

**National Interagency Coordination Center
Incident Management Situation Report
Wednesday, September 29, 2010 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (83 new fires)
 New large fires: 0 (*)
 Large fires contained: 0
 Uncontained large fires: ** 0
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 1

Nationally, there are 81 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

Eastern Great Basin Area (PL 3)

New fires: 7
 New large fires: 0
 Uncontained large fires: 0
 Type 2 IMTs committed: 1

Twitchell Canyon, Fishlake NF. IMT 2 (Whalen). Seven miles east of Manderfield, UT. Timber. Backing fire with mid-range spotting. Numerous structures threatened. Major power corridor and portions of Interstate 70 threatened.

Predictive Services Discussion: Very warm and dry conditions will continue across the West. Southern California will see slightly cooler temperatures and isolated thunderstorms, some with limited moisture, across the southern mountains. The Mid-Atlantic states will continue to see scattered showers with dry conditions across the Tennessee Valley and western Gulf Coast states.

**Today's discussion is from the
Fireline Safety Category.**

OPERATIONAL BRIEFINGS

Operational briefings are critical to safe fire operations. To ensure a consistent and effective briefing, a standardized briefing checklist should always be used. The following checklist is printed on the cover of the NWCG Incident Response Pocket Guide:

● **Situation:**

- Fire name, location, map orientation, other incidents in the area
- Terrain influences
- Fuel type and conditions
- Fire weather (previous, current, and expected)
- Fire behavior (previous, current, and expected)

● **Mission/Execution:**

- Command (Incident Commander/immediate supervisor)
- Leader's intent
- Specific tactical assignments
- Contingency plans

● **Communications:**

- Communication Plan (tactical, command, air/ground frequencies, cell phone numbers, etc.)
- Medevac Plan

● **Service/Support:**

- Other resources that may be working adjacent to you and those available to order
- Aviation operations
- Logistics (e.g., transportation, supplies, equipment)

● **Risk Management:**

- Identify known hazards and risks
- Identify control measures to eliminate hazards and reduce risk
- Identify trigger points for disengagement or reevaluation of operational plan
