

**National Interagency Coordination Center
Incident Management Situation Report
Friday, April 22, 2011 – 0530 MT
National Preparedness Level 1**

National Fire Activity

Initial attack activity:	Light (126 new fires)
New large fires:	3 (*)
Large fires contained:	9
Uncontained large fires: **	15
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	2
Type 2 IMTs committed:	2

Nationally, there is 1 large fire being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

The 145th Airlift Wing, Charlotte, NC and the 153rd Air Wing, Cheyenne, WY are providing one MAFFS C-130 aircraft each, along with two from the 146th Air Wing, Channel Islands, CA, and support personnel to the state of Texas. The aircraft and personnel are based at Dyess Air Force Base under the command of Colonel Jack Pittman.

Southern Area (PL 4)

New fires:	69
New large fires:	2
Uncontained large fires:	14
Type 1 IMT committed	2
Type 2 IMT committed	2

IMT 1 (Quesinberry) is assigned to manage large fires and provide support to initial attack operations for the West Branch Operational Area in Texas. Texas State IMT 2 (Hannemann) is managing existing and new fires located in Texas state initial attack zones. Florida IMT 2 (Graham) is managing existing and new fires for the East Branch Operational Area in Texas.

PK Complex (4 fires), Texas Forest Service. IMT 1 (Wilder). Sixteen miles northeast of Breckenridge, TX. Brush and grass. Moderate fire activity. Numerous communities threatened. Evacuations in effect.

Rock House, Texas Forest Service. Fort Davis, TX. Pinyon pine, juniper, brush and slash. Structures threatened. Active fire behavior.

Wildcat, Texas Forest Service. Nineteen miles southwest of Bronte, TX. Grass. Moderate fire activity. Numerous residences threatened.

Sutton, Texas Forest Service. Twenty miles southwest of Ozona, TX. Grass. No further information received.

Bryson Complex (2 fires), Texas Forest Service. Five miles southeast of Bryson, TX. Brush and grass. Active fire behavior.

U-Pick, Florida DOF. Eight miles northwest of Indiantown, FL. Southern rough. Moderate fire activity.

* **Hungryland**, Florida DOF. Fourteen miles west of Jupiter, FL. Grass. Moderate fire activity.

* **Ranger**, National Forests in Florida. Five miles southwest of Crawfordville, FL. Southern rough. Moderate fire activity with isolated torching and short-range spotting.

Pipeline, Texas Forest Service. Started on private land ten miles northeast of Kountze, TX. Pine plantation. No new information. Last report unless new information is received.

Merritt, St. Johns NWR. Five miles northwest of Sharpes, FL. Timber and grass. No new information. Last report unless new information is received.

N4S – Las Vegas District, New Mexico State Forestry A3S – Tucson District, Arizona DOF

Predictive Services Discussion: Low relative humidity below 15 percent and gusty winds of 20 to 30 mph will produce critical fire weather conditions across eastern New Mexico and parts of southeastern Colorado and far west Texas. Showers and thunderstorms will continue to move through Nebraska, Oklahoma and north Texas to the Ohio and Tennessee Valleys. Rain and snow showers will spread across the northern Plains to the northern Rockies.

Today's discussion is from the
Aviation Category.

HELICOPTER LANDING AREA SAFETY

The following points should be considered when operating around an unimproved landing site:

- Always wear your personal protective equipment (PPE) when working around an operating helicopter. (Eye, hearing, head)
- Always get the approval of a flight crewmember or the pilot before approaching an operating helicopter.
- Only approach and depart a helicopter as directed, in a slightly crouched position, and in full view of a crewmember. Keep in pilot's field of vision at all times.
- Never go near the tail of helicopters.
- When loading helicopters in uneven terrain, always approach and depart from the down slope (lower) side and do not hold equipment overhead..
- Remove or secure loose articles prior to working around an operating helicopter.
- Be aware of the dust abatement conditions of the landing area, as blowing dust, sand, or rocks caused by the helicopter's rotor wash can be hazardous.
