identify, document, track, and correct aviation safety related issues.

During higher flight activity months, NPS, BLM and the Forest Service will summarize SAFECOMs and identify trends and other learning points. Though searching the SAFECOM website for individual reports are always available as a good source of lessons learned, SAFECOM summaries are a great source of information condensed and easily used as a topic for a safety discussion.

Links to all SAFECOM summaries can be found on the Lessons Learned Center's Aviation Safety Page: <http://www.wildfirelessons.net/Additional.aspx?Page=179#safecom>

Direct links to SAFECOM summaries:
